Race, Neighborhoods, and Community Power Neil

Kraus,2000-11-09 Examines the extent to which race affected public policy formation in Buffalo New York between 1934 and 1997

Hometown Inequality Brian F. Schaffner,Jesse H. Rhodes,Raymond J. La Raja,2020-07-09 Local governments play a central role in American democracy providing essential services such as policing water and sanitation Moreover Americans express great confidence in their municipal governments But is this confidence warranted Using big data and a representative sample of American communities this book provides the first systematic examination of racial and class inequalities in local politics We find that non whites and less affluent residents are consistent losers in local democracy Residents of color and those with lower incomes receive less representation from local elected officials than do whites and the affluent Additionally they are much less likely than privileged community members to have their preferences reflected in local government policy Contrary to the popular assumption that governments that are closest govern best we find that inequalities in representation are most severe in suburbs and small towns Typical reforms do not seem to improve the situation and we recommend new approaches

Race and Racism in Contemporary Britain John Solomos,1989-09-08 A critical study of the issues which are fundamental to the understanding of race and racism in modern Britain this book examines the history of recent issues the development of central and local government policies the role of racist organizations urban unrest and social change

Race, Power, and Political Emergence in Memphis Sharon D. Wright,2021-12-12 *Race Power and Political Emergence in Memphis* examines black political behavior and empowerment strategies in the city of Memphis Each chapter of the text focuses on three themes mobilization emergence and incorporation By analyzing the effects of race on black political development in Memphis scholars will be able to examine broader questions about its effects in other cities How do political machines use substantial black electorates to their advantage What forms of protest do black communities conduct to rebel against machine rule What primary mobilization tactics have black citizens used during the different periods of their political development Why do blacks mobilize more quickly in some cities In cities with large and predominantly black populations what elements prevent black candidates from winning citywide races

What constraints do newly elected black mayors face What benefits do black citizens gain from their representation After a predominantly black governing coalition is elected what obstacles remain Can black citizens translate proportional representation into strong political incorporation How much power can African Americans realistically expect to gain in cities This book is the most comprehensive case study of the city's political scene written to date The text primarily shows that white racism is not the only obstacle to black political development Black citizens can have population majorities but lose elections for other reasons Their ability to win elections and gain full incorporation depends heavily on whether they minimize internal conflict and establish coalitions with middle class citizens and the business establishment *Race and Authority in Urban Politics* David Greenstone, Paul E. Peterson, 1976-08 In this penetrating book the authors provide a systematic empirical analysis of an important public policy issue citizen participation in the Community Action Program of the Johnson administration's War on Poverty This Phoenix edition includes a new introduction in which the authors explicate the most important themes in their analysis In a series of lively chapters Greenstone and Peterson show how the coalitions that formed around the community action question developed not out of electoral or organizational interests alone but were strongly influenced by prevailing conceptions of the nature of authority in America The book stresses the way in which both machine and reform structures affected the ability of minority groups to organize effectively and to form alliances in urban politics It considers the wide ranging critiques made of the Community Action Program by conservative liberal and radical analysts and finds that all of them fail to appreciate the significance and intensity of the racial cleavage in American politics

Race And British Electoral Politics Shamit Saggar, 2004-01-14 This text examines key themes pertaining to the study of race and electoral politics Addressing an issue which is of immense topical interest it offers comprehensive coverage of key topics Providing both an historical and theoretical analysis of race and ethnicity in politics the contributors examine the participation and influence of ethnic minorities in electoral politics at both ends of the political spectrum *Race and British Electoral Politics* should be of value for students studying British politics particularly those taking course options on electoral politics race ethnicity and comparative politics **Race Politics in Britain and France** Erik Bleich, 2003-05-26 Britain and France have developed substantially different policies to manage racial tensions since the 1960s in spite of having similar numbers of post war ethnic minority immigrants This book provides the first detailed historical exploration of race policy development in these two countries In this path breaking work Bleich argues against common wisdom that attributes policy outcomes to the role of powerful interest groups or to the constraints of existing institutions instead emphasizing the importance of frames as widely held ideas that propelled policymaking in different directions British policymakers framing of race and racism principally in North American terms of color discrimination encouraged them to import many policies from across the Atlantic For decades after WWII by contrast French policy leaders framed racism in terms influenced largely by their Vichy past which encouraged policies designed primarily to counter hate speech while avoiding the recognition of race
