Race, Ethnicity and Education in Globalised Times Ruth Arber, 2008-02-12 What is the speci city of contemporary racism And what happens to questions of race in a context where multiculturalism is taken for granted Few authors address these kinds of questions with subtlety For the most part questions of racism are treated either as self evident or alternatively as self evidenced The rst approach accentuated in everyday life and played out in media expos s is the tendency to treat racism as manifestly self evident We just know what racism is in principle and we just know what it looks like when we see it in practice Dualistic assumptions dominate this sense of identity relations persons are racist or they are not an act is racist or it is not However despite the obviousness of racism in contexts where different people have different seating arrangements on a bus or somebody says I am better than you because your skin colour is different this approach barely comes to terms with the depth of embodied politics and the elusiveness of structures of racism in the contemporary world

Brown, Sumit Ganguly, 1997-10-20 Efforts to contend with tensions inherent in multiethnic societies case studies of India Pakistan Sri Lanka Burma Thailand Malaysia Singapore Indonesia the Philippines China Australia New Zealand Papua New Guinea Fiji Vanuatu and the Federated States of Micronesia Ethnic conflict one of the most serious and widespread problems in the world today can undermine efforts to promote political and economic development as well as political economic and social justice It can also lead to violence and open warfare producing horrifying levels of death and destruction Although government policies on ethnic issues often have profound effects on a country the subject has been neglected by most scholars and analysts This volume analyzes different policies governments have pursued in their efforts to contend with the tensions inherent in multiethnic societies The book focuses on Asia and the Pacific the most populous and economically vibrant part of the world The heart of the book is a set of case studies of government policies in sixteen countries India Pakistan Sri Lanka Burma Thailand Malaysia Singapore Indonesia the Philippines China Australia New Zealand Papua New Guinea Fiji Vanuatu and the Federated States of Micronesia The studies consider a wide range of political economic educational linguistic and cultural policies and how these policies have evolved over time Using a broad comparative perspective to assess the effectiveness of different governmental approaches the authors offer policy recommendations that cut across individual countries and regions *G.K. Hall Interdisciplinary Bibliographic Guide to Black Studies* Schomburg Center for Research in Black Culture, 2003 **Ethnic Origins** Jeremy Hein, 2006-04-13 Immigration studies have increasingly focused on how immigrant adaptation to their new homelands is influenced by the social structures in the sending society particularly its economy Less scholarly research has focused on the ways that the cultural make up of immigrant homelands influences their adaptation to life in a new country In *Ethnic Origins* Jeremy Hein investigates the role of religion family and other cultural factors on immigrant incorporation into American society by comparing the experiences of two little known immigrant groups living in four different American cities not commonly regarded as immigrant gateways *Ethnic Origins* provides an in depth look at Hmong and Khmer refugees people who left Asia as a result of failed U S foreign policy in their countries These groups share low socio economic status but are vastly different in their norms values and histories Hein compares their experience in two small towns Rochester Minnesota and Eau Claire Wisconsin and in two big cities Chicago and Milwaukee and examines how each group adjusted to these different settings The two groups encountered both community hospitality and narrow minded hatred in the small towns contrasting sharply with the cold anonymity of the urban pecking order in the larger cities Hein finds that for each group their ethnic background was more important in

shaping adaptation patterns than the place in which they settled Hein shows how in both the cities and towns the Hmong's sharply drawn ethnic boundaries and minority status in their native land left them with less affinity for U S citizenship or Asian American panethnicity than the Khmer whose ethnic boundary is more porous Their differing ethnic backgrounds also influenced their reactions to prejudice and discrimination The Hmong with a strong group identity perceived greater social inequality and supported collective political action to redress wrongs more than the individualistic Khmer who tended to view personal hardship as a solitary misfortune rather than part of a larger scale injustice Examining two unique immigrant groups in communities where immigrants have not traditionally settled *Ethnic Origins* vividly illustrates the factors that shape immigrants response to American society and suggests a need to refine prevailing theories of immigration Hein's book is at once a novel look at a little known segment of America's melting pot and a significant contribution to research on Asian immigration to the United States A Volume in the American Sociological Association's Rose Series in Sociology
