Conciliation in International Law Christian Tomuschat, Riccardo Pisillo Mazzeschi, Daniel

Thürer,2016-11-01 This volume collects the materials underlying the International Colloquium Conciliation in the Globalized World of Today held on 11 and 12 June 2015 in Vienna under the auspices of the Court of Conciliation and Arbitration within the OSCE The aim of the Colloquium was to examine the merits and possible shortcomings of this method of conflict resolution and it concluded that the pros heavily outweigh the cons This volume therefore draws the attention of everyone dealing with conflict management to those advantages It does not end by providing a summary of conclusions to be drawn from the examination of the rules governing the OSCE Court and the practice of the other institutions considered The reader will have to find out her himself what experiences have been made in other fields where conciliation has been institutionalized as a dispute settlement procedure In this regard the present book constitutes a treasury of lessons that cannot easily be brought down to a common denominator *Rules and Networks* Richard Appelbaum,William Felstiner,Volkmar Gessner,2001-12-21 International business transactions are heavily influenced by culture practice and rule The pursuit of business relationships within nation states can be subject to differences in the generation of norms and the processing of disputes but these conflicts are magnified many times over in cross border transactions where nation state control and support is weak or absent This book seeks different explanations of the ways in which business people and their legal advisers try to minimise the effect of these magnified difficulties At the outset the editors suggest four sources through which the international business community might be considered to have supplemented nation state conflict prevention and dispute resolution institutions an international legal order the development of a private normative order based on common business practices denominated the *lex mercatoria* through the efforts and work product of internationalised law firms and by means of extensive thick personal relationships often referred to by their Chinese term *guanxi* Since most explanations are dominated by North American and European legal scholarship and practice a second concern of this book is to open up the discussion to competing explanatory frameworks Specifically it develops the notion that global legal convergence may not be the immediate inevitable result of increased global economic interaction Rather less formal mechanisms for achieving normative understanding and predictability in business dealings may also flourish The Law and Policy of New Eurasian Regionalization Anna Aseeva,Jędrzej Górski,2021-01-25 The Law and Policy of New Eurasian Regionalization Economic Integration Trade and Investment in the Post Soviet and Greater Eurasian Space edited by Anna Aseeva and J drzej G rski makes several unique contributions to the literature First and foremost most of the current literature is in either economics or politics with only a secondary focus on legal and institutional matters Secondly and consequently the book is accessible and relevant to readers both inside and outside the boundaries of the Eurasian area not only geographical boundaries but also legal geopolitical geoeconomic cultural and indeed disciplinary boundaries Drawing on international transnational and comparative legal scholarship this rich volume offers the insights by a plethora of leading international scholars in economics institutional theory area studies international relations global political economy political science and sociology The
