## **Race Relations In Sociological Theory:**

**Race Relations in Sociological Theory** John Rex, 1970      **Theories of Race and Ethnic Relations** John Rex, David Mason, 1986 This book brings together internationally known scholars from a range of disciplines and theoretical traditions. In setting out the various theories it demonstrates the range and diversity of approaches to race and ethnic relations current in the field. As well as identifying important and persistent points of controversy, however, the collection also reveals much complementarity and indicates the potential for a multi-faceted approach to theorization. The theories represented include contributions from the perspective of sociology, social anthropology, sociobiology and social psychology.      *Sociology, Race, and Ethnicity* Harry H. Bash, 1979 Presenting an analysis of American assimilation theory, Bash attempts to dissect the concept and what it has come to mean in the United States. After tracing the natural history of the assimilation notion and later its theoretical elaboration, he explores far more theoretical linkages by way of concept formation and theory construction in the area of racial and ethnic group relations.      **Immigration and Race Relations** Tahir Abbas, Frank Reeves, 2007-08-29 Since the late 1950s, John Rex has been at the forefront of British sociology and in particular the sociology of race and ethnicity. His research and books have spawned debate and discussion in the fields of social and political theory, housing studies, education and the experiences of Muslim minorities. This volume charts the nature, direction and significance of John Rex's work in the fields of urban sociology, ethnic relations and multicultural studies. As well as identifying important and persistent points of controversy, the book also reveals much common ground and the potential for a multi-faceted approach to the theorisation of race and ethnicity. *Immigration and Race Relations* includes contributions from eminent thinkers from the perspectives of sociology, social anthropology, education, philosophy, political science and cultural studies.

**Race and Racism** Sami Zubaida, 2018-05-11 Originally published in 1970, *Race and Racism* aims to bring race discussions into the mainstream of sociological discussion through scrutinizing concepts that define theoretical issues. The book also locates race relation situations in the context of the wider social structure and historical developments. Contributions raise the question of the abuse of biological and sociological theories in justifying social attitudes and policies and address various principles of social stratification that bear on the study of race relations. The book also looks at how no special social categories are required to explain the structure and dynamics of race relations and how the concept of plural society represents a significant theoretical development.      *Race, Ethnicity and Social Theory* John Solomos, 2022-07-01 *Race, Ethnicity and Social Theory* provides a critical analysis of the main areas of scholarly research and debate about racial and ethnic relations over the past few decades. The book covers substantive areas of scholarly debate in this fast-changing field, including race and social relations, identities and the construction of the racial other, feminism and race, the relationship between race and nationalism, antisemitism, the evolution of new forms of racism, race and political representation and more generally the changing debates about race and ethnicity in our global environment. The book argues

that there is a need for more dialogue across national and conceptual boundaries about how to develop the theoretical tools needed to understand both the historical roots of contemporary forms of racialised social and political relations and the contemporary forms through which race is made and re made A key argument that runs through the book is the need to develop conceptual frameworks that can help us to make sense of the changing forms of racial and ethnic relations in contemporary societies This means developing more dialogue across national research cultures as well as empirical research that seeks to engage with the key issues raised by contemporary theoretical debates The book will be of interest to both students wanting to develop a deeper understanding of this area of scholarship and to researchers of race ethnicity and migration working in various national and disciplinary environments
