Race To Save The Lord God Bird:

The Race to Save the Lord God Bird Phillip Hoose, 2014-08-26 The tragedy of extinction is explained through the dramatic story of a legendary bird the Ivory billed Woodpecker and of those who tried to possess it paint it shoot it sell it and in a last ditch effort save it A powerful saga that sweeps through two hundred years of history it introduces artists like John James Audubon bird collectors like William Brewster and finally a new breed of scientist in Cornell s Arthur A Doc Allen and his young ornithology student James Tanner whose quest to save the Ivory bill culminates in one of the first great conservation showdowns in U S history an early round in what is now a worldwide effort to save species As hope for the Ivory bill fades in the United States the bird is last spotted in Cuba in 1987 and Cuban scientists join in the race to save it All this plus Mr Hoose s wonderful story telling skills comes together to give us what David Allen Sibley author of *The Sibley Guide to Birds* calls the most thorough and readable account to date of the personalities fashions economics and politics that combined to bring about the demise of the Ivory billed Woodpecker *The Race to Save the Lord God Bird* is the winner of the 2005 Boston Globe Horn Book Award for Nonfiction and the 2005 Bank Street Flora Stieglitz Award [Race to Save the Lord God Bird](#) ,

Race to Save the Lord God Bird Phillip Hoose, 2004 **The Race to Save the Lord God Bird** Phillip Hoose, 2014-08-26 Tells the story of the ivory billed woodpecker s extinction in the United States describing the encounters between this species and humans and discussing what these encounters have taught us about preserving endangered creatures **Nature Trail Vol.1 Ed.1** Vikas Madhav Nagarajan, Mahathi Narayanaswamy, Rohith Srinivasan, Aswathi Asokan, Anooja A, Ekadh Ranganathan, Balakrishnan Ram, Tejaswini. J, Aditya Ramakrishnan, Nanditha Ram, 2020-07-15 A free e Magazine written and published by Young Naturalists based in Chennai **Children's Book-a-Day Almanac** Anita Silvey, 2012-10-30 An expert on children s literature provides a worthwhile resource for teachers librarians and parents Booklist *The Children s Book a Day Almanac* is a new way to discover a great children s book every day of the year This fresh inventive reference book is a dynamic way to showcase the gems both new and old of children s literature Each page features an event of the day a children s book that relates to that event and a list of other events that took place on that day Always informative and often surprising celebrate a year of literature for children with *The Children s Book a Day Almanac* This has solid possibilities as a springboard for daily reading and writing activities in the classroom or as simply a book focused way to start the day Bulletin of the Center for Children s Books *Imagining Extinction* Ursula K. Heise, 2016-08-10 We are currently facing the sixth mass extinction of species in the history of life on Earth biologists claim the first one caused by humans Activists filmmakers writers and artists are seeking to bring the crisis to the public s attention through stories and images that use the strategies of elegy tragedy epic and even comedy *Imagining Extinction* is the first book to examine the cultural frameworks shaping these narratives and images Ursula K Heise argues that understanding these stories and symbols is indispensable for any effective advocacy on behalf of endangered species More than that she shows how biodiversity conservation even and

especially in its scientific and legal dimensions is shaped by cultural assumptions about what is valuable in nature and what is not. These assumptions are hardwired into even seemingly neutral tools such as biodiversity databases and laws for the protection of endangered species. Heise shows that the conflicts and convergences of biodiversity conservation with animal welfare advocacy, environmental justice, and discussions about the Anthropocene open up a new vision of multispecies justice. Ultimately, *Imagining Extinction* demonstrates that biodiversity, endangered species, and extinction are not only scientific questions but issues of histories, cultures, and values.

Outstanding Books for the College Bound Angela Carstensen, 2011-05-27 More than simply a vital collection development tool, this book can help librarians help young adults grow into the kind of independent readers and thinkers who will flourish at college.

A Version of the Truth Jennifer Kaufman, Karen Mack, 2009-01-27 From the critically acclaimed authors of the #1 Los Angeles Times bestseller *Literacy and Longing* in L.A. comes a novel for anyone who's ever had to risk it all to be the person they've always wanted to be. A thoughtful version of the girl done good tale.

Kirkus Reviews **Woody's Last Laugh** James Christopher Haney, 2021-11-26 When I was appointed Co chair of the U.S. Fish and Wildlife Service team charged with preparing a preliminary recovery plan for the Ivory billed Woodpecker, I had naive notions about the work ahead. Dr. Haney's book would have been an immense help in navigating the many strange behaviors, misconceptions, and bitter disagreements that ensued. *Woody's Last Laugh* reveals that I too fell to faulty thinking about the Ivory bill and the question of its continued existence or extinction. I highly recommend this book for anyone involved in endangered species recovery as a way to avoid the many cognitive biases that we all face.

Jon Andrew Co chair of Ivory billed Woodpecker Recovery Team, retired. *Woody's Last Laugh* explores a simmering controversy amid scientists, conservationists, birders, and the media: the supposed extinction of American ivory billed woodpecker. Among the first to identify rampant mental errors inside conservation and environmental professions, the book identifies 53 distinct kinds of cognitive blunders, psychological biases, and logical fallacies on both sides of the woodpecker controversy. Few species have ever provoked such social rancor. Why are rumors of its persistence so prevalent unlike other near or recently extinct animals? Why are we so badly mannered with each other about a mere bird? How is it that we cannot agree even on whether a mere bird is alive or dead? *Woody's Last Laugh* uncovers why such mysteries so mess with our heads. By exploring uncharted borders between conservation and mental perception, new ways of evaluating truth and accuracy are opened to everyone.

Author Dr. J. Christopher Haney is a biologist, conservation scientist, and lifelong birder. For 12 years he was Chief Scientist at Defenders of Wildlife. In 2010, following the Deepwater Horizon oil blowout, the U.S. Fish Wildlife Service invited him to lead the largest pelagic study of marine birds ever conducted in the Gulf of Mexico. Since 2013 he has been president of Terra Mar Applied Sciences, an independent public interest conservation research firm which he founded. If there is one lesson Dr. Haney hopes his book delivers, it is to not overvalue our thinking skills. Human reason is fallible even among scientists and technical experts. To improve our essential relationship with nature, conservation practices will need to
