*Race in the Hood* Howard Pinderhughes, 1997 Why are racial conflict and violence among the most enduring problems in American society Why do some youths express racism violently while others develop tolerance and respect for those who are different What can we as a society do to foster open mindedness among children and teenagers Seeking answers to these questions Howard Pinderhughes spent two years talking to and studying three groups of New York City adolescents the predominantly Italian American Avenue T Boys from the Bensonhurst section of Brooklyn a group of African American teenagers from Schomberg Plaza in East Harlem and a group of Albanian American youth from Pelham Park in the Bronx Through the voices of these young people Pinderhughes examines how racial attitudes and identities develop in communities and are then expressed as either tolerance resulting in territorial cooperation or hatred resulting in racial conflict *Race in the Hood* draws a picture of young people who grew up in similar class circumstances facing remarkably similar problems and issues with one significant difference in their lives their race or ethnicity Pinderhughes argues that the key to success in developing racial tolerance lies in the transformation of racialized grassroots ideologies through community and school based multicultural education A sophisticated and nuanced study of race relations in New York City *Race in the Hood* points to areas of concern and directions for change in all of our communities *Race in the Hood* Howard Pinderhughes, 1997

#### **Guido Culture and Italian American Youth**

Donald Tricarico, 2018-12-24. From Saturday Night Fever to Jersey Shore, Italian American youth in New York City have appropriated and been appropriated by popular American culture. Here Donald Tricarico investigates how Italian ethnicity has been used to fashion Guido as a distinct youth style that signals inclusion in popular American culture and simultaneously the making of a new ethnic subject. Emerging from a wave of Italian immigration after World War II in outer borough neighborhoods such as Bensonhurst, the story of the Guido is an Italian American story symbolizing the negotiation of a negatively privileged ethnicity within American society. Tricarico takes up questions about the definition of Guido, the role of disco, and the identity politics of Jersey Shore in order to reconsider the significance of Guido for the study of Italian American ethnicity.

**Making Italian America** Simone Cinotto, 2014-04-01. How do immigrants and their children forge their identities in a new land, and how does the ethnic culture they create thrive in the larger society? Making Italian America brings together new scholarship on the cultural history of consumption, immigration, and ethnic marketing to explore these questions by focusing on the case of an ethnic group whose material culture and lifestyles have been central to American life: Italian Americans. As embodied in fashion, film, food, popular music, sports, and many other representations and commodities, Italian American identities have profoundly fascinated, disturbed, and influenced American and global culture. Discussing in fresh ways topics as diverse as immigrant women's fashion, critiques of consumerism in Italian immigrant radicalism, the Italian American influence in early rock and roll, ethnic tourism in Little Italy, and Guido subculture, Making Italian America recasts Italian immigrants and their children as active consumers who, since the turn of the twentieth century, have creatively managed to articulate relations of race, gender, and class and create distinctive lifestyles out of materials the marketplace offered to them. The success of these mostly working-class people in making their everyday culture meaningful to them as

well as in shaping an ethnic identity that appealed to a wider public of shoppers and spectators looms large in the political history of consumption Making Italian America appraises how immigrants and their children redesigned the market to suit their tastes and in the process made Italian American identities a lure for millions of consumers Fourteen essays explore Italian American history in the light of consumer culture across more than a century long intense movement of people goods money ideas and images between Italy and the United States a diasporic exchange that has transformed both nations Simone Cinotto builds an imaginative analytical framework for understanding the ways in which ethnic and racial groups have shaped their collective identities and negotiated their place in the consumers emporium and marketplace Grounded in the new scholarship in transnational U S history and the transfer of cultural patterns Making Italian America illuminates the crucial role that consumption has had in shaping the ethnic culture and diasporic identities of Italians in America It also illustrates vividly why and how those same identities incorporated in commodities commercial leisure and popular representations have become the object of desire for millions of American and global consumers

The Global Pigeon Colin Jerolmack, 2013-03-20 The pigeon is the quintessential city bird Domesticated thousands of years ago as a messenger and a source of food its presence on our sidewalks is so common that people consider the bird a nuisance if they notice it at all Yet pigeons are also kept for pleasure sport and profit by people all over the world

from the pigeon wars waged by breeding enthusiasts in the skies over Brooklyn to the Million Dollar Pigeon Race held every year in South Africa Drawing on more than three years of fieldwork across three continents Colin Jerolmack traces our complex and often contradictory relationship with these versatile animals in public spaces such as Venice's Piazza San Marco and London's Trafalgar Square and in working class and immigrant communities of pigeon breeders in New York and Berlin By exploring what he calls the social experience of animals Jerolmack shows how our interactions with pigeons offer surprising insights into city life community culture and politics Theoretically understated and accessible to interested readers of all stripes *The Global Pigeon* is one of the best and most original ethnographies to be published in decades Housing, Social Policy and Difference Malcolm Harrison, Cathy Davis, 2001-04-18 How does the welfare state and its institutions respond to impairment ethnicity and gender This book provides an overview of issues set in the context of housing From ethnic minority housing needs to the housing implications of domestic violence it shows how difference is regulated in housing **The Production of Reality** Jodi O'Brien, 2006 This social psychology reader contains readings from popular literature as well as from peer reviewed journals and framing essays written by the editors All articles have been chosen with their readability and appropriateness for an undergraduate audience Studying Youth Gangs James F. Short Jr., Lorine A. Hughes, 2006-05-04 In this absorbing new collection Short and Hughes and their distinguished coauthors investigate why and how we study youth gangs Over the last half century of research by criminologists sociologists and gang experts investigations of gang behavior have become increasingly specialized and isolated from studies of delinquency and deviance The authors challenge popular and inaccurate definitions of gangs vs non gang youth groups and show how the amazing diversity of gangs \_both domestic and international\_ demands more rigorous study This book stimulates thinking about valid methods of defining and interpreting gang behavior in order to better understand delinquent and criminal behaviors and their control It is an ideal text for criminal justice sociology and social work courses and a resource for law enforcement probation and parole practitioners and public defenders **High-Profile Crimes** Lynn S. Chancer, 2010-02-15 O J Simpson The Central Park jogger Bensonhurst William Kennedy Smith Rodney King These are more than crimes and criminals more than court cases They are cultural events that for better or worse gave concrete expression to latent social conflicts in American society In *High Profile Crimes* Lynn Chancer explores how these cases became conflated with larger social causes on a collective level and how this phenomenon has affected the law the media and social movements An astute and incisive chronicle of some of the most polarizing cases of the 1980s and 1990s *High Profile Crimes* shows that their landmark status results from the overlapping interaction of diverse participants The merging of legal cases and social causes Chancer argues has wrought ambivalent effects on both social movements and the law On the one hand high profile crimes offer important opportunities for emotional expression and raise awareness of social issues But on the other hand social problems cannot be resolved through the either/or determinations that are the goals of the legal system creating frustration for those who look to

the outcome of these cases for social progress Guilt or innocence through the lens of the media leads to either defeat or victory for a social cause a confounding situation that made the O J Simpson case for example unable to resolve the issues of domestic violence and police racism that it had come to symbolize Based on nearly two hundred interviews Chancer s discussions of the infamous Central Park jogger and Bensonhurst cases as well as the rape trials of William Kennedy Smith and Mike Tyson the assault cases of Rodney King and Reginald Denny and finally the O J Simpson murder trial provide a convincing multidimensional and innovative analysis of the most charged public dramas of the last two decades **Cracks in the Pavement** Martin Sanchez-Jankowski,2008-09-02 Neighborhoods have been central to American sociology since its inception yet we have understood little about how the institutions in urban communities evolve disappear or persist over time Instead as of late many scholars have treated neighborhoods as collections of individuals and families ignoring the institutional ecology Understanding the dynamic role of local institutions is critical not only to sociological scholarship but also to important public policy debates about urban poverty Mart n S nchez Jankowski offers the reader an important comprehensive look at how local institutions ranging from barbershops to street gangs to public housing both reflect and shape the culture and daily rhythms of the residents who live with them His ecological perspective offers an important missing link in debates about neighborhood effects and should be read by anyone interested in understanding urban poverty Dalton Conley author of Being Black Living in the Red Race Wealth and Social Policy in America In his famous and moving preface to Les Miserables Victor Hugo warns us that as long as there is poverty such tales will be told But stories are not often told about the resurgence of poor communities their struggles to mobilize and change their condition But this book does just that filling in the rest of the picture and not of individual Horatio Algiers but with textured and critical analysis of the barriers these communities face and the pathways they take to achieve social change Troy Duster New York University Young Men's Work Facilitator's Guides - Item 1751 , Making Allies, Making Friends Hugh Vasquez,M. Nell Myhand,Allan Creighton,Todos Institute,2003 A special curriculum designed to teach racial sexual and ethnic diversity assembles over thirty journal role playing storytelling and research activities to promote peace and acceptance
