Race, Crime and Criminal Justice Anita Kalunta-Crumpton, 2010 In some parts of the world race is a key social variable in criminological debates on crime and criminal justice practice Yet little has been studied regarding the issues of race and crime internationally This collection fills that gap drawing upon perspectives from 13 countries across 4 continents to provide a comparative assessment on the influence of human variations on crime discourses offending experiences of criminal victimization and criminal justice responses in differing societies Covering Europe Australia and New Zealand South Africa Brazil Canada and the United States and drawing on an international line up of scholars this book examines the similarities and differences of race crime and criminal justice in international perspective *Race, Crime and Justice* Barbara Hudson, 1996 Race Crime and Justice brings together influential British and American articles on the involvement of minority ethnic groups with crime and criminal justice After reviewing empirical and theoretical issues the volume presents key facts about racial imbalances in prison populations and addresses the question of whether these are the result of discrimination by the criminal justice systems of the United Kingdom and the United States or whether they can be explained by higher crime rates among certain racial groups Articles included cover possible discrimination by the police and the courts and the effects of particular criminal justice strategies are addressed Recent research on race biological characteristics and criminality is summarised and challenged as is underclass theory which has had significant impact on thinking about crime and criminal justice in the 1990s A final section deals with the criminal justice treatment of black women and looks towards a more gendered understanding of the effect of race on crime and justice *Race, Crime, and Justice: Contexts and Complexities* Lauren Krivo, Ruth D. Peterson, 2009-06-02 To what extent does racial discrimination exist

within the criminal justice system and to what extent is that inequality in crime and justice an outgrowth of structured societal inequality The empirical picture of racism and criminal justice is complex and although a large body of valuable research on the intersection of race and crime exists new and innovative research is needed This special volume of The ANNALS lays a solid foundation for that research This volume is organized into three broad sections that represent the types of emergent research from this network of scholars and focuses on patterns processes and consequences This volume of The ANNALS provides an innovative approach to understanding the ways that race ethnicity crime and justice are interconnected within the racialized U S society but it also fosters solutions to inequalities in the criminal justice arena Students scholars and policymakers will find this collection of cutting edge articles avoids taking a one size fits all approach to problems of inequity and offers meaningful and novel perspectives to this complex volume
