Governing Megacities in Emerging Countries Dominique Lorrain,2016-04-22 Megacities are a new phenomenon in
history The fact that many of them are in emerging countries deepens the challenges of governing these spaces Can these
vast complex entities rife with inequalities and divisions be governed effectively For researchers the answer has often been
no The approach developed in this work focuses on the material city and its institutions and shows that without recourse to a
big new theory urban leaders have devised mechanisms of ordinary government They have done so through the resolution of
practical and essential problems providing electricity drinking water sanitation transportation Three findings emerge from
this book Infrastructure networks help to structure cities and function as mechanisms of cohesion Megacities become more
governable if there is a legitimate authority capable of making choices Finally anarchic urbanisation has its roots in systems
of land ownership in inadequate urban planning and in the practices of developers and local actors In the originality of its
hypotheses and the precision of the analyses carried out in the four case study cities of Shanghai Mumbai Cape Town and
Santiago de Chile this work is addressed to all those interested in the life of cities politicians local and central government
officials executives in urban companies researchers and students Unguarded Border Donald W. Maxwell,2023-05-12 The
United States is accustomed to accepting waves of migrants who are fleeing oppressive conditions and political persecution
in their home countries But in the 1960s and 1970s the flow of migration reversed as over fifty thousand Americans fled

across the border to Canada to resist military service during the Vietnam War or to escape their homeland's hawkish society. *Unguarded Border* tells their stories and in the process describes a migrant experience that does not fit the usual paradigms. Rather than treating these American refugees as unwelcome foreigners, Canada embraced them, refusing to extradite draft resisters or military deserters and not even requiring passports for the border crossing. And instead of forming close-knit migrant communities, most of these migrants sought to integrate themselves within Canadian society. Historian Donald W. Maxwell explores how these Americans in exile forged cosmopolitan identities, coming to regard themselves as global citizens, a status complicated by the Canadian government's attempts to claim them and the U.S. government's eventual efforts to reclaim them. *Unguarded Border* offers a new perspective on a movement that permanently changed perceptions of compulsory military service, migration, and national identity.

The Power of Surrender Judith Orloff, M.D., 2014-04-01 Are you longing for your life to be easier and more fun? Would you like to stop pushing, micromanaging, and forcing things so you can relax? What if you could enjoy what you have instead of always lusting for more? What if you could live in the zone propelled by powerful currents toward the right people and opportunities? What if you could stop worrying about money and live with more emotional ease in the moment? If you answer yes to all these questions and desire lasting positive change, then prepare to experience the ecstasy of surrender. The art of letting go, Dr. Judith Orloff explains, is the secret key to manifesting power and success in all areas of life, including work, relationships, sexuality, radiant aging, and health and healing. In our superconnected world where emails and text messages constantly interrupt us, it's easier to let go than you think. Once embraced, surrendering removes roadblocks and the exhaustion that comes from trying too hard, and it helps you achieve goals more effortlessly and brings ongoing happiness. With her stunning gift for storytelling, coupled with her unique results-oriented approach to physical, emotional, and spiritual health, marrying neuroscience, psychiatry, intuitive medicine, energy techniques, and more, Judith provides a powerful, practical, and accessible map for anyone who is longing to be happier but who feels stuck, burned out, tense, worried, or afraid to let go.
