Road To Realism:

The Road to Realism Edwin Harrison Cady, 1956 **Earth First: Anti-Road Movement** Derek Wall, 2013-10-28 First published in 1999 Detailed accounts of major anti road campaigns both in the UK and internationally are included describing confrontations at Twyford Newbury Glasgow and the Autobahn in Germany as well as information on the globalisation of Earth First with details of protests in Australia Ireland Germany France Holland Eastern Europe and North America Earth First and the Anti Roads Movement traces the origins of the movement and the history of anti roads activism in Britain since the 1880s Showing how green social and political theory can be linked to practical struggles for environmental and social change Derek Wall investigates key topics of political and sociological interest *Realism's Others* Eva Aldea, Geoffrey Baker, 2010-07-12 For at least a century scholarship on realist narrative and occasional polemics against realist narrative have assumed that realism promotes the values of sameness against those of otherness and that it does so by use of a narrative mode that excludes certain epistemologies ideologies and ways of thinking However the truth is more complex than that as the essays in this volume all demonstrate Realism's Others examines the various strategies by which realist narratives create the idea of difference whether that difference is registered in terms of class ethnicity epistemology nationality or gender The authors in this collection examine in detail not just the fact of otherness in some canonical realist and canonical magical realist and postmodern novels but the actual means by which that otherness is established by the text These essays suggest that neither realist narrative nor narratives positioned as anti realist take otherness for granted rather the texts discussed here actively create difference and this creation of difference often occasions severe difficulties for the novels representational schema How does one represent different types of knowledge other aesthetic modes or other spaces for example in texts whose epistemology has long been seen as secular and empirical whose aesthetic mode has always been approached as pure descriptive mimesis and whose settings are largely domestic These essays all begin with a certain collision of nationalities of classes of representational matrices of religions and go on to chart the challenges that this collision presents to our ideas or stereotypes of realism or to the possibilities of writing against and beyond realism This question motivates examination of key realist or social realist texts in some of these essays by Honor de Balzac George Eliot Franz Grillparzer Theodor Storm Gottfried Keller Theodor Fontane Wilhelm Raabe Mar a Amparo Ruiz de Burton Henry James William Dean Howells Charles Chesnutt Theodore Dreiser H T Tsiang Alan Sillitoe and Richard Yates However it is no less central a question in certain non realist texts which engage realist aims to a surprising degree often to debate them openly some of these essays discuss in this light fantastic magical realist and postmodern works by Abram Tertz Paul Auster Alejo Carpentier Toni Morrison Gabriel Garcia Marquez Salman Rushdie and A S Byatt Realism becomes more than an aesthetic aim or narrative mode It becomes rather a value evoked and discussed by all of the works analyzed here in order to reveal its impact on fiction's treatment of ethnicity nationality ideology space gender and social class **Russian Realisms**

Molly Brunson,2016-09-10 One fall evening in 1880 Russian painter Ilya Repin welcomed an unexpected visitor to his home Lev Tolstoy The renowned realists talked for hours and Tolstoy turned his critical eye to the sketches in Repin s studio Tolstoy s criticisms would later prompt Repin to reflect on the question of creative expression and conclude that the path to artistic truth is relative dependent on the mode and medium of representation In this original study Molly Brunson traces many such paths that converged to form the tradition of nineteenth century Russian realism a tradition that spanned almost half a century from the youthful projects of the Natural School and the critical realism of the age of reform to the mature masterpieces of Tolstoy Fyodor Dostoevsky and the paintings of the Wanderers Repin chief among them By examining the classics of the tradition Brunson explores the emergence of multiple realisms from the gaps disruptions and doubts that accompany the self conscious project of representing reality These manifestations of realism are united not by how they look or what they describe but by their shared awareness of the fraught yet critical task of representation By tracing the engagement of literature and painting with aesthetic debates on the sister arts Brunson argues for a conceptualization of realism that transcends artistic media Russian Realisms integrates the lesser known tradition of Russian painting with the familiar masterpieces of Russia s great novelists highlighting both the common ground in their struggles for artistic realism and their cultural autonomy and legitimacy This erudite study will appeal to scholars interested in Russian literature and art comparative literature art history and nineteenth century realist movements Military Realism Peter Campbell,2019-05-08 After the Vietnam War the U S Army considered counterinsurgency COIN a mistake to be avoided Many found it surprising then when setbacks in recent conflicts led the same army to adopt a COIN doctrine Scholarly debates have primarily employed existing theories of military bureaucracy or culture to explain the army s re embrace of COIN but Peter Campbell advances a unique argument centering on military realism to explain the complex evolution of army doctrinal thinking from 1960 to 2008 In five case studies of U S Army doctrine Campbell pits military realism against bureaucratic and cultural perspectives in three key areas nuclear versus conventional warfare preferences for offense versus defense and COIN missions and finds that the army has been more doctrinally flexible than those perspectives would predict He demonstrates that decision makers while vowing in the wake of Vietnam to avoid COIN missions nonetheless found themselves adapting to the geopolitical realities of fighting low intensity conflicts In essence he demonstrates that pragmatism has won out over dogmatism At a time when American policymakers remain similarly conflicted about future defense strategies Campbell s work will undoubtedly shape and guide the debate Image and Vision Computing Wei Qi Yan,Minh Nguyen,Martin Stommel,2023-02-03 This book constitutes the proceedings of the 37th International Conference IVCNZ 2022 which took place in Auckland New Zealand in November 2022 The 37 papers 14 accepted for long oral presentation 23 for short oral presentation included in this volume were carefully reviewed and selected from 79 submissions The conference presents papers on all aspects of computer vision image processing computer graphics virtual and augmented reality visualization and

Sasser, 2014-09-02 Magical Realism and Cosmopolitanism details a variety of functionalities of the mode of magical realism focusing on its capacity to construct sociological representations of belonging This usage is traced closely in the novels of Ben Okri Salman Rushdie Cristina Garcia and Helen Oyeyemi *Sensing the World* Moreland Perkins, 1983-01-01 **Routledge Handbook of China's Belt and Road Initiative in Eurasia** Mher D. Bruce Elder, 2006-01-01 What do images of the body which recent poets and filmmakers have given us tell us about ourselves about the way we think and about the culture in which we live In his new book *A Body of Vision* R Bruce Elder situates contemporary poetic and cinematic body images in their cultural context Elder examines how recent artists have tried to recognize and to convey primordial forms of experiences He proposes the daring thesis that in their efforts to do so artists have resorted to gnostic models of consciousness He argues that the attempt to convey these primordial modes of awareness demands a different conception of artistic meaning from any of those that currently dominate contemporary critical discussion By reworking theories and speech in highly original ways Elder formulates this new conception The works of Brakhage Artaud Schneeman Cohen and others lie naked under Elder's razor sharp dissecting knife and he exposes the essence of their work cutting deeply into the themes and theses from which the works are derived His remarks on the gaps in contemporary critical practices will likely become the focus of much debate The Explanationist Defense of Scientific Realism Dorit A. Ganson, 2001 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company *The Booker Prize and the Legacy of Empire* Luke Strongman, 2021-12-28 This book is about the Booker Prize the London based literary award made annually to the best novel written in English by a writer from one of those countries belonging to or formerly part of the British Commonwealth The approach to the Prize is thematically historical and spans the award period to 1999 The novels that have won or shared the Prize in this period are examined within a theoretical framework mapping the literary terrain of the fiction Individual chapters explore themes that occur within the larger narrative formed by this body of novels collectively invoked cultures social trends and movements spanning

the stages of imperial heyday and decline as perceived over the past three decades Individually and collectively the novels mirror often in terms of more than a single static image British imperial culture after empire contesting and reinterpreting perceptions of the historical moment of the British Empire and its legacy in contemporary culture The body of Booker novels narrates the demise of empire and the emergence of different cultural formations in its aftermath The novels are grouped for discussion according to the way in which they deal with aspects of the transition from empire to a post imperial culture from early imperial expansion through colonization retrenchment decolonization and postcolonial pessimism to the emergence of tribal nationalisms and post imperial nation states The focus throughout is primarily literary and contingently cultural

The Figure of Knowledge Sebastiaan Loosen,Rajesh Heynickx,Hilde Heynen,2020-10-01 It is a major challenge to write the history of post WWII architectural theory without boiling it down to a few defining paradigms An impressive anthologising effort during the 1990s charted architectural theory mostly via the various theoretical frameworks employed such as critical theory critical regionalism deconstructivism and pragmatism Yet the intellectual contours of what constitutes architectural theory have been constantly in flux It is therefore paramount to ask what kind of knowledge has become important in the recent history of architectural theory and how the resulting figure of knowledge sets the conditions for the actual arguments made The contributions in this volume focus on institutional geographical rhetorical and other conditioning factors They thus screen the unspoken rules of engagement that postwar architectural theory ascribed to

The Politics of Mobility Geoff Vigar, 2013-09-05 Transport issues are critically embedded in everyday life For this very reason ways of addressing such issues are almost always hugely politically contentious as a quick glance at local and national media will testify Such contentiousness is growing as ever increasing mobility for many in western society has led to a critical examination of the fundamental basis by which transport issues are considered in government and beyond Despite the strength of this examination the implementation of new approaches to dealing with transport issues has proved deeply problematic The Politics of Mobility pioneers a methodological and theoretical framework derived from the social and political sciences to shed light on the complexities of dealing with these issues It mobilises three case studies that highlight the realpolitik of dealing with such concerns for students practitioners researchers and activists
