# Quotations On Terrorism

**Steve Coll**

## **Quotations On Terrorism:**

**Quotations on Terrorism** Harry Kawilarang, 2004 The year 2000 showed that terrorism continues to pose a clear and present danger to the international community Terrorism is becoming a strategy that has a long history but one that took on a particularly deadly caste beginning in the 21st century The leaders of some of the most dangerous terrorist groups to emerge in the past decade have headquarters or major offices in Afghanistan and their associates threaten stability in many real and potential trouble spots around the globe from Indonesia to the Balkans Central Asia to the Persian Gulf Western China to Somalia and Western Europe to South Asia Terrorists attempt not only to sow panic but also to undermine confidence in the government and political leadership of their target country Terrorism is therefore designed to have psychological effects that reach far beyond its impact on the immediate victims or object of an attack Terrorists mean to frighten and thereby intimidate a wider audience such as a rival ethnic or religious group an entire country and its political leadership or the international community as a whole All terrorist acts involve violence or equally important the threat of violence These violent acts are committed by nongovernmental groups or individuals that is by those who are neither part of nor officially serving in the military forces law enforcement agencies intelligence services or other governmental agencies of an established nation state Terrorism has occurred throughout history for a variety of reasons It causes can be historical cultural political social psychological economic or religious or any combination of these Some countries have proven to be particularly susceptible to terrorism at certain times as Italy and West Germany were during the 1970s Terrorist violence escalated precipitously in those two countries for a decade before declining equally dramatically Other countries such as Canada and The Netherlands have proven to be more resistant and have experienced only a few isolated terrorist incidents In general democratic countries have provided more fertile ground for terrorism because of the open nature of their societies In such societies citizens have fundamental rights civil liberties are legally protected and government control and constant surveillance of its citizens and their activities is absent By the same token repressive societies in which the government closely monitors citizens and restricts their speech and movement have often provided more difficult environments for terrorists But even police states have not been immune to terrorism despite limiting civil liberties and forbidding free speech and rights of assembly Examples include Russia under tsarist rule and the Communist ruled Union of Soviet Socialist Republics as well as the People's Republic of China Myanmar and Laos The author expressed it all through quotations which was compiled from public figures authors poets scholars experts professionals statements and the common people and collected from books newspapers news weeklies poems speeches oral conversations etc from all part of the world in connecting with the content of this book since 1980

**The Greenhill Dictionary of Military Quotations** Peter G. Tsouras, 2020-05-18 A massive and valuable collection of quotes about war from soldiers commanders strategists and others The Spectator This volume brings four thousand years of military history to life through the words of more than eight

hundred diverse personalities Napoleon Machiavelli Ataturk Che Guevara Rommel Julius Caesar Wellington Xenophon Crazy Horse Wallenstein T E Lawrence Saladin Zhukov Eisenhower and many more to build a comprehensive picture of war across the ages Broken down into more than 480 categories including courage danger failure leadership luck military intelligence tactics training guerrilla warfare and victory this definitive guide draws on the collected wisdom of those who have experienced war at every level From the brutality and suffering of war to the courage and camaraderie of soldiers to the glory and exhilaration of battle these quotes offer an insight into the turbulent history of warfare and the lives and deeds of great warriors A massive compilation casting light not only upon the pain suffering and sheer insanity of war but also upon the unique comradeship and exhilaration of battle this is a valuable addition to the literature of reference *The Spectator*

*The Military Quotation Book* James Charlton, 2013-05-14 Revised and expanded to include over 1 200 quotations The Military Quotation Book brings together the wisdom of fallen heroes and living politicians honored statesman and rebellious writers quoting official edicts as well as off the record remarks Among the most authoritative and the most opinionated are General Douglas MacArthur It is fatal to enter any war without the will to win it Winston Churchill Courage is rightly esteemed the first of human qualities Stalin Everyone imposes his own system as far as his army can reach Voltaire An admiral has to be put to death now and then to encourage the others Dwight D Eisenhower Nothing is easy in war Franklin D Roosevelt A nation does not have to be cruel to be tough For everyone who loves the military for history buffs speechmakers veterans and anyone in active military service The Military Quotation Book is a loaded canon of memorable expressions

**Quotations as Pictures** Josef Stern, 2022-02-15 The proposal of a semantics for quotations using explanatory notions drawn from philosophical theories of pictures In *Quotations as Pictures* Josef Stern develops a semantics for quotations using explanatory notions drawn from philosophical theories of pictures He offers the first sustained analysis of the practice of quotation proper as opposed to mentioning Unlike other accounts that treat quotation as mentioning *Quotations as Pictures* argues that the two practices have independent histories that they behave differently semantically that the inverted commas employed in both mentioning and quotation are homonymous that so called mixed quotation is nothing but subsentential quotation and that the major problem of quotation is to explain its dual reference or meaning its ordinary meaning and its metalinguistic reference to the quoted phrase attributed to the quoted subject Stern argues that the key to understanding quotation is the idea that quotations are pictures or have a pictorial character As a phenomenon where linguistic competence meets a nonlinguistic symbolic ability the pictorial quotation is a combination of features drawn from the two different symbol systems of language and pictures which explains the exceptional and sometimes idiosyncratic data about quotation In light of this analysis of verbal quotation in the last chapters Stern analyzes scare quotation as a nonliteral expressive use of the inverted commas and explores the possibility of quotation in pictures themselves *Routledge Handbook of*

*Counterterrorism and Counterinsurgency in Africa* Usman A. Tar, 2021-01-28 This book illustrates how Africa's defence and

security domains have been radically altered by drastic changes in world politics and local ramifications First the contributions of numerous authors highlight the transnational dimensions of counterterrorism and counterinsurgency in Africa and reveal the roles played by African states and regional organisations in the global war on terror Second the volume critically evaluates the emerging regional architectures of countering terrorism insurgency and organised violence on the continent through the African Union Counterterrorism Framework AU CTF and Regional Security Complexes RSC Third the book sheds light on the counterterrorism and counterinsurgency CT COIN structures and mechanisms established by specific African states to contain degrade and eliminate terrorism insurgency and organised violence on the continent particularly the successes constraints and challenges of the emerging CT COIN mechanisms Finally the volume highlights the entry of non state actors such as civil society volunteer groups private security companies and defence contractors into the theatre of counterterrorism and counterinsurgency in Africa through volunteerism community support for state led CT COIN Operations and civil military cooperation CIMIC This book will be of use to students and scholars of security studies African studies international relations and terrorism studies and to practitioners of development defence security and strategy
