Race To Fashoda European Colonialism And African Resistance In The Scramble For Africa:

The Race to Fashoda David L. Lewis, David Levering Lewis, 1988 The fortress of Fashoda is on an obscure junction of the Nile but from 1870 onwards because of its strategic position and the rise of European colonialism it became the subject of conflict between the rival Western powers of Britain France Belgium Germany and Italy *The Race to Fashoda* David L. Lewis, 1989-01-01 **The Race to Fashoda** David L. Lewis, 1987 **Muslim Interpreters in Colonial Senegal, 1850-1920** Tamba M'bayo, 2016-07-01 This book investigates the lives and careers of Muslim African interpreters employed by the French colonial administration in Saint Louis Senegal from the 1850s to the early 1920s It focuses on the lower and middle Senegal River valley in northern Senegal where the French concentrated most of their activities in West Africa during the nineteenth century The Muslim interpreters performed multiple roles as mediators military and expeditionary guides emissaries diplomatic hosts and treaty negotiators As cultural and political powerbrokers that straddled the colonial divide they were indispensable for French officials in their relations with African rulers and the local population As such a central concern of this book is the paradoxical and often contradictory roles the interpreters played in mediating between the French and Africans This book argues that the Muslim interpreters exemplified a paradox while serving the French administration they pursued their own interests and defended those of their local communities In doing so the interpreters strove to maintain some degree of autonomy Moreover this book contends that the interpreters occupied a vantage position as mediators to influence the construction of colonial discourse and knowledge because they channeled the flow of information between the French and the African population Thus Muslim interpreters had the capacity to shape power relations between the colonizers and the colonized in Senegal In Search of Brightest Africa Jeannette Eileen Jones, 2011-11-01 In the decades between the Berlin Conference that partitioned Africa and the opening of the African Hall at the American Museum of Natural History Americans in several fields and from many backgrounds argued that Africa had something to teach them Jeannette Eileen Jones traces the history of the idea of Africa with an eye to recovering the emergence of a belief in Brightest Africa a tradition that runs through American cultural and intellectual history with equal force to its Dark Continent counterpart Jones skillfully weaves disparate strands of turn of the century society and culture to expose a vivid trend of cultural engagement that involved both critique and activism Filmmakers spoke out against the depiction of savage Africa in the mass media while also initiating a countertradition of ethnographic documentaries Early environmentalists celebrated Africa as a pristine continent while lamenting that its unsullied landscape was vanishing New Negro political thinkers also wanted to save Africa but saw its fragility in terms of imperiled human promise Jones illuminates both the optimism about Africa underlying these concerns and the racist and colonial interests these agents often nevertheless served The book contributes to a growing literature on the ongoing role of global exchange in shaping the African American experience as well as debates about the cultural place of Africa in American thought *Mightier Than the Sword* Lorraine

Atkin,2024-04-16 How can words on paper be more devastating than war Why is there persistent inequality racial financial structural Why are things in our society the way they are Mightier Than the Sword How Three Obscure Treaties Sanctioned the Enslavement of Millions and the Exploitation of Continents for More Than 400 Years offers a perspective on the roots of the inequality of today Documents written hundreds of years ago embody the biases and power strategies of their time but they still have a long reach through history Atkin examines three treaties the Treaty of Tordesillas the Treaties of Nanking and the Conference of Berlin that granted permission or the sanctioned rationale to decree that annihilation and confiscation of property was legal and just on five continents Atkin argues these written words continued to achieve their objectives and exercise power by influencing among other things the codification of Eurocentric International Law Enhancing trade was and remains the claimed intent but inequality serves this objective Land dispossession slavery and the subjugation of Indigenous peoples are repeated themes in history and are unfortunately still with us today This book will change how you understand today s events and the continuing influence of historic documents This fresh perspective offers hope for real change in policy and the societies they shape

Africans and Britons in the Age of Empires, 1660-1980 Myles Osborne,Susan Kingsley

Kent,2015-03-24 *Africans and Britons in the Age of Empires 1660 1980* tells the stories of the intertwined lives of African and British peoples over more than three centuries In seven chapters and an epilogue Myles Osborne and Susan Kingsley Kent explore the characters that comprised the British presence in Africa the slave traders and slaves missionaries and explorers imperialists and miners farmers settlers lawyers chiefs prophets intellectuals politicians and soldiers of all colors The authors show that the oft told narrative of a monolithic imperial power ruling inexorably over passive African victims no longer stands scrutiny rather at every turn Africans and Britons interacted with one another in a complex set of relationships that involved

as much cooperation and negotiation as resistance and force whether during the era of the slave trade the world wars or the period of decolonization The British presence provoked a wide range of responses reactions and transformations in various aspects of African life but at the same time the experience of empire in Africa and its ultimate collapse also compelled the British to view themselves and their empire in new ways Written by an Africanist and a historian of imperial Britain and illustrated with maps and photographs Africans and Britons in the Age of Empires 1660 1980 provides a uniquely rich perspective for understanding both African and British history

China Goes to Sea Andrew S. Erickson, Lyle J Goldstein, Carnes Lord, 2009-07-01 In modern history China has been primarily a land power dominating smaller states along its massive continental flanks But China's turn toward the sea is now very much a reality as evident in its stunning rise in global shipbuilding markets its vast and expanding merchant marine the wide offshore reach of its energy and minerals exploration companies its growing fishing fleet and indeed its increasingly modern navy Yet for all these achievements there is still profound skepticism regarding China's potential as a genuine maritime power Beijing must still import the most vital subcomponents for its shipyards maritime governance remains severely bureaucratically challenged and the navy evinces at least as of yet little enthusiasm for significant blue water power projection capabilities This volume provides a truly comprehensive assessment of prospects for China's maritime development by situating these important geostrategic phenomena within a larger world historical context China is hardly the only land power in history to attempt transformation by fostering sea power Many continental powers have elected or been impelled to transform themselves into significant maritime powers in order to safeguard their strategic position or advance their interests We examine cases of attempted transformation from the Persian Empire to the Soviet Union and determine the reasons for their success or failure Too many works on China view the nation in isolation Of course China's history and culture are to some extent exceptional but building intellectual fences actually hinders the effort to understand China's current development trajectory Without underestimating the enduring pull of China's past as it relates to threats to the country's internal stability and its landward borders this comparative study provides reason to believe that China has turned the corner on a genuine maritime transformation If that proves indeed to be the case it would be a remarkable if not singular event in the history of the last two millennia

Mistaking Africa Curtis Keim, Carolyn Somerville, 2021-12-27 For many in the west the mention of Africa immediately conjures up images of safaris ferocious animals sparsely dressed tribesmen and impenetrable jungles Newspaper headlines rarely touch on Africa but when they do they often mention authoritarian rule corruption genocide devastating illnesses or civil war Advertising movies amusement parks cartoons and many other corners of society all convey strong mental images of the continent that together form a collective consciousness Few think to question these perceptions or how they came to be so deeply lodged in western minds Mistaking Africa looks at the historical evolution of this mind set and examines the role that popular media plays in its creation The authors address the most prevalent myths and preconceptions and demonstrate

how these prevent a true understanding of the enormously diverse peoples and cultures of Africa Updated throughout the fifth edition considers images of Africa from across the world and provides new analysis of what Africans are doing themselves to rewrite the stories of their continent particularly through social and digital media Mistaking Africa is an important book for African studies courses and for anyone interested in unraveling misperceptions about the continent

Arguing about Empire Martin Thomas, Richard Toye, 2019-02-21 Arguing about Empire analyses the most divisive arguments about empire between Europe's two leading colonial powers from the age of high imperialism to the post war era of decolonization Focusing on the domestic contexts underlying imperial rhetoric Arguing about Empire adopts a case study approach treating key imperial debates as historical episodes to be investigated in depth The episodes in question have been selected both for their chronological range their variety and above all their vitriol Some were straightforward disputes others involved cooperation in tense circumstances These include the Tunisian and Egyptian crises of 1881-2 which saw France and Britain establish new North African protectorates ostensibly in co operation but actually in competition the Fashoda Crisis of 1898 when Britain and France came to the brink of war in the aftermath of the British reconquest of Sudan the Moroccan crises of 1905 and 1911 early tests of the Entente Cordiale when Britain lent support to France in the face of German threats the 1922 Chanak crisis when that imperial Entente broke down in the face of a threatened attack on Franco British forces by Kemalist Turkey World War Two which can be seen in part as an undeclared colonial war between the former allies complicated by the division of the French Empire between De Gaulle's Free French forces and those who remained loyal to the Vichy Regime and finally the 1956 Suez intervention when far from defusing another imperial crisis Britain colluded with France and Israel to invade Egypt the culmination of the imperial interference that began some eighty years earlier

The Dynamics of Global Dominance David B.

Abernethy, 2000-01-01 For centuries Europeans ruled vast portions of the world as inhabitants of west European countries sailed to distant continents and took possession of territories whose societies and economies they set out to change How and why did these farflung empires form persist and finally fall David Abernethy addresses these questions in this magisterial survey of the rise and decline of European overseas empires Abernethy identifies broad patterns across time and space interweaving them with fascinating details of cross cultural encounters He argues that relatively autonomous profit making religious and governmental institutions enabled west European countries to launch triple assaults on other societies Indigenous people also played a role in their eventual subjugation by inviting Europeans to intervene in their power struggles Abernethy finds that imperial decline was often the unanticipated result of wars among major powers Postwar crises over colonies unmet expectations empowered movements that eventually took territories as diverse as the thirteen British North American colonies Spain's South American possessions India the Dutch East Indies Vietnam and the Gold Coast to independence In advancing a theory of imperialism that includes European and non European actors and in analyzing economic social and cultural as well as political dimensions of empire Abernethy helps account for Europe's long occupation of global center stage He also sheds light on key features of today's postcolonial world and the legacies of empire concluding with an insightful approach to the moral evaluation of colonialism
