associated with this activity and what to do to minimize them as well as other useful tips to improve hookah diving operations. The guide however is not intended as a comprehensive manual for commercial divers. Rather it is strongly recommended that fishers who want to engage in hookah or SCUBA diving receive appropriate training by a qualified diving instructor. The guide is divided into two parts. The first part is intended for fishery extension officers to help them understand the risks of hookah and SCUBA diving and to provide them with information that should increase good practices for this type of fishing. The second part is intended for the fishers themselves; it outlines the risks associated with hookah diving and recommends practices that should help prevent any work-related accident associated with this diving practice.
