Graham Pitchfork

Raf Buccaneer:

Blackburn Buccaneer Kev Darling, 2007-02-21 Conceived in the 1950s as a replacement for the Supermarine Scimitar the Blackburn Buccaneer went into service with the Royal Navy as its main carrier borne nuclear strike aircraft But with a diminishing role to play in world affairs and a reduction in the number of aircraft carriers the Navy disposed of its Buccaneers to the RAF where they went on to become one of the Force s most successful and best loved aircraft This complete history of the Buccaneer takes the reader from first proposals and the original production S 1 to the final fling of the type as a laser target aircraft during the first Gulf War *The Buccaneer* Martyn Chorlton, 2021-09-15 A lavishly illustrated tribute to the Blackburn Buccaneer a truly great British piece of engineering **Buccaneer Boys** Graham Pitchfork, 2013-10-19 The historian and author of *The Sowreys* details the history of the British fighter plane and what life was like for its crews flying missions around the world Twenty four aircrew who flew the iconic aircraft with the Fleet Air Arm the Royal Air Force and the South African Air Force SAAF relate their experiences and affection for the Blackburn Buccaneer *Buccaneer Boys* traces the history of the aircraft and the tasks it fulfilled It also explores the lifestyle of a Buccaneer squadron and the lighthearted side of being a Buccaneer Boy in addition to their professionalism and dedication Author Graham Pitchfork examines the introduction into service followed by the air force s maritime tactics and the deployment of two squadrons to Germany in the overland strike role He details the aircraft s stunning successes at the Red Flag and Maple Flag exercises flown in North America which took the USAF hierarchy by storm and devotes attention to the intensive but little known Bush War operations by 24 SAAF Squadron on the borders of Angola Two USAF exchange officers who flew Buccaneers share their experiences The author then looks at the aircraft s deployment for the Lebanon crisis and the reinforcement exercise to the Falkland Islands He covers the introduction of new air to surface anti ship missiles right before the Buccaneer left to go to war in the Gulf War where it distinguished itself providing precision laser marking for the Tornado force in addition to carrying out its own precision bombing attacks This lavishly illustrated book concludes with accounts of the aircraft s final days in RAF service and some reflections on its impact on maritime and overland air power

Buccaneer Boys 2 Graham Pitchfork, 2021-09-30 Following the critically acclaimed publication eight years ago of *Buccaneer Boys* long serving Buccaneer navigator Air Commodore Graham Pitchfork has now followed up the great success of the book with more true tales from those who flew the last all British bomber *Thirty Buccaneer Boys* drawn from the Fleet Air Arm the Royal Air Force and the South African Air Force outline their experiences in the maritime role operations overland including the first Gulf War and operations by the South Africans in the Border Wars In addition to the aircrew air engineer officers and ground crew have also contributed The reader is left in no doubt that the *Buccaneer Boys* knew how to work hard and to play hard The skill professionalism and excitement of operating and servicing this iconic British aircraft shines throughout every page This book is lavishly illustrated with 100 black and white photographs and two color plate

sections of 40 photographs many never previously published

Military public relations endeavors ultimately seek to build a sense of common interests and aims and so generally foster good relations with the people they defend and there in ensure a stable society The armed forces when engaging on any public relations exercise have traditionally sought to provide an entertaining spectacle For years this has been typified by parades bands mock battles drill displays and other relevant feats of military prowess which have captured the imagination of the public and inspired potential recruits The 20th Century brought a new dimension to the field of warfare and subsequently added a new strand to the fabric of public ceremony and displays by the armed forces That new dimension was the arrival of powered flight Display flying began within five years of the Wright Brothers making their milestone first flight The first events staged in Britain which centered on demonstrations by flying machines were organized by the town councils of Blackpool and Doncaster and were held within days of each other in October 1909 1920 was the year that the first of the famed and legendary Hendon Air Pageants was staged and this is where military air shows traditionally began The Hendon Displays were organized and staged by the still fledgling Royal Air Force and it was probably due in no small part to the prestige and spectacle of this fresh new dimension of military pageantry together with other like events held at RAF airfields through the next two decades that the very existence of the RAF was saved from the threat of abolition The history of the RAF s commitment one that compares almost uniquely with other air forces toward display flying through the years after World War II has now come of age This account of their record in this often overlooked but then again traditional field of military customs describes and illustrates the major public RAF events since 1920

The Buccaneers Graham Pitchfork, 2002

Designed at the height of the Cold War as a carrier borne nuclear strike aircraft for the Royal Navy the first Blackburn Buccaneer entered service in 1963 The 620mph all British design saw active service with the Fleet Air Arm around Singapore during the Indonesian confrontation in the withdrawal from Aden and in Belize It was not until 1978 that the FAA s last Buccaneers were eventually retired In 1968 the RAF chose the Buccaneer as its new low level strike aircraft The first of the RAF s Buccaneers were delivered in 1969 with the initial squadron operating from the UK in the maritime strike role In RAF service Buccaneer squadrons also flew low level tactical strike operations mostly in Germany The 1991 Gulf War was the aircraft s swan song when it flew target designator sorties for other Coalition aircraft The last military Buccaneer flights took place in 1995 A total of 206 Buccaneers were built and the aircraft gave over 30 years of reliable service At its high point in 1978 five RAF and FAA operational squadrons flew the type Although the aircraft was designed for the Royal Navy it was with the RAF that it saw its longest service from 1969 to 1995

RAF Strike Command, 1968-2007 Kev Darling, 2013-01-19

Aviation author Kev Darling looks at the origins of the World War Two Royal Air Force commands and histories in RAF Strike Command In 1968 the RAF Commands that had become famous in World War Two Fighter Bomber Coastal Air Support and Signals Commands were combined into the single Strike Command an amalgamation that served

throughout the remaining years of the Cold War in the Falklands and in the Middle East in Operations Desert Shield Desert Storm and Granby This organizational change caused re equipment base changes and increasing economic constraints The Royal Navy was now responsible for the UK s nuclear deterrent in the form of their Polaris submarines so the RAF s V Bomber Force were now relegated to tanker operations with the exception of the lone Vulcan that was sent to the Falklands conflict The Command s fleet of fast jets became more adaptable with single types assuming the roles of fighter bomber reconnaissance and maritime attack The aircraft also became multinational in their design and manufacture as Britain s postwar lead in aircraft design had been frittered away by years of thoughtless government leading to a single company for production Apart from the brilliant Harrier which the US continues to develop and build other aircraft flown by the Command were from European syndicates such as the Tornado and Jaguar The US supplied the transports in the form of the faithful Hercules and Europe most of the helicopter fleet Exploring the operations that took place during this military wing s existence the aircraft they flew and the men who flew them RAF Strike Command is a tribute to the fast dwindling power of the Royal Air Force Adventures of a Cold War Fast-Jet Navigator David Herriot,2017-10-30 An RAF navigator s lively candid memoir of flying low and living fast during the Cold War years David Herriot served almost forty years in the Royal Air Force as a navigator first on the Buccaneer S2 and subsequently on the Tornado GR1 This volume recounts his early career operating the Buccaneer on three operational flying tours plus a tour as an instructor on the Operational Conversion Unit With almost 2500 hours on an aircraft that was operated at high speed in all weathers and at ultra low level his task in the rear seat was a demanding one But Herriot was more than just the guy in the back of a Buccaneer he was quite routinely and often to the exasperation of his seniors the life and soul of any party that was taking place either at home base or when overseas defending the flanks of NATO This is an epic adventure for the aviation enthusiast particularly those with affection for the Blackburn Buccaneer and it provides a great deal more than the usual introduction to a specific aircraft type and the people who flew it Here you ll find an absolute insight into life on a fast jet squadron at work and mischievous play during the Cold War and you ll also be introduced to some of the modern RAF s greatest characters *Trials and Errors* Mike Brooke,2015-01-05 Mike Brooke s successful RAF career had taken him from Cold War Canberra pilot to flying instructor at the Central Flying School in the 1970s For his next step he undertook the demanding training regime at the UK s Empire Test Pilots School His goal to become a fully qualified experimental test pilot *Trials and Errors* follows his personal journey during five years of experimental test flying during which he flew a wide variety of aircraft for research and development trials Mike then returned to ETPS to teach pilots from all over the world to become test pilots In this the sequel to his successful debut book *A Bucket of Sunshine* and its follow up *Follow Me Through* he continues to use his personal experiences to reveal insights into trials of the times successes and failures *Trials and Errors* will prove fascinating reading for any aviation enthusiast **The Navigator** ,1970 *RAF and USAAF Airfields in the UK During the Second World War*

Geoff Mills, Daniel Knowles, 2022-03-31 Shortly after the end of the Second World War the United Kingdom was described as one vast aircraft carrier anchored off the coast of Europe During a seven year period 500 airfields were constructed to serve the needs first of the RAF and later the USAAF as they carried the war to German occupied Europe The airfields that were constructed took many different forms from training airfields and Advanced Landing Grounds to grass fighter airstrips and vast complexes used to accommodate heavy bombers This book charts the history of each Second World War airfield in and around the UK providing a unique insight in to the construction operational life and post war history of each airfield Alongside detailing the history of each airfield this work comprehensively records the details of each unit that operated from airfields around the UK The information provided in this meticulously researched book is supported by a wealth of 690 photographs providing an illustration into the life of each wartime station **British Military Jets** Kev Darling, 2017-07-15 While the world lived with the threat of nuclear war the RAF deployed new and ever more capable jet aircraft to counter the communist threat This book is their story **Fleet Air Arm Boys: True Tales from Royal Navy Men and Women Air and Ground Crew, Volume 2** Steve Bond, 2021-10-27 Since the end of World War 2 the primary role of the Royal Navy's Fleet Air Arm has been airborne power projection the ability rapidly to respond to any trouble spot across the globe and to protect the interests of the United Kingdom and its partner nations The principal tools in that response were the strike aircraft which took the offensive to the aggressor Although from 2010 to 2020 fixed wing carrier aviation was not part of the Fleet Air Arm with the advent of the navy's two new aircraft carriers HMS Queen Elizabeth and HMS Prince of Wales that capability has been restored This renewed focus has not only seen the return of flying high performance aircraft from a carrier but also the regeneration of the necessary skills and courage needed to cope with the extremes of weather and the nature of air operations in a very high risk environment However the lessons of the past have not been forgotten and so many of those previous experiences are related within these pages true stories of the last 76 years from aircrew maintainers aircraft handlers and many other supporting staff both men and women Following on from the success of volume one this second volume covers every fixed wing aircraft type flown from carriers in the strike anti submarine warfare and the vital airborne early warning roles from Scimitars to Hunters Buccaneers to Skyraiders and many more plus an extensive fleet of land based aircraft As with the first volume involvement in operations such as Suez the Beira Patrol the Falklands Belize Bosnia and elsewhere is included Despite the intensity and all too frequent tragedy of operations the esprit de corps and the ability to find the necessary release through laughter shine through Here are the words of the men and women themselves profusely illustrated in black and white and color **Armed Forces**, 1982 Test Pilot Brian Johnson, 2011-06-20 Test pilots dashing and courageous young men or foolhardy gamblers In this fully illustrated book written by the producer of the BBC1 television series of the same name we follow the ups and downs of a group of trainee test pilots at Boscombe Down in Wiltshire Beginning with the exacting selection procedure we discover what personal and professional qualities a pilot needs

in order to become a test pilot Only six UK and twelve foreign students are chosen each year and once selected the pressure on them steadily mounts As the students learn to push each aircraft s performance to its limits they too are being mentally and physically stretched further than ever before Training is given on both fixed and rotary wing aircraft and by the end of the course each student is fully conversant with the different techniques necessary to fly each type They learn how to recover safely from spins how to cope with sudden failures of equipment in mid flight and how to land an aircraft with no power All the time they are assessing each aircraft s capabilities and the scope of the on board technology The final part of the course is the preview exercise when every student is required to evaluate an aircraft he has never flown before and to make a formal presentation to his tutors and examiners Using a number of remarkably frank interviews with students and tutors Brian Johnson explores the process of becoming a test pilot and reveals both the stresses and successes of the year The RAF has given its full support to both the book and the television programmes and thus has enabled Brian Johnson to produce a unique and authoritative account of the training for one of the most responsible and exciting jobs in modern aviation

Hawker Hunter 1951 to 2007 ,2006-12-24 This book is the most current and comprehensive book on the Hunter yet published It provides up to date details of the serials and histories of each individual Hunter aircraft operated by the RAF RN and the 20 foreign air forces to present civilian ownership over the 56 years since its introduction It runs from the early prototypes right through to the two latest Hunters with the UK Military ZZ190 and ZZ191 and of course who could forget Miss Demeanour The book was written as an essential reference for the enthusiast aviation historian and modeler Many unpublished and some very rare photos are included with details gathered from many original worldwide sources that span the entire life of the Hunter with 640 pages containing over 400 photos and diagrams For the modeler there is every plastic resin or die cast model produced walk round and detail photos a comprehensive bibliography of books magazines websites and DVD s There are copies of the original specification and contract documents Forever Vigilant Graham

Pitchfork,2016-05-05 208 Squadron based at RAF Valley in Anglesey will be celebrating its 100th anniversary in October 2016 making it one of the few RAF squadrons to achieve this unique distinction whilst still part of the RAF s current order of battle To celebrate this achievement Air Commodore Pitchfork has compiled a chronological history of the squadron s main activities and personnel with the aim of illustrating the spirit comradeship and professionalism of the squadron Taking its title from the squadron s motto Vigilant the book starts with the formation of Naval 8 as a scout squadron on the Western Front during the First World War It then continues through the various conflicts that Naval 8 208 Squadron has played a key role in including the Second World War and Gulf War The squadron s move to Egypt in the inter war years as an army cooperation squadron which inspired the Gizah Sphinx motif for 208 Squadron is also covered Its modern day role as an advanced flying training squadron concludes the squadron s story This history has been written with the use of important sources from the squadron s archives along with interviews from veterans and current members of the squadron It also has

the support of the squadron's Old Comrades Association which was pioneered and fostered by its first CO Air Vice Marshal Sir Geoffrey Bromet. The association is very active and one of the longest serving and strongest associations within the RAF.

The Fleet Air Arm Keith Abnett, 2024-11-08. This book uncovers many hidden facts and untold stories of the Fleet Air Arm (FAA), shedding light on its remarkable history, much of which has not been widely published. It offers a concise yet vivid account of how the Royal Navy's Air Service (RNAS) evolved over the years, shaped by over a century of political manoeuvring and its long-standing rivalry with the Royal Air Force. Even today, the FAA continues to operate in the shadow of the RAF, as seen in the ongoing developments surrounding the Queen Elizabeth class aircraft carriers and the F-35B aircraft. They now carry frequent subjects in the media. Few know that the last serviceman to die in the Second World War was an FAA pilot shot down over Japan at the very end of the Pacific conflict. While FAA victories such as Taranto and the Falklands are well known, it may surprise readers to learn that the FAA briefly flew Lancasters in 1946. And in the Gulf War, FAA Westland Lynx helicopters made history by virtually wiping out Iraq's navy using Sea Skua missiles, the first time seaborne helicopters achieved such a feat. This book also features the most comprehensive post-1945 timeline of the FAA, a reflection of the decline of Britain's maritime power over recent decades. Enriching the narrative are personal anecdotes from FAA personnel highlighting their bravery, dedication, and sacrifice in the line of duty.

Hawker Siddeley Aviation and Dynamics
Stephen Skinner, 2014-07-31. Hawker Siddeley's history can be traced back to 1912 and the formation of the Sopwith Aviation Company by Tom Sopwith, which metamorphosed into Hawker Aircraft after World War One. In 1934-35, Gloster, Avro, Armstrong Siddeley, Armstrong Whitworth, and others were taken over to create the Hawker Siddeley Group. The Group built some of the most important aircraft and missiles of the 1960s, 1970s, and beyond; its best-known products included the Harrier, Buccaneer, Nimrod, and Hawk warplanes, Sea Dart missile, and HS748 airliner. Its collaborative projects included the European Airbus and various satellite programmes. Hawker Siddeley was subsumed into British Aerospace in 1977, but some of its products still remain in service to this day. This is their story, illustrated with over 400 colour and black and white photographs, many of them previously unpublished.
