Annual Report of the Commissioners of the District of Columbia District of Columbia. Board of Commissioners, 1903 The Death Gap David A. Ansell, 2017-04-21 We hear plenty about the widening income gap between the rich and the poor in America and about the expanding distance separating the haves and the have nots But when detailing the many things that the poor have not we often overlook the most critical their health The poor die sooner Blacks die sooner And poor urban blacks die sooner than almost all other Americans In nearly four decades as a doctor at hospitals serving some of the poorest communities in Chicago David A Ansell MD has witnessed firsthand the lives behind these devastating statistics In *The Death Gap* he gives a grim survey of these realities drawn from observations and stories of his patients While the contrasts and disparities among Chicago's communities are particularly stark the death gap is truly a nationwide epidemic as Ansell shows there is a thirty five year difference in life expectancy between the healthiest and wealthiest and the poorest and sickest American neighborhoods If you are poor where you live in America can dictate when you die It doesn't need to be this way such divisions are not inevitable Ansell calls out the social and cultural arguments that have been raised as ways of explaining or excusing these gaps and he lays bare the structural violence the racism economic exploitation and discrimination that is really to blame Inequality is a disease Ansell argues and we need to treat and eradicate it as we would any major illness To do so he outlines a vision that will provide the foundation for a healthier nation for all Inequality is all around us and often the distance between high and low life expectancy can be a matter of just a few blocks But geography need not be destiny urges Ansell In *The Death Gap* he shows us how we can face this national health crisis head on and take action against the circumstances that rob people of their dignity and their lives

Schwalm, 2023-02-14 This social and cultural history of Civil War medicine and science sheds important light on the question of why and how anti Black racism survived the destruction of slavery During the war white Northerners promoted ideas about Black inferiority under the guise of medical and scientific authority In particular the Sanitary Commission and Army medical personnel conducted wartime research aimed at proving Black medical and biological inferiority They not only subjected Black soldiers and refugees from slavery to substandard health care but also scrutinized them as objects of study This mistreatment of Black soldiers and civilians extended after life to include dissection dismemberment and disposal of the Black war dead in
