Nuclear, Biological and Chemical Warfare Benjamin C. Garrett, John Mason Hart, 2009-09-16 Human experience with nuclear biological and chemical NBC warfare has been limited especially in comparison to conventional forms of warfare Our experience with nuclear warfare is confined to a period of less than one week during the end of World War II when the United States successfully used two nuclear weapons against targets in Japan The course of biological warfare and modern use of biological weapons are difficult to track owing to the difficulty of differentiating deliberate use from natural outbreaks However the keen potential of biological weapons in acts of terror was shown in the mass disruption caused in the fall 2001 experience in the U S with the release of anthrax through the American postal system Chemical weapons have been used in a handful of conflicts since their introduction to modern warfare during World War I most recently during the Iran Iraq War during the 1980s Despite this limited experience NBC warfare continues to exert a certain fascination among states The A to Z of Nuclear Biological and Chemical Warfare covers the development and use of NBC weapons as well as efforts to limit or control the use of these weapons through a chronology a bibliography an introductory essay and dictionary entries Over 500 cross referenced dictionary entries provide a unique selection of terms related to NBC warfare ranging from basic descriptions of substances used in NBC warfare to details on incidents and episodes where NBC weapons were used Entries are structured around historical events persons important to NBC warfare countries where such weapons have been developed or used and international treaties and treaty related organizations

Toxicology in Antiquity, 2018-10-22 Toxicology in Antiquity provides an authoritative and fascinating exploration into the use of toxins and poisons in antiquity It brings together the two previously published shorter volumes on the topic as well as adding considerable new information Part of the History of Toxicology and Environmental Health series it covers key accomplishments scientists and events in the broad field of toxicology including environmental health and chemical safety This first volume sets the tone for the series and starts at the very beginning historically speaking with a look at toxicology in ancient times The book explains that before scientific research methods were developed toxicology thrived as a very practical discipline People living in ancient civilizations readily learned to distinguish safe substances from hazardous ones how to avoid these hazardous substances and how to use them to inflict harm on enemies It also describes scholars who compiled compendia of toxic agents New chapters in this edition focus chiefly on evidence for the use of toxic agents derived from religious texts Provides the historical background for understanding modern toxicology Illustrates the ways previous civilizations learned to distinguish safe from hazardous substances how to avoid the hazardous substances and how to use them against enemies Explores the way famous historical figures used toxins New chapters focus on evidence of the use of toxins derived from religious texts

The Black Sun Stanton Marlan, 2008-05-08 Also available in an open access full text edition at <http://oaktrust.library.tamu.edu/handle/1969.1/86080> The black sun an ages old image of the darkness in individual lives and in life itself has not been treated hospitably in the modern world Modern psychology has seen darkness primarily as a negative force something to move

through and beyond but it actually has an intrinsic importance to the human psyche In this book Jungian analyst Stanton Marlan reexamines the paradoxical image of the black sun and the meaning of darkness in Western culture In the image of the black sun Marlan finds the hint of a darkness that shines He draws upon his clinical experiences and on a wide range of literature and art including Goethe's Faust Dante's Inferno the black art of Rothko and Reinhardt to explore the influence of light and shadow on the fundamental structures of modern thought as well as the contemporary practice of analysis He shows that the black sun accompanies not only the most negative of psychic experiences but also the most sublime resonating with the mystical experience of negative theology the Kabbalah the Buddhist notions of the void and the black light of the Sufi Mystics An important contribution to the understanding of alchemical psychology this book draws on a postmodern sensibility to develop an original understanding of the black sun It offers insight into modernity the act of imagination and the work of analysis in understanding depression trauma and transformation of the soul Marlan's original reflections help us to explore the unknown darkness conventionally called the Self The image of Kali appearing in the color insert following page 44 is Maitreya Bowen reproduced with her permission maitreyabowen yahoo com
