Language Hacking Spanish Benny Lewis,2017-03-28 It s true that some people spend years studying Spanish before they finally get around to speaking the language But here s a better idea Skip the years of study and jump right to the speaking part Sound crazy No it s language hacking Unlike most traditional language courses that try to teach you the rules of Spanish LanguageHacking shows you how to learn and speak Italian through proven memory techniques unconventional shortcuts and conversation strategies perfected by one of the world s greatest language learners Benny Lewis aka the Irish Polyglot

Using the language hacks shortcuts that make learning simple that Benny mastered while learning his 11 languages and his speak from the start method you will crack the language code and exponentially increase your language abilities so that you can get fluent faster It s not magic It s not a language gene It s not something only other people can do It s about being smart with how you learn learning what s indispensable skipping what s not and using what you ve learned to have real conversations in Spanish from day one The Method LanguageHacking takes a modern approach to language learning blending the power of online social collaboration with traditional methods It focuses on the conversations that learners need to master right away rather than presenting language in order of difficulty like most courses This means that you can have conversations immediately not after years of study Each of the 10 units culminates with a speaking mission that prepares you to use the language you ve learned to talk about yourself Through the language hacker online learner community you can share your personalized speaking missions with other learners getting and giving feedback and extending your learning beyond the pages of the book You don t need to go abroad to learn a language any more

Current Studies in Spanish Linguistics Héctor Campos,Fernando Martínez-Gil,1992-03-01 In this invited volume experts in Spanish linguistics who subscribe to the Chomskyian thory of Universal Grammar along with the editors approach the general applicability of this model from the perspectives of their subdisciplines language acquisition syntax semantics phonology and morphology Their research points to the verification of the Chomskyian linguistic theory as a general framework for explaining phenomena in language acquisition and use and more generally to the possible development of a model of mind based on linguistic theory Current Studies in Spanish Linguistics will interest all specialists in Spanish and theoretical linguistics as well as those interested in cognitive science psychology philosophy of mind and artificial intelligence

The L2 Acquisition of Spanish Subjects Margaret Quesada,2015-07-01

There is a long overdue need to address the sharp philosophical and methodological divide between formal generative and functional discourse perspectives in contemporary theoretical linguistics and L2 acquisition Language structure in general and the use of subjects in particular is dependent upon multiple syntactic lexico semantic and discourse pragmatic factors Therefore the study of L2 acquisition must be equally multi faceted This volume examines data from over twenty years of research in the L2 acquisition of Spanish subjects from several theoretical perspectives including generative approaches processing theory discourse pragmatics and sociolinguistic variationist models By so doing the author seeks to fulfill two principal objectives the first is to determine the many linguistic and extra linguistic properties of Spanish subjects that constrain their acquisition and use and the second is to establish common ground among researchers from varied theoretical persuasions in acquisition studies The author argues throughout the volume that central to native speaker use and L2

acquisition are universal properties ranging from highly specific syntactic principles to more general characteristics of human cognition and a range of these properties is responsible for language acquisition An examination of the diverse body of research that considers a wider scope of universal properties of language can thus bring us closer to a unified account of the L2 acquisition of Spanish subject expression
