Race And Ethnic Conflict Contending Views On Prejudice And Ethnoviolence:

Race And Ethnic Conflict Fred L Pincus, Howard J Ehrlich, 1994 **Race and Ethnic Conflict** Fred L. Pincus, Howard J. Ehrlich, 2019-09-05 In the revised and updated second edition of this comprehensive book the first anthology to integrate social psychological literature on prejudice with sociological and historical investigations contributors introduce readers to the key debates and principal writings on racial and ethnic conflict representing conservative liberal and radical positions Presented in debate format each section offers a provocative discussion of contemporary problems and issues allowing students to take part in the controversies from an informed perspective The editors introductions provide current data and describe cutting edge arguments that are reshaping the study of race and ethnicity today The second edition boasts new readings which serve to further enhance the dialogue on America s continuing struggle with racial issues Contributors tackle a wide array of issues which plague the country today from discrimination and immigration to education and politics and ask how we can affect change as we move into the twenty first century Violence on Campus Allan Michael Hoffman, John H. Schuh, Robert H. Fenske, 1998 This unique book addresses violence on campus and its impact on America s colleges and universities from a practical management perspective Each chapter builds on a theoretical base to provide guidance strategies and a multidisciplinary approach to successfully dealing with this growing issue Nearly 400 pages Violence on Campus is a unique blend of in depth research and actual case studies of programs that have been employed to reduce on campus violent crime If you re like most people you re being asked to handle more than ever before But chances are you re being asked to do it with the same or even fewer resources Violence on Campus Defining the Problems Strategies for Action is a vital tool to help you do your job better **Beyond All Reason** Daniel A. Farber, Suzanna Sherry, 1997-10-30 Would you want to be operated on by a surgeon trained at a medical school that did not evaluate its students Would you want to fly in a plane designed by people convinced that the laws of physics are socially constructed Would you want to be tried by a legal system indifferent to the distinction between fact and fiction These questions may seem absurd but these are theories being seriously advanced by radical multiculturalists that force us to ask them These scholars assert that such concepts as truth and merit are inextricably racist and sexist that reason and objectivity are merely sophisticated masks for ideological bias and that reality itself is nothing more than a socially constructed mechanism for preserving the power of the ruling elite In Beyond All Reason liberal legal scholars Daniel A Farber and Suzanna Sherry mount the first systematic critique of radical multiculturalism as a form of legal scholarship Beginning with an incisive overview of the origins and basic tenets of radical multiculturalism the authors critically examine the work of Derrick Bell Catherine MacKinnon Patricia Williams and Richard Delgado and explore the alarming implications of their theories Farber and Sherry push these theories to their logical conclusions and show that radical multiculturalism is destructive of the very goals it wishes to affirm If for example the concept of advancement based on merit is fraudulent as the multiculturalists claim the disproportionate success of Jews and

Asians in our culture becomes difficult to explain without opening the door to age old anti Semitic and racist stereotypes If historical and scientific truths are entirely relative social constructs then Holocaust denial becomes merely a matter of perspective and Creationism has as much validity as evolution The authors go on to show that rather than promoting more dialogue the radical multiculturalist preferences for legal storytelling and identity politics over reasoned argument produces an insular set of positions that resist open debate Indeed radical multiculturalists cannot critically examine each others ideas without incurring vehement accusations of racism and sexism much less engage in fruitful discussion with a mainstream that does not share their assumptions Here again Farber and Sherry show that the end result of such thinking is not freedom but a kind of totalitarianism where dissent cannot be tolerated and only the naked will to power remains to settle differences Sharply written and brilliantly argued this book is itself a model of the kind of clarity civility and dispassionate critical thinking which the authors seek to preserve from the attacks of the radical multiculturalists With far reaching implications for such issues as government control of hate speech and pornography affirmative action legal reform and the fate of all minorities *Beyond All Reason* is a provocative contribution to one of the most important controversies of our time

in addition to factors at the individual and group levels Although a definitive model is not reached the aim of this text is to facilitate future research and theory

Proof, Evidence and Hate Crime Tshepo Bogosi Mosaka, 2025-07-18 Proof is the property of a disputed fact being established inferentially from an extant fact This book explicates the structural components of this phenomenon in the context of hate crimes across various jurisdictions around the world It departs from the orthodox conception of evidence and proof as being a general value neutral or non normative and epistemic subject and offers a relativistic conception of this area of law The core argument is that proof is both semantically and methodologically determined by three conditions of materiality process and probativity This argument is then justified by the context specific application of this relativistic theory of proof to hate crimes This theoretical application of proof is sustained throughout the book using multiple examples and illustrations of hate crimes around the world The discussion both at the level of proof and hate crimes while focusing on the grounds of race religion and ethnicity specifically is framed in jurisprudential cross jurisdictional and interdisciplinary terms The book will be of interest to academics and researchers working in the areas of criminal law legal philosophy and procedural law

Ensuring the Success of Latino Males in Higher Education Victor B. Sáenz, Luis Ponjuán, Julie L. Figueroa, 2023-07-03 Latino males are effectively vanishing from the American higher education pipeline Even as the number of Latinas/os attending college has actually increased steadily over the last few decades the proportional representation of Latino males continues to slide relative to their Latina female counterparts The question of why Latino males are losing ground in accessing higher education relative to their peers is an important and complex one and it lies at the heart of this book There are several broad themes highlighted catalogued along with the four dimensions of policy theory research and practice The contributors to this book present new research on factors that inhibit or promote Latino success in both four year institutions and community colleges in order to inform both policy and practice They explore the social cultural factors peer dynamics and labor force demands that may be perpetuating the growing gender gap and consider what lessons can be learned from research on the success of Latinas This book also closely examines key practices that enable first generation Latino male undergraduates to succeed which may seem counterintuitive to institutional expectations and preconceived

notions of student behavior Using narrative data the book also explores the role of family in persistence outlines how Latino men conceptualize fulfilling expectations negotiate the emasculation of the educational process and how they confront racialization in the pursuit of a higher education uncovers attitudes to help seeking that are detrimental to their success and analyzes how those who succeed and progress in college apply their social capital whether aspirational navigational social linguistic familial or resistant While uncovering the lack of awareness at all levels of our colleges and universities about the depth and severity of the challenges facing Latino males this book provides the foundation for rethinking policy challenges leaders to institutionalize male focused programs and services and presents data to inform needed changes in practice for outreach and retention

Academic Profiling Gilda L. Ochoa, 2013-10-01 Today the achievement gap is hotly

debated among pundits politicians and educators In particular this conversation often focuses on the two fastest growing demographic groups in the United States Asian Americans and Latinos In Academic Profiling Gilda L Ochoa addresses this so called gap by going directly to the source At one California public high school where the controversy is lived every day Ochoa turns to the students teachers and parents to learn about the very real disparities in opportunity status treatment and assumptions that lead to more than just gaps in achievement In candid and at times heart wrenching detail the students tell stories of encouragement and neglect on their paths to graduation Separated by unequal middle schools and curriculum tracking they are divided by race class and gender While those channeled into an International Baccalaureate Program boast about Socratic classes and stress release sessions students left out of such programs commonly describe uninspired teaching and inaccessible counseling Students unequally labeled encounter differential policing and assumptions based on their abilities disparities compounded by the growth in the private tutoring industry that favors the already economically privileged Despite the entrenched inequality in today s schools Academic Profiling finds hope in the many ways students and teachers are affirming identities creating alternative spaces and fostering critical consciousness When Ochoa shares the results of her research with the high school we see the new possibilities and limits of change

Strangers in the Ethnic Homeland Takeyuki Tsuda, 2003-04-30 Since the late 1980s Brazilians of Japanese descent have been return migrating to Japan as unskilled foreign workers With an immigrant population currently estimated at roughly 280 000 Japanese Brazilians are now the second largest group of foreigners in Japan Although they are of Japanese descent most were born in Brazil and are culturally Brazilian As a result they have become Japan s newest ethnic minority Drawing upon close to two years of multisite fieldwork in Brazil and Japan Takeyuki Tsuda has written a comprehensive ethnography that examines the ethnic experiences and reactions of both Japanese Brazilian immigrants and their native Japanese hosts In response to their socioeconomic marginalization in their ethnic homeland Japanese Brazilians have strengthened their Brazilian nationalist sentiments despite becoming members of an increasingly well integrated transnational migrant community Although such migrant nationalism enables them to resist assimilationist Japanese cultural pressures its challenge to Japanese ethnic attitudes and ethnonational identity remains inherently contradictory Strangers in the Ethnic Homeland illuminates how cultural encounters caused by transnational migration can reinforce local ethnic identities and nationalist discourses

Hate Crimes Barbara Perry, 2009-03-05 This book offers a comprehensive approach to understanding hate crime its causes consequences prevention and prosecution Hate crimes continue to be a pervasive problem in the United States The murder of Matthew Shepard the lynching of James Byrd the murderous rampage of Benjamin Smith and anti Muslim violence remind us that incidence of deadly bigotry is not only a recurring chapter in U S history but also a part of our present day world Contrary to common belief hate mongers who commit crimes are rarely members of the Ku Klux Klan or a skinhead group In fact fewer than 5 percent of identifiable offenders are members of organized hate groups Yet rather than being an individual crime hate crime represents an assault against all members of stigmatized and marginalized communities To fully understand the phenomenon of hate crime and reduce its incidence it is necessary to clearly define the term itself to examine the victims and the offenders and to evaluate the consequences and harms of hate crimes This comprehensive five volume set carefully addresses the disturbing variety and incidence of hate crimes exposing their impacts on the broader realms of crime punishment individual communities and society The contributing authors and editors pay critical attention to cutting edge topics such as online hate crimes hate based music anti Latino hostilities Islamophobia hate crimes in the War on Terror school based anti hate initiatives and more The final volume of Hate Crimes provides valuable food for thought on possible legislative educational social policy or community organizational responses to the varied forms of hate crime
