Edwin M. Duval,1998 **François Rabelais. Oeuvres complètes** François Rabelais,1959 Rabelais's Carnival Samuel Kinser,2024-03-29 How is it possible after four centuries that a major episode in Rabelais s novels remains systematically misread The episode which playfully and grotesquely treats the relation of Carnival to Lent occurs in Rabelais s Fourth Book his last and most artfully crafted novel Samuel Kinser argues that the text has been distorted because critics have not attended to the episode s performative as well as literary contexts overlooking the innovative use Rabelais made in his work of his immediate world In this original interpretation of the Fourth Book Kinser evokes the gestures games and visual oral bodily semantics of Carnival and Lent as they were performed in Rabelais s day He also underscores the importance to Rabelais of the invention of printing an innovation which revolutionized the relationships of author and reader Understanding this and fearing it Rabelais adopted an extraordinary set of disguises as an author disguises which in their bewildering interplay constitute the truest sense of his carnival This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 **High Anxiety** Kathleen Perry Long,2002-03-01 This collection explores the evolution of notions about masculinity during the intense crisis of Renaissance and early modern France Authors of the period reflect the anxieties about masculinity that became more pronounced against the backdrop of major events and innovations of the period the religious conflict in France the repeated questioning of religious and royal authority the revival of Greek skepticism the discovery of the New World and the rise of clinical medicine These events in turn fueled growing doubt concerning the fixed and hierarchical nature of gender distinction a distinction upon which many felt French culture was dependent for its very survival *François Rabelais. Oeuvres complètes* François Rabelais,1961 Distant Voices Still Heard John O'Brien,Malcolm Quainton,2000-11-01 This

book seeks to satisfy a pedagogical need It is designed for the new graduate student in England and elsewhere although it may profitably be used by the enterprising final year undergraduate Its aim is to introduce the modern student to readings of French Renaissance literature drawing on the perspectives of contemporary literary theories The volume is organised by paired readings of five major sixteenth century French writers with interpretations covering among others structuralism semiotics feminism and psychoanalysis Linking these interpretations is a constant interest in problems such as the role of the reader the nature of the text and the question of gender The Introduction contextualises the encounter between literary theory and Renaissance texts by using the contributions as pivotal points in the development of critical thinking about this period in early modern literature All foreign language quotations are translated into English and the book is intended to be of practical interest to a wide range of readers from modern linguists to those studying critical theory comparative literature or cultural history

**Modelling the Individual**, 2022-05-20 One of the most noticeable features of the Renaissance is what Jacob Burckhardt called the rise of the individual in politics and religion in its social life and in the arts and in the mentality of Renaissance man with his inclination to explore to invent and to make new discoveries Yet this characteristic is also very puzzling to modern people who see that although the categories of art which depict particular people increased to a spectacular degree in a period when biography and portrait painting were among the most popular genres and autobiography began to emerge as a genre in itself and painters began to produce self portraits an interest individuals is not necessarily the same thing as the more recent interest in the purely personal aspects of individuals Literary and artistic traditions social and ideological backgrounds and the motives for the production of literature have changed profoundly Renaissance biography and autobiography portraiture and self portraiture have little to do with their modern counterparts Therefore this book stresses that the Renaissance is not predominantly a mirror of modernity but rather a period of stimulating difference or alterity The contributors to this collection of essays aim to create a better understanding of Renaissance biographies and portraits through the analysis and reconstruction of the traditions contexts backgrounds and circumstances of their production

**Birthing Bodies in Early Modern France** Kirk D. Read, 2016-04-15 The pregnant birthing and nurturing body is a recurring topos in early modern French literature Such bodies often metaphors for issues and anxieties obtaining to the gendered control of social and political institutions acquired much of their descriptive power from contemporaneous medical and scientific discourse In this study Kirk Read brings together literary and medical texts that represent a range of views from lyric poets satirists and polemicists to midwives and surgeons all of whom explore the popular sixteenth and early seventeenth century narratives of birth in France Although the rhetoric of birthing was widely used strategies and negotiations depended upon sex and gender this study considers the male female and hermaphroditic experience offering both an analysis of women s experiences to be sure but also opening onto the perspectives of non female birthers and their place in the social and political climate of early modern France The writers explored include Rabelais

Madeleine and Catherine Des Roches Louise Boursier Pierre de Ronsard Pierre Boaistuau and Jacques Duval Read also explores the implications of the metaphorical use of reproduction such as the presentation of literary work as offspring and the poet mentor relationship as that of a suckling child Foregrounded in the study are the questions of what it means for women to embrace biological and literary reproduction and how male appropriation of the birthing body influences the mission of creating new literary traditions Furthermore by exploring the cases of indeterminate birthing entities and the social anxiety that informs them Read complicates the binarisms at work in the vexed terrain of sexuality sex and gender in this period Ultimately Read considers how the narrative of birth produces historical conceptions of identity authority and gender

**Catalogue of Ancient and Modern Books** Sotheran,1852 **Less Rightly Said** Antonia Szabari,2009-10-23 Well known scholars and poets living in sixteenth century France including Erasmus Ronsard Calvin and Rabelais promoted elite satire that corrected vices but spared the person yet this period torn apart by religious differences also saw the rise of a much cruder personal satire that aimed at converting readers to its ideological religious and increasingly political ideas By focusing on popular pamphlets along with more canonical works Less Rightly Said shows that the satirists did not simply renounce the moral ideal of elite humanist scholarship but rather transmitted and manipulated that scholarship according to their ideological needs Szabari identifies the emergence of a political genre that provides us with a more thorough understanding of the culture of printing and reading of the political function of invectives and of the general role of dissensus in early modern French society

**Cheerfulness** Timothy Hampton,2022-05-24 A timely story of a forgotten emotion Cheerfulness A Literary and Cultural History tells a new story about the cultural imagination of the West wherein cheerfulness a momentary uptick in emotional energy a temporary lightening of spirit functions as a crucial theme in literary philosophical and artistic creations from early modern to contemporary times In dazzling interpretations of Shakespeare and Montaigne Hume Austen and Emerson Dickens Nietzsche and Louis Armstrong Hampton explores the philosophical construal of cheerfulness as a theme in Protestant theology a focus of medical writing a topic in Enlightenment psychology and a category of modern aesthetics In a conclusion on cheerfulness in pandemic days Hampton stresses the importance of lightness of mind under the pressure of catastrophe A history of the emotional life of European and American cultures a breathtaking exploration of the intersections of culture literature and psychology Cheerfulness challenges the dominant narrative of Western aesthetics as a story of melancholy mourning tragedy and trauma Hampton captures the many appearances of this fleeting and powerfully transformative emotion whose historical and literary trajectory has never before been systematically traced

*Utopia, Carnival, and Commonwealth in Renaissance England* Christopher Kendrick,2004-01-01 With the emergence of utopia as a cultural genre in the sixteenth century a dual understanding of alternative societies as either political or literary took shape In Utopia Carnival and Commonwealth in Renaissance England Christopher Kendrick argues that the chief cultural discursive conditions of this development are to be found in the practice

of carnivalesque satire and in the attempt to construct a valid commonwealth ideology. Meanwhile the enabling social political condition of the new utopian writing is the existence of a social class of smallholders whose unevenly developed character prevents it from attaining political power equivalent to its social weight. In a detailed reading of Thomas More's Utopia Kendrick argues that the uncanny dislocations, the incongruities and blank spots often remarked upon in Book II's description of Utopian society amount to a way of discovering uneven development and that the appeal of Utopian communism stems from its answering the desire of the smallholding class in which are to be numbered European humanists for unity and power. Subsequent chapters on Rabelais, Nashe, Marlowe, Bacon, Shakespeare and others show how the utopian form engages with its two chief discursive preconditions: carnival and commonwealth ideologies while reflecting the history of uneven development and the smallholding class. Utopia, Carnival and Commonwealth in Renaissance England makes a novel case for the social and cultural significance of Renaissance utopian writing and of the modern utopia in general.

French Global Christie McDonald, Susan Suleiman, 2010-10-25 Recasting French literary history in terms of the cultures and peoples that interacted within and outside of France's national boundaries, this volume offers a new way of looking at the history of a national literature along with a truly global and contemporary understanding of language, literature and culture. The relationship between France's national territory and other regions of the world where French is spoken and written, most of them former colonies, has long been central to discussions of Francophonie. Boldly expanding such discussions to the whole range of French literature, the essays in this volume explore spaces, mobilities and multiplicities from the Middle Ages to today. They rethink literary history not in terms of national boundaries as traditional literary histories have done, but in terms of a global paradigm that emphasizes border crossings and encounters with others. Contributors offer new ways of reading canonical texts and considering other texts that are not part of the traditional canon. By emphasizing diverse conceptions of language, text, space and nation, these essays establish a model approach that remains sensitive to the specificities of time and place and to the theoretical concerns informing the study of national literatures in the twenty-first century. Montaigne and Brief Narrative Form D. Losse, 2013-06-11 The first book-length study to trace the origins of the essay to the conte Montaigne and Brief Narrative Form puts the reader in touch with how unstable times and exceptional artistic insights transform one genre to create a new artistic form.
