Race And The News Media:

Media & Minorities Stephanie Greco Larson, 2006 Media Minorities looks at the media's racial tendencies with an eye to identifying the system supportive messages conveyed and offering challenges to them. The book covers all major media including television, film, newspapers, radio, magazines, and the Internet and systematically analyzes their representation of the four largest minority groups in the U.S.: African Americans, Native Americans, Latinos, and Asian Americans. Entertainment media are compared and contrasted with news media, and special attention is devoted to coverage of social movements for racial justice and politicians of color. *Race and the News Media* Paul L. Fisher, Ralph Lynn Lowenstein, 1967

News for All the People: The Epic Story of Race and the American Media Juan González, Joseph Torres, 2011-10-31 A landmark narrative history of American media that puts race at the center of the story. Here is a new sweeping narrative history of American news media that puts race at the center of the story. From the earliest colonial newspapers to the Internet age, America's racial divisions have played a central role in the creation of the country's media system, just as the media has contributed to and every so often combated racial oppression. News for All the People reveals how racial segregation distorted the information Americans received from the mainstream media. It unearths numerous examples of how publishers and broadcasters actually fomented racial violence and discrimination through their coverage. And it chronicles the influence federal media policies exerted in such conflicts. It depicts the struggle of Black, Latino, Asian, and Native American journalists who fought to create a vibrant yet little-known alternative democratic press, and then, beginning in the 1970s, forced open the doors of the major media companies. The writing is fast-paced, story-driven, and replete with memorable portraits of individual journalists and media executives, both famous and obscure, heroes and villains. It weaves back and forth between the corporate and government leaders who built our segregated media system, such as Herbert Hoover, whose Federal Radio Commission eagerly awarded a license to a notorious Ku Klux Klan organization in the nation's capital, and those who rebelled against that system, like Pittsburgh Courier publisher Robert L. Vann, who led a remarkable national campaign to get the blackface comedy Amos 'n' Andy off the air. Based on years of original archival research and up-to-the-minute reporting and written by two veteran journalists and leading advocates for a more inclusive and democratic media system, News for All the People should become the standard history of American media. *Reporting on Race in a Digital Era* Carolyn Nielsen, 2020-02-19 This book explores U.S. news media's 21st-century reckoning with race from the election of President Barack Obama through the birth and growth of the Black Lives Matter movement to the tense weeks after a white police officer killed an unarmed African American teenager in Ferguson, Missouri. While legacy newsrooms struggled to interpret complex events, a diverse group of digital storytellers used emerging technologies. Veteran journalist and media scholar Carolyn Nielsen examines how the first two decades of this century produced new models for journalists to explore the complexity of racism, amplify the voices of lived experience, and understand their audiences. Using critical analysis of news

coverage and interviews with reporters who cover racial issues the book shows how new models of journalism break with legacy journalism's conceptions of objectivity expertise and news judgment to provide deeper understanding of systems of power *Journalism's Racial Reckoning* Brad Clark,2022-03-27 This book addresses endemic issues of racism in news media at what is a critical moment in time as journalists around the world speak out en masse against the prejudice and inequality in the industry As the events of 2020 the death of George Floyd the rise in prominence of the Black Lives Matter movement have drawn new and focused attention to inequality white supremacy and systemic racism including in the media this volume chronicles this racial reckoning revisiting and examining the issues that it has raised The author analyses media output by racialized and Indigenous journalists identifying the racial make up of newsrooms the dominance of white perspectives in news coverage interpretations of ethics downplaying systemic racism and bias ignorance of racist history in editorial decisions and news content and diversity and inclusion measures The actions taken by news organizations in response to the reckoning are also detailed and placed in the context of existing race and media scholarship to offer emerging strategies to address journalism's longstanding issues with racism in news content and newsrooms Grounding the interplay between news media and race within this pivotal moment in history this text will be an important resource for students and scholars of journalism journalism ethics sociology cultural studies organizational studies media and communication studies *African American Women in the News* Marian Meyers,2013-07-24 *African American Women in the News* offers the first in depth examination of the varied representations of Black women in American journalism from analyses of coverage of domestic abuse and crack mothers to exploration of new media coverage of Michelle Obama on Youtube Marian Meyers interrogates the complex and often contradictory images of African American women in news media through detailed studies of national and local news the mainstream and Black press and traditional news outlets as well as newer digital platforms She argues that previous studies of African Americans and the news have largely ignored the representations of women as distinct from men and the ways in which socioeconomic class can be a determining factor in how Black women are portrayed in the news Meyers also proposes that a pattern of paternalistic racism as distinct from the modern racism found in previous studies of news coverage of African Americans is more likely to characterize the media's treatment of African American women Drawing on critical cultural studies and black feminist theory concerning representation and the intersectionality of gender race and class Meyers goes beyond the cultural myths and stereotypes of African American women to provide an updated portrayal of Black women today *African American Women in the News* is ideal for courses on African American studies American studies journalism studies media studies sociology studies women's studies and for professional journalists and students of journalism who seek to improve the diversity and sensitivity of their journalistic practice *Race-Baiter* Eric Deggans,2012-10-30 Gone is the era of Edward R Murrow and Walter Cronkite when news programs fought to gain the trust and respect of a wide spectrum of American viewers Today the fastest growing news programs and media platforms are

fighting hard for increasingly narrow segments of the public and playing on old prejudices and deep rooted fears coloring the conversation in the blogosphere and the cable news chatter to distract from the true issues at stake Using the same tactics once used to mobilize political parties and committed voters they send their fans coded messages and demonize opposing groups in the process securing valuable audience share and website traffic Race baiter is a term born out of this tumultuous climate coined by the conservative media to describe a person who uses racial tensions to arouse the passion and ire of a particular demographic Even as the election of the first black president forces us all to reevaluate how we think about race gender culture and class lines some areas of modern media are working hard to push the same old buttons of conflict and division for new purposes In Race Baiter veteran journalist and media critic Eric Deggans dissects the powerful ways modern media feeds fears prejudices and hate while also tracing the history of the word and its consequences intended or otherwise

Race and News Christopher P. Campbell,Kim M. LeDuff,Cheryl D. Jenkins,Rockell A. Brown,2013-07-03 The history of American journalism is marked by disturbing representations of people and communities of color from the disgraceful stereotypes of pre civil rights America to the more subtle myths that are reflected in routine coverage by journalists all over the country Race and News Critical Perspectives aims to examine these journalistic representations of race and in doing so to question whether or not we are living in a post

racial world By looking at national coverage of stories like the Don Imus controversy Hurricane Katrina Barack Obama's presidential candidacy and even the Virginia Tech shootings readers are given an opportunity to gain insight into both subtle and overt forms of racism in the newsroom and in national dialogue The book itself is divided into two sections with the first examining the journalistic routine and the decisions that go into covering a story with or without relation to race The second section comprised of case studies explores the coverage of national stories and how they have impacted the dialogue on race and racism in the United States As a whole the collection of essays and studies also reflects a variety of research approaches With a goal of contributing to the discussion about race and its place in American journalism this broad examination makes *Race and News* an ideal text for courses on cultural diversity and the media as well as making it valuable to professional journalists and journalism students who seek to improve their approach to coverage of diverse communities

The Race Card Tali Mendelberg, 2017-10-09 Did George Bush's use of the Willie Horton story during the 1988 presidential campaign communicate most effectively when no one noticed its racial meaning Do politicians routinely evoke racial stereotypes fears and resentments without voters awareness This controversial rigorously researched book argues that they do Tali Mendelberg examines how and when politicians play the race card and then manage to plausibly deny doing so In the age of equality politicians cannot prime race with impunity due to a norm of racial equality that prohibits racist speech Yet incentives to appeal to white voters remain strong As a result politicians often resort to more subtle uses of race to win elections Mendelberg documents the development of this implicit communication across time and measures its impact on society Drawing on a wide variety of research including simulated television news experiments national surveys a comprehensive content analysis of campaign coverage and historical inquiry she analyzes the causes dynamics and consequences of racially loaded political communication She also identifies similarities and differences among communication about race gender and sexual orientation in the United States and between communication about race in the United States and ethnicity in Europe thereby contributing to a more general theory of politics Mendelberg's conclusion is that politicians including many current state governors continue to play the race card using terms like welfare and crime to

manipulate white voters sentiments without overtly violating egalitarian norms But she offers some good news implicitly racial messages lose their appeal even among their target audience when their content is exposed The History of Race in Modern Times Pasquale De Marco,2025-04-15 The History of Race in Modern Times explores the origins evolution and impact of race as a social construct examining how it has been used to justify discrimination oppression and violence From the earliest civilizations to the present day the concept of race has been used to divide and conquer to create hierarchies of power and privilege and to justify the exploitation and marginalization of entire groups of people This comprehensive and thought provoking book traces the development of scientific racism which sought to provide a biological basis for racial inequality and explores the ways in which racism has been institutionalized in laws policies and social practices The book also examines the ways in which race has been resisted and challenged from the abolitionist movement to the civil rights movement to the Black Lives Matter movement It highlights the voices of those who have fought against racism and discrimination and explores the strategies that have been used to promote racial justice and equality The History of Race in Modern Times is a timely and necessary work that sheds light on one of the most pressing issues facing our world today It is a valuable resource for anyone seeking to understand the complex and multifaceted history of race and its impact on societies around the world This book is essential reading for anyone interested in the history of race sociology or social justice It is also an important resource for educators policymakers and activists working to combat racism and discrimination If you like this book write a review on google books
