**The Race Myth** Joseph Graves,2005-06-28 Graves integration of science and objective analysis with popular biological assumptions of race makes this an enlightening and provocative work Booklist DOES RACE AS WE KNOW IT REALLY EXIST Preeminent evolutionary

biologist Joseph Graves proves once and for all that it doesn't. Through accessible and compelling language he makes the provocative argument that science cannot account for the radical categories used to classify people and debunks ancient race-related fallacies that are still held as fact from damaging medical profiles to misconceptions about sports. He explains why defining race according to skin tone or eye shape is woefully inaccurate and how making assumptions based on these false categories regarding IQ behavior or predisposition to disease has devastating effects. Demonstrating that racial distinctions are in fact social inventions not biological truths, *The Race Myth* brings much needed sound science to one of America's most emotionally charged debates. *Report* United States. Senate. Committee on Interior and Insular Affairs, 1960 **Iron Rails, Iron Men, and the Race to Link the Nation** Martin W. Sandler, 2015-09-08 Experience the race of rails to link the country and meet the men behind this incredible feat in a riveting story about the building of the transcontinental railroad brought to life with archival photos. In the 1850s gold fever swept the West but people had to walk, sail, or ride horses for months on end to seek their fortune. The question of faster, safer transportation was posed by national leaders. But with 1,800 miles of seemingly impenetrable mountains, searing deserts, and endless plains between the Missouri River and San Francisco, could a transcontinental railroad be built? It seemed impossible. Eventually two railroad companies, the Central Pacific which laid the tracks eastward and the Union Pacific which moved west, began the job. In one great race between iron men with iron wills, tens of thousands of workers blasted the longest tunnels that had ever been constructed, built the highest bridges that had ever been created, and finally linked the nation by two bands of steel, changing America forever. **Reports and Documents** United States. Congress, *A Great and Shining Road* John Hoyt Williams, 1996-01-01 The Union Pacific and Central Pacific Railroads were officially joined on May 10, 1869 at Promontory Point, Utah, with the driving of a golden spike. This historic ceremony marked the completion of the first transcontinental railroad. Spanning the Sierras and the Great American Desert, the tracks connected San Francisco to Council Bluffs, Iowa. *A Great and Shining Road* is the exciting story of a mammoth feat that called forth entrepreneurial daring, financial wizardry, technological innovation, political courage, and chicanery, and the heroism of thousands of laborers.
