*The Race of the Golden Apples* Claire Martin, 1991-06-01 A Greek princess raised by bears in the forest and then returned to her rightful place in the kingdom refuses to marry unless the man can outrun her in a footrace Archetypes and Motifs in Folklore and Literature ,2005 Reading Shakespeare's Will Lisa Freinkel, 2002 The most influential treatments of Shakespeare's Sonnets have ignored the impact of theology on his poetics examining instead the poet's secular emphasis on psychology and subjectivity Reading Shakespeare's Will offers the first systematic account of the theology behind the poetry Investigating the poetic stakes of Christianity's efforts to assimilate Jewish scripture the book reads Shakespeare through the history of Christian allegory To read Shakespeare's will Freinkel argues is to read his bequest to and from a literary history saturated by religious doctrine Freinkel thus challenges the common equation of subjectivity with secularity and defines Shakespeare's poetic voice in theological rather than psychoanalytic terms Tracing from Augustine to Luther the religious legacy that informs Shakespeare's work Freinkel suggests that we cannot properly understand his poetry without recognizing it as a response to Luther's Reformation Delving into the valences and repercussions of this response Reading Shakespeare's Will charts the notion of a theology of figure that helped to shape the themes tropes and formal structures of Renaissance literature and thought **Maxwell's Demon and the Golden Apple** Randall L. Schweller, 2014-05 Mixing myth entropy and Angry Birds Randall Schweller brings a novel perspective to international studies Just what exactly will follow the American century This is the question Randall L Schweller explores in his provocative assessment of international politics in the twenty first century Schweller considers the future of world politics correlating our reliance on technology and our multitasking distracted disorganized lives with a fragmenting world order He combines the Greek myth of the Golden Apple of Discord which explains the start of the Trojan War with a look at the second law of thermodynamics or entropy In the coming age Schweller writes disorder will reign supreme as the world succumbs to entropy an irreversible process of disorganization that governs the direction of all physical changes taking place in the universe Interweaving his theory of global disorder with issues on the world stage coupled with a disquisition on board games and the cell phone app Angry Birds Schweller's thesis yields astonishing insights Maxwell's Demon and the Golden Apple will appeal to leaders of multinational corporations and government programs as well as instructors of undergraduate courses in international relations
