Quickening Of America Rebuilding Our Nation Remaking Our Lives:

The Quickening of America Frances Moore Lappe, Paul Martin Du Bois, 1994-04 Change is the watchword of the nineties Ordinary Americans are coming together to change their workplaces their communities their schools and their lives This deeply personal inspiring and interactive book is full of practical advice on how to get involved **Sovereigns Peacefully Take Charge** Allan Matthews, 2006-01-12 Reviewing how we the people became sovereigns this book encourages citizens to become peaceful activists to supplement representative government The author declares seventy five grievances against the United States government He proposes or endorses remedies in the forms of constitutional amendments or ordinary statutory law some of them of popular initiative and referendum Much of this entails transfer of powers from the national government back to the people or to local state or transnational governments The proposals include reforms at the United Nations and measures to end world poverty spread health care and education and manage resources for a sustainable environment AmeriCorps*Vista Source , 1998 The End of the Hamptons Corey Dolgon, 2005-05-01 Winner of the 2005 Book Prize from the Association for Humanist Sociology A portrait of the contentious controversial history of the Manhattan elite s favorite fabled summer playground In this absorbing account of New York s famous vacation playground Corey Dolgon goes beyond the celebrity tales and polo games to tell us the story of this complex and contentious land From the displacement of Native Americans by the Puritans to the first wave of Manhattan elites who built the Summer Colony to the current infusion of telecommuting Manhattanites who now want to live there year round the story of the Hamptons is a vicious cycle of supposed paradise lost Drawing on this fabled land s history The End of the Hamptons provides a fascinating portrait of current controversies the Native Americans fighting over land claims and threatening to build a casino the environmental activists clashing with the McMansion builders and the Latino day laborers and working class natives trying to eke out a living in an ever increasingly expensive town *Toward a Civil Society* C. David Lisman, 1998-08-30 Addressing the need for marshaling the resources of education to help promote a more civil society this book argues that education has a critical role to play in challenging the dominant views of politics and education Service learning or academically based community service is seen as a promising educational pedagogy that can help students acquire civic virtue and serve as a mechanism to enable institutions of higher education become stronger community partners However there is currently a lack of theoretical grounding for the service learning movement consequently service learning is in danger of being co opted by academic traditionalism which could vitiate service learning s social transformative potential and in fact undermine efforts at democratic revitalization The author provides a basic explanation of service learning and how it is connected to promoting civic virtue It examines the underlying public philosophy debate between weak and strong democracy theorists or procedural and civic republicanism This book argues that certain approaches to service learning such as the voluntarist or charity model the experiential education model and the justice

model are ineffective because of their association with weak democracy theory or procedural republicanism. The central argument of this book is that a progressive communitarian public philosophy maintaining that individuals attain meaning and significance in the context of community is the most appropriate grounding for service learning. Emotionally Intelligent Leadership for Students Marcy L. Shankman, Scott J. Allen, 2010-08-09 The Emotionally Intelligent Leadership for Students Workbook is a working book that brings further understanding and relevancy to the Emotionally Intelligent Leadership for Students EILS model. It includes modularized learning activities for each capacity as well as case studies and resources for additional learning. It is designed to be used as part of a facilitated course or workshop either as follow up to taking the EILS Inventory or as a supplement to the book Emotionally Intelligent Leadership A Guide for College Students. **Six Women Who Shaped What Americans Eat** Michelle Mart, 2025-07-15 Six Women Who Shaped What Americans Eat tells the story of how food choice in modern America has been influenced by culture, industrial abundance and health narratives. Mart reflects on the careers of six women to illustrate the varied and overlapping influences on food choice. Each of these women had a substantial impact on American cuisine, attitudes toward food and what people chose to eat. They highlighted the politics of food, the pleasure of food, the connection between food and health and the environmental harm of poor food choices. Part one of the book discusses the bounties of the modern American food system and covers Hazel Stiebeling, Poppy Cannon and Julia Child. Stiebeling was a chemist and government nutritionist beginning in the 1930s and shaped dietary guidelines and school lunches that affected generations of Americans. Cannon, a best-selling cookbook author and newspaper columnist, gained fame in the 1950s by preaching the wonders of processed food. Child, another cookbook author and television personality starting in the 1960s, celebrated French cuisine and made it accessible to American cooks and palates. Part two examines the hidden costs of abundance and covers Frances Moore Lappé, Marion Nestle and Alice Waters. Lappé was an author and activist concerned with the environmental impact of food in the late 20th century and who is credited with bringing vegetarianism into the mainstream. Nestle was an academic nutritionist, government consultant and author who decried the undue influence of food corporations. Waters, a celebrity chef, restaurateur and food activist, became a symbol of alternative food movements in the 21st century. Provided by publisher. **Bitter Harvest** Ann Cooper, Lisa M. Holmes, 2013-12-16 The history of food is not as straightforward as it may seem. Food isn't just food. It is ritual, tradition and memory. So begins Ann Cooper's groundbreaking new book on the history of sustenance. Cooper, a renowned chef and graduate of New York's famed Culinary Institute of America, expertly guides us from the roots of agriculture in North America through the profound changes initiated by the Industrial Revolution all the way up to the present day, offering analyses of recent controversies such as Europe's campaign against Frankenfood and the genetic engineering of plants and animals in the United States. Throughout, Cooper takes both a macro and micro approach, examining the effect politics, technology, war, international trade and agribusiness have had on the world's food supply as well as the changing social

patterns which have made a family meal at the table almost a relic of the past Did you know 80% of chicken has salmonella By the year 2010 95 percent of items bought at the grocery store may be consumed within 20 minutes of getting them home Cancer researchers believe that over one third of all future cancers will be diet related roughly the same proportion now attributable to smoking Passionate political informed and engaging Bitter Harvest is filled with fascinating facts and anecdotes Cooper offers a comprehensive analysis of the issue of sustainability arguing persuasively why we must begin to change everything from the way food is shipped to the basic components of our diets Touching on virtually every aspect of the food culture Bitter Harvest is a vibrant example of the emergence of the chef as a political voice to be reckoned with A food manifesto for the new millennium it is a must read for anyone concerned with health nutrition and the future of our planet You will never look at your dinner plate in quite the same way again **The New Public Service** Janet V. Denhardt, Robert B. Denhardt, 2015-03-12

The New Public Service Serving not Steering provides a framework for the many voices calling for the reaffirmation of democratic values citizenship and service in the public interest It is organized around a set of seven core principles 1 serve citizens not customers 2 seek the public interest 3 value citizenship and public service above entrepreneurship 4 think strategically act democratically 5 recognize that accountability isn't simple 6 serve rather than steer and 7 value people not just productivity The New Public Service asks us to think carefully and critically about what public service is why it is important and what values ought to guide what we do and how we do it It celebrates what is distinctive important and meaningful about public service and considers how we might better live up to those ideals and values The revised fourth edition includes a new chapter that examines how the role and significance of these New Public Service values have expanded in practice and research over the past 15 years Although the debate about governance will surely continue for many years this compact clearly written volume both provides an important framework for a public service based on citizen discourse and the public interest and demonstrates how these values have been put into practice It is essential reading for students and serious practitioners in public administration and public policy **World Hunger**

Joseph Collins, 2014-02-04 The revised edition of this text includes substantial new material on hunger in the aftermath of the Cold War global food production versus population growth changing demographics and falling birth rates around the world the shifting focus of foreign assistance in the new world order structural adjustment and other budget slashing policies trade liberalization and free trade agreements famine and humanitarian interventions and the third worldization of developed nations Creating Sustainable Community Programs Mark R. Daniels, 2001-02-28

Public opinion polls consistently reveal the lack of confidence disillusionment and mistrust that citizens feel toward government Daniels and his contributors believe that the relationship between citizens and their governments can be changed by facilitating greater citizen collaboration with government particularly through local sustainable programs As the case studies show often sustainable community programs are created through grassroots movements that are initiated and managed by citizens themselves bringing them in contact

with their local elected and appointed officials Unlike traditional programs that are administered by local officials on behalf of their citizens once sustainable community programs are created citizens administer their own programs in collaboration with local officials The case studies look at a variety of sustainable programs primarily in the United States that help to deal with issues such as recycling transportation microcredit site redevelopment pollution health care and hunger Creating Sustainable Community Programs is the first book on sustainable programs that is intended for an audience of public administration scholars researchers and students as well as practitioners who are searching for ways to change the relationship between citizens and their governments The New Public Service Janet Vinzant Denhardt, Robert B.

Denhardt, 2011-03-16 This widely praised book is built around seven core principles that provide a framework for the many voices calling for the reaffirmation of democratic values citizenship and service in the public interest This edition includes a brand new chapter that provides action recommendations for putting these values into practice as well as current examples of how these ideas have been put to use in the real world **Civic Participation and Community Action Sourcebook**

Andy Nash, 2003 Citizen Governance Richard C. Box, 1998-01-08 Drawing on fundamental ideas about the relationship of citizens to the public sphere Richard C Box presents a model of citizen governance Recognizing the challenges in the community governance setting he advocates rethinking the structure of local government and the roles of citizens elected officials and public professionals in the twenty first century His model shifts a large part of the responsibility for local public policy from the professional and the elected official to the citizen Citizens take part directly in creating and implementing policy elected officials coordinate the policy process and public professionals facilitate citizen discourse offering the knowledge of public practice needed for successful citizen gover **Rules of the Game** Mark S.
