Davis,2019-12-15 In The Medieval Economy of Salvation Adam J Davis shows how the burgeoning commercial economy of western Europe in the twelfth and thirteenth centuries alongside an emerging culture of Christian charity led to the establishment of hundreds of hospitals and leper houses Focusing on the county of Champagne he looks at the ways in which charitable organizations and individuals townspeople merchants aristocrats and ecclesiastics saw in these new institutions a means of infusing charitable giving and service with new social significance and heightened expectations of spiritual rewards In tracing the rise of the medieval hospital during a period of intense urbanization and the transition from a gift economy to a commercial one Davis makes clear how embedded this charitable institution was in the wider social cultural religious and economic fabric of medieval life Open Access edition funded by the National Endowment for the Humanities The Crusader World Adrian Boas,2015-10-14 The Crusader World is a multidisciplinary survey of the current state of research in the field of crusader studies an area of study which has become increasingly popular in recent years In this volume Adrian Boas draws together an impressive range of academics including work from renowned scholars as well as a number of though provoking pieces from emerging researchers in order to provide broad coverage of the major aspects of the period This authoritative work will play an important role in the future direction of crusading studies This volume enriches present knowledge of the crusades addressing such wide ranging subjects as intelligence and espionage gender issues religious celebrations in crusader Jerusalem political struggles in crusader Antioch the archaeological study of battle sites and fortifications diseases suffered by the crusaders crusading in northern Europe and Spain and the impact of Crusader art The relationship between Crusaders and Muslims two distinct and in many way opposing cultures is also examined in depth including a discussion of how the Franks perceived their enemies Arranged into eight thematic sections The Crusader World considers many central issues as well as a large number of less familiar topics of the crusades crusader society history and culture With over 100 photographs line drawings and maps this impressive collection of essays is a key resource for students and scholars alike **The Persecution of the Knights Templar** Alain Demurger,2019-01-01 The trial of the Knights Templar is one of the most infamous in history Accused of heresy by the king of France the Templars were arrested and imprisoned had their goods seized and their monasteries ransacked Under brutal interrogation and torture many made shocking confessions denial of Christ desecration of the Cross sex acts and more This narrative follows the

everyday reality of the trial from the early days of scandal and scheming in 1305 via torture imprisonment and the dissolution of the order to 1314 when leaders Jacques de Molay and Geoffroy de Charnay were burned at the stake Through first hand testimony and written records of the interrogations of 231 French Templars this book illuminates the stories of hundreds of ordinary members some of whom testified at the trial as well as the many others who denied the charges or retracted their confessions This is a deeply researched and immersive account that gives a striking vision of the relentless persecution and the oft underestimated resistance of the once mighty Knights Templar

The Templars and their Sources Karl Borchardt,Karoline Döring,Philippe Josserand,Helen Nicholson,2017-01-20 Even 700 years after the suppression of the Order of the Temple and the execution of the last grandmaster Jacques de Molay there is no shortage of publications on this influential military order Yet unlike other medieval institutions the Templars are subject to speculative fiction and popular myth which threaten to swamp the fruits of scholarly endeavour Fortunately recent years have produced a thriving academic scholarship which is challenging these myths More and more sources are currently being edited particularly those for the trial of the Templars 1307 1312 Others are still awaiting indepth study among them surprisingly the greater part of the charters that cover more than 150 years of the Order s history The papers in this volume step into this gap and critically evaluate new directions in Templar studies on the basis of as yet unedited source material Open issues and desiderata regarding the sources are discussed and from a range of inspiring results a new status quaestionis is proposed that will not only provide a better understanding of the Order s archaeological economical religious administrative and military history but also set new points of departure for the editing of charters and administrative documents The papers here are grouped into six sections focusing on the headquarters of the Order its charters manpower and finance religious life and finally the suppression and the Order s afterlife

Crusading and Archaeology Vardit R. Shotten-Hallel,Rosie Weetch,2020-11-03 Between the eleventh and fifteenth centuries the social and cultural worlds of medieval Europe and the Eastern Mediterranean were transformed by the religious impetus of the crusades Today we bear witness to these transformations in the material and environmental record revealed by new archaeological excavations and reappraisals of museum collections This volume highlights new archaeological knowledge being developed by scholars working in the fields of history archaeology numismatics and architecture to demonstrate its potential to change and augment our understanding of the crusades The 16 chapters in this volume deploy a contemporary scientific approach to archaeology of the crusades to give an up to date account into the diverse range of research in this area They explore five key themes the implications of scientific methods new excavations and surveys architectural analyses sigillography and the application of social interpretations Together these chapters provide a new way of approaching the study of the crusades and demonstrate the value of taking a holistic view that utilises the full diverse range of evidence available to us **The Counts of Tripoli and Lebanon in the Twelfth Century** Kevin James

Lewis,2017-04-21 The county of Tripoli in what is now North Lebanon is arguably the most neglected of the so called crusader states established in the Middle East at the beginning of the twelfth century The present work is the first monograph on the county to be published in English and the first in any western language since 1945 What little has been written on the subject previously has focused upon the European ancestry of the counts of Tripoli a specifically Southern French heritage inherited from the famous crusader Raymond IV of Saint Gilles Kevin Lewis argues that past historians have at once exaggerated the political importance of the counts French descent and ignored the more compelling signs of its cultural impact highlighting poetry composed by troubadours in Occitan at Tripoli s court For Lewis however even this belies a deeper understanding of the processes that shaped the county What emerges is an intriguing portrait of the county in which its rulers struggled to exert their power over Lebanon in the face of this region s insurmountable geographical forces and its sometimes bewildering always beguiling diversity of religions languages and cultures The counts of Tripoli and contemporary Muslim onlookers certainly viewed the dynasty as sons of Saint Gilles but the county s administration relied upon Arabic its stability upon the mixed loyalties of its local inhabitants and its very existence upon the rugged mountains that cradled it This book challenges prevailing knowledge of this little known crusader state and by extension the medieval Middle East as a whole *Local Economies?* ,2016-04-26 The Roman economy was operated significantly above subsistence level with production being stimulated by both taxation and trade Some regions became wealthy on the basis of exporting

low value agricultural products across the Mediterranean In contrast it has usually been assumed that the high costs of land transport kept inland regions relatively poor This volume challenges these assumptions by presenting new research on production and exchange within inland regions The papers supported by detailed bibliographic essays range from Britain to Jordan They reveal robust agricultural economies in many interior regions Here some wealth did come from high value products which could defy transport costs However ceramics also indicate local exchange systems capable of generating wealth without being integrated into inter regional trading networks The role of the State in generating production and exchange is visible but often co existed with local market systems Contributors are Alyssa A Bandow Fanny Bessard Michel Bonifay Kim Bowes Stefano Costa Jeremy Evans Elizabeth Fentress Piroska H rshegyi Adam Izdebski Luke Lavan Tamara Lewit Phil Mills Katalin Ottom nyi Peter Sarris Emanuele Vaccaro Agn s Vokaer Mark Whittow and Andrea Zerbini *Myth and Reality: Studies on the Templars and Hospitallers, Medieval Narratives, and the Trial of the Templars* Helen J. Nicholson, 2025-10-28 Spanning thirty five years of scholarly research the articles in this collection represent key research findings from Helen J Nicholson s studies of the military religious orders and the crusades Ranging across subjects as diverse as the Templars religious practices Arthurian romance inspired by the events of the Third Crusade medieval European Christians views of Muslims and a heresy investigation in Ireland these articles reflect Nicholson s research into the Templars and Hospitallers as religious institutions medieval European fictional literature as an historical source and the trial of the Templars Aimed at university students scholars and enthusiasts on the military orders this volume makes this research available again to a new generation of readers *The Making of Lay Religion in Southern France, C. 1000-1350* John H. Arnold, 2024 A rich study of what medieval Christianity meant for ordinary people and how it changed across the middle ages arguably as profound as changes in the Reformation period providing a wider context for medieval Christianity by focusing on southern France in a period mainly known for heresy and for the Church s attack upon heresy
