Decision Making Software

LAWRENCE L. LAPIN

# Quickquant Decision Making Software

**Adedeji Bodunde Badiru**

## **Quickquant Decision Making Software:**

**QuickQuant + Decision Making Software** Lawrence L. Lapin, 1991      **Quantitative Methods for Management with Decision Support Software (DSS)**, 1998      *Project Management in Manufacturing and High Technology Operations* Adedeji Bodunde Badiru, 1996-06-07

Project management is a system originally developed within the construction industry for controlling schedules costs and specifications of large multitask projects In recent years manufacturers have discovered that project management s time tested techniques dovetail neatly with the current thinking on quality control and management in a highly competitive global marketplace The system has been increasingly recognized for its suitability in the manufacturing process and is now applied in virtually every area of production One of the foremost proponents of this trend is Adedeji Badiru an internationally recognized authority on project management whose books have helped thousands of companies adapt the system to their particular needs This completely revised Second Edition of Badiru s breakthrough publication *Project Management in Manufacturing and High Technology Operations* focuses on the dramatic increase in the use of high tech machinery in industrial operations and seamlessly integrates high tech themes into a general discussion of project management An introductory chapter on manufacturing analysis investigates how the latest concepts and techniques of project management are applied to manufacturing The main body of the book offers a wealth of new material including discussions of learning curve analysis basic models for forecasting and inventory control economic analysis of manufacturing techniques for data analysis and the application of expert systems The chapter on computer applications in project management is completely revised and updated to reflect the enormous strides taken in this area in recent years This book presents an up to date practical approach to project management in manufacturing Written by a pioneer in the application of project management to the manufacturing industries this revised and expanded Second Edition of *Project Management in Manufacturing and High Technology Operations* reflects the increased use of high tech machinery in industrial operations and the trends of recent years to apply project management methods to every phase of production Complete with numerous illustrations as well as exercises to wrap up each chapter this Second Edition features An emphasis on practical examples including many new case studies and a full chapter on the lessons learned from the space shuttle Challenger disaster Many new project management concepts and techniques that focus on manufacturing but can be applied to any project A new chapter on manufacturing systems analysis that provides the backdrop for the project analysis that takes place throughout the book Expanded discussions of the latest quantitative and managerial approaches including learning curve analysis basic models for forecasting and inventory control economic analysis of manufacturing techniques for data analysis and the application of expert systems A strong international perspective useful for multinational companies and for academic purposes This book equips engineers and managers with the tools to effectively manage all aspects of a project including quality control schedules and expenses Used as a text in engineering or business courses it offers absorbing supplemental

reading for students at the upper undergraduate and graduate levels Professor Badiru has been widely praised for his incisive and highly relevant case studies In this Second Edition the case study approach is expanded so that chapters typically include two real world examples of the project management techniques or issues in question In the final chapter Badiru takes a close and painful look at a high tech disaster the explosion of the space shuttle Challenger He offers rare and instructive insight into the devastating failure of a high tech project still poignant despite the passage of time Communicative throughout this volume provides a solid up to date reference for engineers and managers in manufacturing as well as for consultants and administrators in related fields Professor Badiru s proven reputation for providing interesting lecture material also makes Project Management in Manufacturing and High Technology Operations especially useful as a technology management text in both engineering and business schools Cover Design Illustration David Levy

Quantitative Analysis for Health Services Administration Charles J. Austin, Stuart B. Boxerman, 1995

Comprehensive Project Management Adedeji Bodunde Badiru, P. Simin Pulat, 1995 Project Management the process of managing allocating and timing resources to achieve a given goal in an efficient and expedient manner has emerged as a separate discipline that is being increasingly embraced by various sectors ranging from business to engineering Comprehensive in perspective this book presents an approach to project management from planning through implementation that integrates qualitative and quantitative techniques Practical in approach it demonstrates with numerous examples how three categories of tools management practices optimization models and computer applications complement one another to enhance overall project management Considers traditional project management techniques modern applications of operations research methodologies and computer applications as well as supporting topics such as forecasting and inventory management Reviews other methodologies such as regression analysis and decision making methodologies that a project manager can utilize Organizes chapters hierarchically to illustrate the incremental steps in a project management process from setting project goals to terminating the project Features numerous examples and a chapter length case study For Industrial Engineers and Operations Managers

**Quantitative Decision Making with Spreadsheet Applications** Lawrence L. Lapin, William D. Whisler, 2002 Written for students with a background in algebra this text provides a complete and modern treatment of basic management science methodology The authors survey the variety and power of management science tools working to alleviate students apprehension about the subject and to enable students to recognize on the job situations in which management science methodology can be successfully employed Emphasizing modeling skills for students of varying mathematical backgrounds the authors explain how to use Microsoft Excel spreadsheets to build skills as they work through problems In general problems are broken into several parts to make difficult concepts easy for students to learn This book s modular structure affords instructors maximum flexibility This text contains a special student version of Palisade Corporation s DecisionTools Suite containing Risk PrecisionTree BestFit TopRank and RiskView This software is expressly provided for

student use and requires student authorization to unlock the software for its full one year license Professional customers may use the software for 30 days at which point they must contact Palisade Corporation for a professional version should they wish to continue using the software     **The Software Encyclopedia 2001** ,2001     *Defence Management* ,2005

**Quantitative Methods for Business Decisions** Lawrence L. Lapin,1988     **Handbook of Health Administration and Policy** Anne Kilpatrick,1998-11-23 This comprehensive text offers a broad view of health care policy health services delivery and organization and health care management Drawing on the insights of over 100 scholars and leading practitioners it highlights organizational changes reflected in health care mergers networks and affiliations and describes the role of funding agencies in the direct provision of services Providing over 2350 references tables and drawings the book charts the influences of managed care on provisions funding and the configuration of providers and services and portrays the increasingly influential and challenging role of health administrators     *Operating Manual and Workbook to Accompany QuickQuant Plus, Version 3.0, for MS-DOS* Lawrence L. Lapin,1991     Understanding Decision Support Systems and Expert Systems Efrem G. Mallach,1994 This core textbook contains a focused approach to understanding and building decision support systems     *Statistics Catalog 2005* Neil Thomson,2004-09     The Compu-mark Directory of U.S. Trademarks ,1991     The Directory of U.S. Trademarks ,1993     *Energy, Environment, and the Economy* Paul R. Kleindorfer,Howard Kunreuther,David S. Hong,1996 This volume addresses issues that are crucial for the development of Asian nations and the quality of life of their citizens It focuses on research and policy perspectives and various Asian initiatives relating to energy environment and the economy     **Catalog of Higher Education Application Programs** ,1988     *Proceedings of the Business and Economic Statistics Section* American Statistical Association. Business and Economic Statistics Section,1992     *Problem Solving with Cases and Simulations* Hans Emil Klein,1990 This volume produced by WACRA World Association for Case Method Research 1 877868 00 0     **American Laboratory** ,2002
