Sea Of The Bear:

Sea Bear Lindsay Moore, 2022-05-24 Lindsay Moore's remarkable and beautifully illustrated picture book follows a lone polar bear as she makes her way across sea ice in the Arctic. *Sea Bear* is a deeply moving and informative story about perseverance, family, nature, and climate change that will resonate with readers of all ages. A solitary polar bear travels across the sea ice in pursuit of food. As the ice melts and food becomes scarce, she is forced to swim for days. Finally, storm-tossed and exhausted, she finds shelter on land where she gives birth to cubs and waits for the sea to freeze again. Informed by the author's background in marine science, *Sea Bear* is a vivid and moving page-turner with a vital message about our changing planet. This is a gorgeously illustrated book with the perfect marriage of scientific fact and poetry that shows the reality of climate change and how it poses a threat to animals of the Arctic. Perfect for family and classroom sharing. Includes extensive backmatter about Arctic animals, climate change, and sea ice.

Gray, 2023-04-18 Reprint of the original first published in 1874. *Coasting: The Sea Lion and the Lark* Neville Peat, 2013-12-16 One of New Zealand's finest observers of the natural world takes us on a journey from Otago to the subantarctic and follows the life and migration of a sea lion. With the taut and accurate prose of a scientist and the lyrical sense of an artist, Neville Peat's compelling style lures us into gaining an immense amount of information. In a work that is deeply intimate and wonderfully expansive, Peat takes us well beyond the physical. He delves into the emotional origins of myth and reveals an impassioned respect and understanding of the close relationship between humans and animals. While exploring changing coastal habitat, blending ancient beliefs, local history, legend, and the natural sciences, Peat encounters a number of remarkable individuals along the way: sea dogs, old salts, and a mysterious drifter who follows the winds and tides. Here we gain the naturalist's sense of wonder and the philosopher's contemplation of the mysterious presence we call nature. In *Coasting*, the second title in the Lark series, we gain the naturalist's sense of wonder and the philosopher's contemplation of the mysterious presence we call nature. He combines poetic and descriptive skills with a lightness of touch and a profound understanding of how the natural world interweaves. A captivating work. Natural History, General and Particular ... Vaillant s The Golden Spruce Nanurjuk the bear spirited one is hunting for seals on Hudson Bay where ice never lasts more than one season For her and her young everything is in flux From the top of the world Hudson Bay looks like an enormous paw print on the torso of the continent and through a vast network of lakes and rivers this bay connects to oceans across the

globe Here at the heart of everything walks Nanurjuk or Nanu one polar bear among the six thousand that traverse the 1 23 million square kilometers of ice and snow covering the bay For millennia Nanu s ancestors have roamed this great expanse living evolving and surviving alongside human beings in one of the most challenging and unforgiving habitats on earth But that world is changing In the Arctic s lands and waters oil has been extracted and spilled As global temperatures have risen the sea ice that Nanu and her young need to hunt seal and fish has melted forcing them to wait on land where the delicate balance between them and their two legged neighbors has now shifted This is the icescape that author and geographer James Raffan invites us to inhabit in *Ice Walker* In precise and provocative prose he brings readers inside Nanu s world as she treks uncertainly around the heart of Hudson Bay searching for nourishment for the children that grow inside her She stops at nothing to protect her cubs from the dangers she can see other bears wolves whales human beings and those she cannot By focusing his lens on this bear family Raffan closes the gap between humans and bears showing us how like the water of the Hudson Bay our existence and our future is tied to Nanu s He asks us to consider what might be done about this fragile world before it is gone for good Masterful vivid and haunting *Ice Walker* is an utterly unique piece of creative nonfiction and a deeply affecting call to action
