Racial Equality:

Critical Race Theory Kimberlé Crenshaw, Neil Gotanda, Gary Peller, Kendall Thomas, 1995 In the past few years a new generation of progressive intellectuals has dramatically transformed how law race and racial power are understood and discussed in America Questioning the old assumptions of both liberals and conservatives with respect to the goals and the means of traditional civil rights reform critical race theorists have presented new paradigms for understanding racial injustice and new ways of seeing the links between race gender sexual orientation and class This reader edited by the principal founders and leading theoreticians of the critical race theory movement gathers together for the first time the movement s most import essays Back cover Protecting Whiteness Cameron D. Lippard, J. Scott Carter, David G. Embrick, 2020-12-15 Insights into the racialized fear of change in US society The standoff at Cliven Bundy s ranch the rise of white identity activists on college campuses and the viral growth of white nationalist videos on YouTube vividly illustrate the resurgence of white supremacy and overt racism in the United States White resistance to racial equality can be subtle as well like art museums that enforce their boundaries as elite white spaces right on crime policies that impose new modes of surveillance and punishment for people of color and environmental groups whose work reinforces settler colonial norms In this incisive volume twenty four leading sociologists assess contemporary shifts in white attitudes about racial justice in the US Using case studies they investigate the entrenchment of white privilege in institutions new twists in anti equality ideologies and whitelash in the actions of social movements Their examinations of new manifestations of racist aggression help make sense of the larger forces that underpin enduring racial inequalities and how they reinvent themselves for each new generation **The Unsteady March** Philip A. Klinkner, Rogers M. Smith, 1999-11 With its insights into contemporary racial politics The Unsteady March offers a penetrating and controversial analysis of American race relations across two centuries *Loving Across the Color Line* Sharon Rush, 2000 In this memoir the author relates how her loving maternal relationship opened her eyes to the harsh realities of the Americal racial divide **Constitutional Government** James A. Curry, Richard B. Riley, Richard M. Battistoni, 2003 **The Changing Terrain of Race and Ethnicity** Maria Krysan, Amanda E. Lewis, 2004-11-11 The legal institutions of overt racism in the United States have been eliminated but social surveys and investigations of social institutions confirm the continuing significance of race and the enduring presence of negative racial attitudes This shift from codified and explicit racism to more subtle forms comes at a time when the very boundaries of race and ethnicity are being reshaped by immigration and a rising recognition that old systems of racial classification inadequately capture a diverse America In The Changing Terrain of Race and Ethnicity editors Maria Krysan and Amanda Lewis bring together leading scholars of racial dynamics to study the evolution of America s racial problem and its consequences for race relations in the future The Changing Terrain of Race and Ethnicity opens by attempting to answer a puzzling question how is it that so many whites think racism is no longer a problem but so many nonwhites disagree

Sociologist Lawrence Bobo contends that whites exhibit what he calls laissez faire racism which ignores historical and structural contributions to racial inequality and does nothing to remedy the injustices of the status quo Tyrone Forman makes a similar case in his chapter contending that an emphasis on color blindness allows whites to be comforted by the idea that all races are on a level playing field while not recognizing the advantages they themselves have reaped from years of inequality The book then moves to a discussion of the new ways that Americans view race Eduardo Bonilla Silva and Karen Glover argue that the United States is moving from a black white divide to a tripartite system where certain light skinned non threatening minority groups are considered honorary whites The book s final section reexamines the theoretical underpinnings of scholarship on race and ethnicity Joe Feagin argues that research on racism focuses too heavily on how racial boundaries are formed and needs to concentrate more on how those boundaries are used to maintain privileges for certain groups at the expense of others Manning Marable contends that racism should be addressed at an institutional level to see the prevalence of structural racism deeply entrenched patterns of inequality that are coded by race and justified by stereotypes The Changing Terrain of Race and Ethnicity provides an in depth view of racism in modern America which may be less conspicuous but not necessarily less destructive than its predecessor Jim Crow The book s rich analysis and theoretical insight shed light on how despite many efforts to end America s historic racial problem it has evolved and persisted into the 21st century

Is Racial Equality Unconstitutional? Mark Golub,2018-02-02 For some the idea of a color blind constitution signals a commonsense ideal of equality and a new post racial American era For others it supplies a narrow constitutional vision which serves to disqualify many of the tools needed to combat persistent racial inequality in the United States Rather than taking a position either for or against color blindness Mark Golub takes issue with the blindness consciousness dichotomy itself This book demonstrates how color blind constitutionalism conceals its own race conscious political commitments in defense of existing racial hierarchy and renders the pursuit of racial justice as a constitutionally impermissible goal

presenting a series of barriers to the creation of more inclusive societies *Race, Culture, and Ethnicity in Secure Psychiatric Practice* Charles Kaye, Tony Lingiah, 2000 People from ethnic minorities are overrepresented in secure psychiatric care and have been reported to receive differential treatment from staff It has been suggested that these people especially Afro Caribbean groups suffer from prejudicial legal criminal justice and psychiatric system This text questions whether Western white oriented practice and systems of belief can or should be applied to service users from other cultural racial ethical or spiritual backgrounds **Ethnicity, Social Mobility, and Public Policy** Glenn C.
