Política Brasileira Contemporânea:

Economia política brasileira contemporânea Hugo Feitosa Gonçalves, 2024-02-20 Esta obra traz o Estado ao centro do debate e destinada aqueles que se propõem a conhecer a realidade brasileira a partir das questões materiais históricas. Tomamos como objeto central a materialização dos conflitos de classes nas contrarreformas neoliberais dos governos Temer e Bolsonaro especificamente a do Teto de Gastos sociais 2016 e de continuidade das contrarreformas Trabalhista 2017 e da Previdência 2019. Em contraponto superficialidade do discurso de interesse nacional de homogeneidade dos interesses sociais este livro apresenta de forma empírica instrumentalizada a partir de um denso arcabouço teórico quem são os que avançam sobre o fundo público em específico e sobre a renda social no geral os ganhadores e quem são os perdedores com o livre pairar do espírito neoliberal sobre o Estado e sobre as frações sociais brasileiras. HISTÓRIA POLÍTICA DO BRASIL Shawn Armstrong, 2025-04-02 Preparando o cenário o cenário político do Brasil O cenário político do Brasil caracterizado por uma significativa diversidade geográfica e demográfica com temas profundamente enraizados como desigualdade clientelismo e autoritarismo moldando sua governança. Os contextos históricos revelam um legado de estratificação racial e o impacto da escravidão influenciando a participação e a representação política contemporâneas. Capítulo 1 Estruturas políticas indígenas A governança indígena no Brasil marcada por sistemas descentralizados laços de parentesco e práticas de construção de consenso. A introdução da escravidão durante os tempos coloniais estabeleceu hierarquias raciais que persistem até hoje. Os jesuítas desempenharam um papel notável na educação indígena enquanto o governo centralizado emergiu durante o período colonial levando a tensões entre as autoridades regionais e centrais. Capítulo 2 A Implantação da República Brasileira A derrubada do imperador Dom Pedro II em 1889 marcou a transição para uma república repleta de instabilidade política dependência econômica das exportações de café e frequentes mudanças de governo. A ascensão de Getúlio Vargas introduziu o intervencionismo estatal e as reformas trabalhistas solidificando seu legado como líder populista apesar das críticas subsequentes. Capítulo 3 Ditadura Militar 1964-1985 O golpe militar de 1964 foi alimentado pela instabilidade política desafios econômicos e temores do comunismo. O envolvimento dos EUA exacerbou a situação levando a um regime marcado pela repressão e narrativas de segurança nacional que justificavam medidas autoritárias. Capítulo 4 Democratização pós-ditadura 1985 presente A transição para a governança civil em 1985 deu início a um processo gradual de democratização. Os principais desenvolvimentos incluíram a eleição de Tancredo Neves e o estabelecimento da Constituição de 1988 que consagrou os direitos fundamentais e o poder descentralizado. No entanto desafios como escândalos de corrupção principalmente a Operação Lava Jato testaram as instituições democráticas e a confiança do público. Clima político atual Nos últimos anos houve mudanças significativas no ambiente político do Brasil. A operação Lava Jato revelou ampla corrupção levando ao impeachment da presidente Dilma Rousseff e ascensão de Jair Bolsonaro em 2018. O governo Bolsonaro tem sido marcado por políticas de extrema direita descontentamento público com a instabilidade econômica preocupações ambientais com a Amazônia e respostas controversas pandemia de COVID-19.

Principais desafios O Brasil enfrenta problemas contínuos incluindo desigualdade econômica, degradação ambiental e corrupção. A interação entre o meio social e político intensificou a polarização enquanto influenciava a opinião pública. As altas taxas de desemprego contribuem ainda mais para a instabilidade política exigindo reformas institucionais para restaurar a confiança pública e aumentar o engajamento cívico. Conclusão O cenário político do Brasil moldado por sua complexa história de estruturas de governança, movimentos sociais e lutas contínuas pela consolidação democrática. A evolução do regime autoritário para as práticas democráticas atuais reflete tanto o progresso quanto os desafios persistentes que definirão a futura trajetória política do Brasil.

Curso de Política Externa Brasileira Contemporânea Rodrigo Fernando Gallo, 2023-06-28 O profissional de Relações Internacionais não pode se furtar de uma forma objetiva e conceitual além de constante atualização uma vez que o nosso objeto de estudo não estático. Esse é o alicerce fundamental da nossa atuação profissional que nos permite enxergar nuances e particularidades nas relações não somente entre países mas entre indivíduos institui e organiza as normas e regras em um ambiente de luta por poder contínuo. Esta obra se faz tão relevante exatamente porque independentemente de qual seja a sua realidade de atuação a defesa de interesses será uma constante em prática e engajamento onde a Política Externa a ilustra o prática mais clássica mas vem se reinventando em formas variadas como a Paradiplomacia ou mesmo as Relações Institucionais e Governamentais. Ao passo que existe uma ampliação e diversificação consistente de atores e agendas que demandam espaço e posicionamento na busca de soluções de problemas públicos as formas de defesa de interesses também se ampliam.

Justiça Política do Brasil Contemporâneo Gabriel Medeiros de Miranda, 2024-04-15 A hipótese de utilização do judiciário para fins políticos tem sido aventada a partir de diferentes linhas de investigação no mundo todo. No Brasil tem se destacado as categorias de pós-democracia, Estado de Exceção e Lawfare para descrever esse fenômeno. Este livro se propõe a habilitar no debate público brasileiro contemporâneo o conceito de justiça política conforme construído por Otto Kirchheimer. Ao recorrer a esse conceito mergulhando em bibliografia ainda pouco acessível ao leitor brasileiro em função da ainda pendente tradução de obras como Justiça Política para o português esta obra investiga a hipótese de uma conceitualização acurada do fenômeno jurídico-político que se desenrolou no país no chamado Caso Lula. A obra de Kirchheimer nos permite olhar a

Decadent Developmentalism Matthew M. Taylor, 2020-11-12 Brazil features regularly in global comparisons of large developing economies Yet since the 1980s the country has been caught in a low level equilibrium marked by lackluster growth and destructive inequality One cause is the country's enduring commitment to a set of ideas and institutions labelled developmentalism This book argues that developmentalism has endured despite hyperactive reform because institutional complementarities across economic and political spheres sustain and drive key actors and strategies that are individually advantageous but collectively suboptimal Although there has been incremental evolution in some institutions complementarities across institutions sustain a pattern of decadent developmentalism that swamps systemic change Breaking new ground Taylor shows how macroeconomic and microeconomic institutions are tightly interwoven with patterns of executive legislative relations bureaucratic autonomy and oversight His analysis of institutional complementarities across these five dimensions is relevant not only to Brazil but also to the broader study of comparative political economy

Taxation in Developing Countries Roger Gordon, 2010-07-05 Taxes are a crucial policy issue especially in developing countries Just recently proposals to raise middle class taxes toppled the Bolivian government and plans to extend or increase the value added tax caused political unrest in Ecuador and Mexico Despite the impact of tax policy on developing countries a comprehensive study has yet to be written Treating Argentina Brazil India Kenya Korea and Russia as key case studies this volume outlines the major aspects of current tax codes and explores their economic and political implications Examples of both the poorest and wealthiest developing countries Argentina Brazil India Kenya Korea and Russia uniquely demonstrate the diverse fiscal problems of tax reform Each economy relies heavily on indirect and corporate income taxes though recently some have reduced their tariff rates and have switched from excise to value added taxes There is a large informal economy in most of these countries and tax evasion by firms is a significant concern As a result tax revenue remains low even though rates are as high as those in developed economies Also unconventional methods to collect revenue have been implemented including bank debit taxes state ownership of firms and implicit taxes on individuals in the informal sector Exploring these and other concerns as well as changes in tax law administration and fiscal pressures this comprehensive anthology clarifies the current landscape of tax administration and the economic future of the world s poorer economies

Brazil and the World System Richard Graham, 2014-10-14 Has the world economy shaped and defined Brazil s economic and political history and if so to what extent Is Brazil s past to be explained principally by its insertion in a single world capitalist system The authors of the three essays in this volume reflect critically on these questions along with the following Should the determining factors be understood as sociological cultural as in a heritage of patrimonial rule or were they based on material reality What was the connection between the presence of slavery in the Americas and the emergence of capitalism in Europe What accounts for Brazil s centuries long reliance on exports and the slow development of its industry The chapters in this book draw contrasting judgments on virtually every major issue in Brazilian history because they begin from divergent premises In arguing their cause noted scholars John R Hall Fernando A Novais and Lu s Carlos Soares provide a formidable intellectual point and counterpoint whose theoretical assumptions bear heavily on all social scientists engaged in exploring colonialism imperialism capitalism dependency and relative international poverty Brazil and

the World System provides provocative insights not only about Brazil but also about the nature of colonialism in general and its relationship to the rise of capitalism in Europe It should appeal to Latin Americanists of all disciplinary persuasions as well as to general readers curious about great patterns of change in history Stuart Schwartz director of the Center for Early Modern History at the University of Minnesota says an excellent collection North American scholarship will find these essays an eye opener

Intellectuals and the Search for National Identity in Twentieth-Century Brazil Ronald H.

Chilcote, 2014-09-08 This book discusses twentieth century Brazilian political thought arguing that while Rio de Janeiro intellectuals envisaged the state and the national bourgeoisie as the means to overcome dependency on foreign ideas and culture S o Paulo intellectuals looked to civil society and the establishment of new academic institutions in the search for national identity Ronald H Chilcote begins his study by outlining Brazilian intellectuals attempt to transcend a sense of inferiority emanating from Brazilian colonialism and backwardness Next he traces the struggle for national identity in Rio de Janeiro through an account of how intellectuals of varying political persuasions united in search of a political ideology of national development He then presents an analysis by S o Paulo intellectuals on racial discrimination social inequality and class differentiation under early capitalism and industrialization The book concludes with a discussion on how Brazilian intellectuals challenged foreign thinking about development through the state and representative democratic institutions in contrast to popular and participatory democratic practices
