Race And Class:

Race, Class, and Gender in the United States Paula S. Rothenberg, 2007 This book undertakes the study of issues of race gender and sexuality within the context of class Pref Race, Class, and Gender in the United States Paula S. Rothenberg, Christina Hsu Accomando, 2019-10-02 At a time when issues of identity diversity and inequality are at their most complex and divisive and very much on student s minds Rothenberg s anthology is as of the moment authoritative and thought provoking as ever Now in a rigorously updated new edition this longtime bestseller is again the ideal catalyst for sparking lively class discussions on variety of difficult subjects helping students think critically about categories of class race and sexuality and how they operate and interact in the U S today The new edition features 46 new readings see table of contents including writings from the founders and leaders of key contemporary social movements Tarana Burke on the metoo movement Alicia Garza on Black Lives Matter Chief Arvol Looking Horse on Standing Rock and Gaby Pacheco on the Dreamers This edition also features new pedagogy designed specifically to help students make connections across topics identify key ideas and understand the real world context of each selection **Women, Race, & Class** Angela Y. Davis, 2011-06-29 From one of our most important scholars and civil rights activist icon a powerful study of the women s liberation movement and the tangled knot of oppression facing Black women Angela Davis is herself a woman of undeniable courage She should be heard The New York Times Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism from abolitionist days to the present and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation Here Davis not only contextualizes the legacy and pitfalls of civil and women s rights activists but also discusses Communist women the murder of Emmitt Till and Margaret Sanger s racism Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape reproductive freedom housework and child care in this bold and indispensable work **Race, Class, and Gender in the United States** Paula S. Rothenberg, 2004 Race Class and Gender in the United States An Integrated Study presents students with a compelling clear study of issues of race gender and sexuality within the context of class Rothenberg offers students 126 readings each providing different perspectives and examining the ways in which race gender class and sexuality are socially constructed Rothenberg deftly and consistently helps students analyze each phenomena as well as the relationships among them thereby deepening their understanding of each issue surrounding race and ethnicity Race and Class , 1985 **Race, Class, and the World System** Herbert M. Hunter, 1987 Race Class and Gender in the United States , 2007 Race, Class and Conservatism Thomas D Boston, 2013-09-27 First Published in 1988 The author s arguments are a response to five recent and controversial books

Thomas Sowell's *Markets and Minorities* and *Civil Rights Rhetoric or Reality* Walter Williams's *State Against Blacks* George Gilder's *Wealth and Poverty* and William J Wilson's *Declining Significance of Race* These authors insist that racial discrimination can no longer explain the disadvantaged position of blacks in American society indeed while sociologists argue that class has become more important than race conservative economists insist that disparities in earnings are a fair reflection of racial differences in education skills and similar measures of productivity Free markets they contend are anathemas to racial discrimination Dr Boston demonstrates that these views lack empirical support and explains how discrimination persists in labor markets While acknowledging that class position is increasingly important he nevertheless illustrates how black class stratification itself uniquely reflects racial subjugation But in the author's own words These findings will not be received comfortably by conservatives because they are just another chapter in the continuing saga of why their revolution has failed so miserably Flawed theory creates failed policies Yet his book is of major importance in understanding the current position of black people in society and the reality that has to be addressed in contemporary public policy More than this he provides a solution to the riddle of race and class which has eluded social investigators for decades

Race, Class and Education (RLE Edu L) Len Barton, Stephen Walker, 2012-05-04 One problem which continues to absorb social scientists is the way in which so much social deprivation stems from racial or class status The discussion in this book is developed in two ways firstly careful attention is given to an examination of the way minority groups create and maintain collective identities and action Secondly the relationship between this movement and such topics as racism in schools schooling unemployment and West Indian involvement in sporting rather than academic activities is analysed together with the nature of the educational experience of different class and gender groups Race, Class, and Culture Robert C.

Smith, Richard Seltzer, 1992-07-01 Race is arguably the most profound and enduring cleavage in American society and politics This book examines the sources and dynamics of the race cleavage in American society through a detailed analysis of intergroup and intragroup differences at the level of mass opinion The ethclass theory which examines the intersection of ethnicity and class is used to analyze interracial differences in mass attitudes This analysis yields three clusters of opinion that distinguish African Americans from whites religiosity interpersonal alienation and political liberalism The authors then examine the intragroup sources of these opinion differences among blacks in terms of class gender age region and religion While the authors demonstrate an embryonic trend of more black middle class opinion agreement with whites the book confirms the ethclass character of the black experience whereby race and race consciousness are still more significant than class in shaping black attitudes Given the growing class bifurcation in black America and the continuing debate about its significance in shaping black attitudes and behavior this book offers a refreshing new analysis of the homogeneity as well as heterogeneity of black mass public opinion Race/Class Conflict and Urban Financial Threat Jennifer L.

Hochschild, 2024-12-19 Race and class inequality are at the crux of many policy disputes in American cities But are they the

only factors driving political discord In *Race Class Conflict and Urban Financial Threat* political scientist Jennifer L Hochschild examines significant policies in four major American cities to determine when race and class shape city politics when they do not and what additional forces have the power to shape urban policy choices Hochschild investigates the root causes of disputes in the arenas of policing development schooling and budgeting She finds that race and class are central to the Stop Question Frisk policing policy in New York City and the development of Atlanta's Beltline New York's Stop Question Frisk policy was intended to fight crime and keep all New Yorkers safe In practice however young Black and Latino men in low income neighborhoods were disproportionately stopped by a predominantly White police force The goal of the Atlanta Beltline a redevelopment project that includes public parks new housing commercial development and a robust public transit system is to expand access around the city and keep working class residents in the city by constructing affordable housing Instead the construction completed thus far has encouraged gentrification and displacement of poor disproportionately Black residents and has increased the wealth and power of both Black and White city elites However Hochschild finds that race and class inequality are not central to all urban policy disputes When investigating the issues of charter schools in Los Angeles and Chicago's pension system she identifies a third driver financial threat that feels existential to the policy and political actors In Los Angeles there is a battle between traditional public schools and independent charter schools Increasingly families with sufficient resources are moving out of L A to areas with better school districts Traditional public schools and charter schools must fight for the remaining students and the funding that comes with them There are not enough students to teach and not enough money to teach them The school district risks school closures layoffs and pension deficits in this context race class conflict fades into the background Chicago's public sector pension debt is at least three times as large as the city's annual budget and continues to grow Policy actors agree that the pension system needs to be stably funded Yet city leaders fearful of upsetting constituents and jeopardizing their political careers fail to implement policies that would do so Meaningful policy change to rectify the pension deficit continues to get kicked down the line for future policy actors to address In this context also race class conflict fades into the background

Race, Class, and the State in Contemporary Sociology Jack Niemonen, 2002 Situating Wilson's work on race and class in the overall contexts of sociology and radical politics this book considers the contribution of and the debate surrounding each of his major works including *The Declining Significance of Race* *The Truly Disadvantaged* and *When Work Disappears* The crucial place of segregation in the critiques of Wilson's theory is emphasized and the role of the state is considered

Race, Class, and Political Symbols Anita M. Waters, 1985-01-01 Dr Waters is one of a new breed of analysts for whom the interpenetration of politics culture and national development is key to a larger integration of social research *Race Class and Political Symbols* is a remarkably cogent examination of the uses of Rastafarian symbols and reggae music in Jamaican electoral campaigns The author describes and analyzes the way Jamaican politicians effectively employ improbable strategies for electoral success She includes interviews with reggae musicians Rastafarian leaders government and party officials and campaign managers Jamaican democracy and politics are fused to its culture hence campaign advertisements reggae songs party pamphlets and other documents are part of the larger picture of Caribbean life and letters This volume centers and comes to rest on the adoption of Rastafarian symbols in the context of Jamaica s democratic institutions which are characterized by vigorous campaigning electoral fraud and gang violence In recent national elections such violence claimed the lives of hundreds of people Significant issues are dealt with in this cultural setting race differentials among Whites Browns and Blacks the rise of anti Cubanism the Rastafarians response to the use of their symbols and the current status of Rastafarian ideological legitimacy

Race, Class, Parenting and Children's Leisure Utsa Mukherjee, 2023-02-07 Children s leisure lives are changing with increasing dominance of organised activities and screen based leisure These shifts have reconfigured parenting practices too However our current understandings of these processes are race blind and based mostly on the experiences of white middle class families Drawing on an innovative study of middle class British Indian families this book brings children s and parents voices to the forefront and bridges childhood studies family studies and leisure studies to theorise children s leisure from a fresh perspective Demonstrating the salience of both race and class in shaping leisure cultures within middle class racialised families this is an invaluable contribution to key sociological debates around leisure childhoods and parenting ideologies

Race, class and power Leo Kuper, Examining in detail the apparently inexorable polarization of society in such countries as Rwanda Algeria and South Africa the author questions whether current theories correctly explain the past or offer adequate guides for the future In their place he puts forward an alternative neo Durkheimian view of the possibility of non violent revolutionary change based on the development of such social and cultural continuities as already exist within each plural society But he warns that this is an age of

passionate commitment to violence in which vicarious killers abound in search of a Vietnam of their own The aim of this groundbreaking and challenging book is to create theoretical perspectives in which to view the racial conflict of plural societies Written in the turbulent early 1970s the book demonstrates the inadequacy of then prevailing views such as Marxist interpretations of racial conflict as class struggle and the Fanon a priori rejection of non violent techniques of change which Kuper holds responsible for the acceptance of what he calls the platitudes of violence The book concludes with more personal sections focusing on the author s struggles with the then prevailing South African society critiques of that and censorship of his attempts to make these public In the light of subsequent changes in South Africa many decades later this book serves not only as an important work of political sociology but as a personal testament to the fight against racism in South Africa Leo Kuper was professor of sociology and director of the African Studies Center at the University of California Los Angeles A South African by birth he was one of the first writers on genocide as well as other aspects of African studies and urban sociology His major book *Genocide* Penguin 1981 remains in print The Leo Kuper Foundation is a non governmental organization dedicated to the eradication of genocide through research advice and education It was created in Washington DC in 1994 following the death of Leo Kuper with the aim of improving measures to prevent genocide The main area of work for the past five years has been in support of the creation of an International Criminal Court Troy Duster is director at the Institute for the History of the Production of Knowledge New York University
