Sidebotham, Martin Hense, Hendrikje M. Nouwens, 2008 For thousands of years Egypt has crowded the Nile Valley and Delta The Eastern Desert however has also played a crucial though until now little understood role in Egyptian history Ancient inhabitants of the Nile Valley feared the desert which they referred to as the Red Land and were reluctant to venture there yet they exploited the extensive mineral wealth of this region They also profited from the valuable wares conveyed across the desert between the Nile and the Red Sea ports which originated from Arabia Africa India and elsewhere in the east Based on twenty years of archaeological fieldwork conducted in the Eastern Desert The Red Land reveals the cultural and historical richness of this little known and seldom visited area of Egypt A range of important archaeological sites dating from Prehistoric to Byzantine times is explored here in text and illustrations Among these ancient treasures are petroglyphs cemeteries fortified wells gold and emerald mines hard stone quarries roads forts ports and temples With 250 photographs and fascinating artistic reconstructions based on the evidence on the ground along with the latest research and accounts from ancient sources and modern travelers the authors lead the reader into the remotest corners of the hauntingly beautiful Eastern Desert to discover the full story of the area's human history **Egypt and Syria in the Fatimid, Ayyubid and Mamluk Eras IV** Urbain Vermeulen, J. van Steenbergen, 2005 Each volume deals with a wide variety of scholarly subjects all revolving around the central theme of Syro Egypt's high and

Egypt from Alexander to the Copts Roger S. Bagnall, Dominic W. Rathbone, 2017-05-01 After its conquest by Alexander the Great in 332 bc Egypt was ruled for the next 300 years by the Ptolemaic dynasty founded by Ptolemy I one of Alexander's generals With the defeat of Cleopatra VII in 30 bc Egypt became a province of the Roman Empire and later of the Byzantine Empire For a millennium it was one of the wealthiest most populous and important lands of the multicultural Mediterranean civilization under Greek and Roman rule The thousand years from Alexander to the Arab conquest in ad 641 are rich in archaeological interest and well documented by 50 000 papyri in Greek Egyptian Latin and other languages But travelers and others interested in the remains of this period are ill served by most guides to Egypt which concentrate on the pharaonic buildings This book redresses the balance with clear and concise descriptions related to documents and historical background that enable us to appreciate the fascinating cities temples tombs villages churches and monasteries of the Hellenistic Roman and Late Antique periods Written by a dozen leading specialists and reflecting the latest discoveries and research it provides an expert visitor's guide to the principal cities many off the well worn tourist paths It also offers a vivid picture of Egyptian society at differing economic and social levels *The Hellenistic Settlements in Syria, the Red Sea Basin, and North Africa* Getzel M. Cohen, 2006-10-03 This authoritative and sweeping compendium the second volume in Getzel Cohen's organized survey of the Greek settlements founded or refounded in the Hellenistic period provides historical narratives detailed references citations and commentaries on all the settlements in Syria The Red Sea Basin and North Africa from 331 to 31 BCE Organized geographically the volume pulls together discoveries and debates from dozens of widely scattered archaeological and epigraphic projects Cohen's magisterial breadth of focus enables him to provide more than a compilation of information the volume also contributes to ongoing questions and will point the way toward new avenues of inquiry Egypt After the Pharaohs, 332 BC-AD 642 Alan K. Bowman, 1996-01-01 Egypt After the Pharaohs treats the period which witnessed the arrival of the Greeks and Hellenistic culture in Egypt the reign of the Ptolemies from Ptolemy I to Cleopatra the conquest by Rome the scientific and cultural achievements of Alexandria and the rise of Christianity The rich social cultural and intellectual ferment of this period comes alive in Alan Bowman's narrative Egypt After the Pharaohs treats

the period which witnessed the arrival of the Greeks and Hellenistic culture in Egypt the reign of the Ptolemies from Ptolemy I to Cleopatra the conquest by Rome the scientific and cultural achievements of Alexandria and the rise of Christianity The rich social cultural and intellectual ferment of this period comes alive in Alan Bowman's narrative *The Life of the Red Sea Dhow* Dionisius A. Agius, 2019-04-04 Few images are as evocative as the silhouette of the Arab dhow as under full sail it tacks to windward on glittering waters of Red Sea before moving across the face of the rising or setting sun In this authoritative new book Dionisius A Agius one of the foremost scholars of Islamic material culture offers a lucid and wide ranging history of the iconic dhow from medieval to modern times Traversing the Arabian and African coasts he shows that the dhow was central not just to commerce but to the vital transmission and exchange of ideas Discussing trade and salt routes shoals and wind patterns spice harvest seasons and the deep and resonant connection between language memory and oral tradition this is the first book to place the dhow in its full and remarkable cultural contexts *Bibliography of Art and Architecture in the Islamic World (2 vols.)* Susan Sinclair, 2012-04-03 Following the tradition and style of the acclaimed Index Islamicus the editors have created this new Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies **Araby the Blest** Daniel T. Potts, 1988 Archaeological exploration of the Arabic Peninsula is not a new phenomenon but only in the last two decades or so has it received the scholarly attention it deserves Surveys are now taking place in the entire region and new excavations have begun in almost every country on the peninsula This collection of articles on Arabian archaeology takes its place among many of the recent works on the subject and the articles presented here contributes with both materials and ideas to the field of study Contributions range from palaeography and prehistory to the Islamic conquest *Rome's Eastern Trade* Gary K Young, 2003-10-04 The spectacular ruins of such places as Palmyra and Petra bear witness to the wealth and power which could be derived from the silks spices and incense of the east Such goods were highly prized in the Roman Empire and merchants were ready to face the perils of deserts oceans warfare and piracy to meet the demand for their wares But exactly how did the trade in luxury goods operate and to whose benefit Gary K Young's study offers unprecedented coverage of the major trading regions of Egypt Arabia Palmyra and Syria with detailed analysis of the routes used and of the roles of all the participants He looks closely at the influence of the commerce in eastern goods both on the policy of the Roman imperial government and upon local communities in the East itself His findings contradict the standard view that the imperial government had a strong political interest in the eastern trade rather its primary concern was the tax income the trade brought in He also demonstrates the need for greater recognition of the efforts made by local authorities to exploit the trade to their own advantage Incorporating the considerable archaeological research that has been undertaken in recent years this comprehensive survey provides fresh

insight into an important aspect of the eastern Roman Empire A Companion to the Archaeology of the Ancient Near East
D. T. Potts, 2012-08-15 A COMPANION TO THE ARCHAEOLOGY OF THE ANCIENT NEAR EAST A Companion to the
Archaeology of the Ancient Near East is a comprehensive and authoritative overview of ancient material culture from the late
Pleistocene to Late Antiquity This expansive two volume work includes 58 new essays from an international community of
ancient Near East scholars With coverage extending from Asia Minor the eastern Mediterranean and Egypt to the Caucasus
Central Asia and the Indo Iranian borderlands the book highlights the enormous variation in cultural developments across
roughly 11 000 years of human endeavor In addition to chapters devoted to specific regions and particular periods many
contributors concentrate on individual industries and major themes in ancient Near Eastern archaeology ranging from
metallurgy and agriculture to irrigation and fishing Controversial issues including the nature and significance of the
antiquities market ethical considerations in archaeological praxis the history of the foundation of departments of antiquities
and ancient attitudes towards the past make this a unique collection of studies that will be of interest to scholars students
and interested readers alike **Trade, Commerce, and the State in the Roman World** Andrew Wilson, Alan
Bowman, 2017-11-03 This volume presents eighteen papers by leading Roman historians and archaeologists discussing trade
in the Roman Empire during the period c 100 BC to AD 350 It focuses especially on the role of the Roman state in shaping
the institutional framework for trade within and outside the empire in taxing that trade and in intervening in the markets to
ensure the supply of particular commodities especially for the city of Rome and for the army As part of a novel
interdisciplinary approach to the subject the chapters address its myriad facets on the basis of broadly different sources of
evidence historical papyrological and archaeological They are grouped into three sections covering institutional factors
taxation legal structures market regulation financial institutions evidence for long distance trade within the empire in wood
stone glass and pottery and trade beyond the frontiers with the east as far as China India Arabia the Red Sea and the Sahara
Rome s external trade with realms to the east emerges as being of particular significance but it is in the eastern part of the
empire itself where the state appears to have adapted the mechanisms of taxation in collaboration with the elite holders of
wealth to support its need for revenue On the other hand the price of that collaboration which was in effect a fiscal
partnership ultimately led in the longer term in slightly different forms in the east and the west to a fundamental change in
the political character of the empire Quseir Al-Qadim 1978 Donald S. Whitcomb, Janet H. Johnson, 1979 The results of the
first season of archaeological excavations at the small port site of Quseir al Qadim on the Red Sea are presented in this
volume Archaeological evidence testifies to the importance of this port then called Leukos Limen for the Roman trade in the
Indian Ocean in the first and second centuries a d After a millennium of abandonment this trade was revived under the
Mamluks thirteenth fourteenth centuries when the trade reached East Africa India and China This report presents copious
illustrations of the artifacts of daily life in these two periods A chapter by Martha Prickett presents the detailed results of a

regional survey around Quseir and along the route leading to Luxor and the Nile valley
