Race Game Sport And Politics In South Africa:

The Race Game Douglas Booth,1998 In this book Douglas Booth takes a fresh look at the role of sport in the fostering of a new national identity in South Africa **South Africa and the Global Game** Peter Alegi,Chris Bolsmann,2013-10-18 Firmly situating South African teams players and associations in the international framework in which they have to compete South Africa and the Global Game Football Apartheid and Beyond presents an interdisciplinary analysis of how and why South Africa underwent a remarkable transformation from a pariah in world sport to the first African host of a World Cup in 2010 Written by an eminent team of scholars this special issue and book aims to examine the importance of football in South African society revealing how the black oppression transformed a colonial game into a force for political cultural and social liberation It explores how the hosting of the 2010 World Cup aims to enhance the prestige of the post apartheid nation to generate economic growth and stimulate Pan African pride Among the themes dealt with are race and racism class and gender dynamics social identities mass media and culture and globalization This collection of original and insightful essays will appeal to specialists in African Studies Cultural Studies and Sport Studies as well as to non specialist readers seeking to inform themselves ahead of the 2010 World Cup This book was published as a special issue of Soccer and Society **The Race Game** Douglas Booth,2012-12-06 1999 North American Society for Sports History Book of the Year Douglas Booth looks at the role of sport in the fostering of a new national identity in South Africa He analyzes the effect of the 30 year sport boycott but concludes that sport will never unite South Africans except in the most fleeting and superficial manner **Sport Past and Present in South Africa** Scarlett Cornelissen,Albert Grundlingh,2013-09-13 This book provides an interpretation of sport in contemporary South Africa through an historical account of the evolution and social ramifications of sport in the twentieth century It comprises chapters which trace the growth of sports such as football cricket surfing boxing and rugby and considers their relationship to aspects of racial identity masculinity femininity political and social development in the country The book also draws out the wider geo political significance of South African sport placing it in the context of the development of sport both elsewhere on the African continent and internationally The history of sport has seen significant international growth over the past few decades For the most part however the history of sport in Africa has remained largely untraced By detailing the way in which sport s development in South Africa overlapped with major socio political processes on the wider African continent this volume seeks to narrow the gap This book was previously published as a special issue of the International Journal of the History of Sport **Sport: Race, Ethnicity and Identity** Daryl Adair,2013-09-13 Sport has long been a paradoxical environment with respect to issues of race ethnicity and identity For much of the twentieth century sports around the world were enclaves of difference Whites and non whites for example were separated on the sports field as they were in many ways off the field Today sport is much more inclusive with athletic ability of greater importance than skin colour or ancestry Yet enmity and antagonism still appear in sport via instances of racial vilification or hostility between

some groups Other problems include the relative absence of minorities from positions of power and influence in sport as well as folkloric assumptions about athletic ability based upon stereotypes about race or ethnic background This book discusses issues of diversity capacity and equity in the colourful world of global sport A panoramic approach covering race ethnicity and identity is consistent with the contemporary global migration of professional athletes as well as the multicultural contexts of sport in various regions This collection of essays therefore addresses international dimensions of sport commonality and difference as well as the special circumstances of sport and social relations in particular places This book was previously published as a special issue of Sport in Society

British Sporting Relations with Apartheid South

Africa Matthew P. Llewellyn, Toby C. Rider, 2024-11-25 The transnational anti apartheid sport boycott of South Africa represented the most prominent extended and controversial anti racism campaign in the history of sport Spearheaded by prominent British religious and anti colonial figures and exiled South Africans emboldened by communist and Global South support and legitimised by supranational political bodies such as the United Nations the Organisation of African Unity and the Commonwealth the sport boycott helped propel anti apartheid out of relative obscurity and struck at the very heart of a cultural practice that served an explicitly ideological function in Afrikaner society Britain held a dichotomous even paradoxical role as both prosecutor and defender of white South Africa This book utilises sport as a critical lens for understanding the dynamics and dichotomies of British attitudes towards the apartheid regime Debates over whether to continue or to cut sporting links with apartheid South Africa proved bitterly divisive The considerable weight the subject carried and the degree to which it saturated British political and social discourse for four decades speaks to its impact and importance British Sporting Relations with Apartheid South Africa represents the first archival based historical examination of Britain's sporting relations with South Africa throughout the apartheid era 1948 1994 Situating the analysis within the shifting multiracial and multicultural landscapes of postcolonial Britain and within global political cultural sporting and ideological debates the authors trace the origins and evolution of the transnational sport boycott and examine what inspired Britons to energise anti apartheid sport campaigns and in contrast what drove many others to vehemently oppose them at every turn
