Peifer, 2016-06-08 Throughout US history presidents have had vastly different reactions to naval incidents. Though some incidents have been resolved diplomatically, others have escalated to outright war. What factors influence the outcome of a naval incident, especially when calls for retribution mingle with recommendations for restraint? Given the rise of long range anti ship and anti air missile systems coupled with tensions in East Asia, the Persian Gulf and the Black and Baltic Seas, the question is more relevant than ever for US naval diplomacy. In *Choosing War*, Douglas Carl Peifer compares the ways in which different presidential administrations have responded when American lives were lost at sea. He examines in depth three cases: the Maine incident 1898 which led to war in the short term, the Lusitania crisis 1915 which set the trajectory for intervention, and the Panay incident 1937 which was settled diplomatically. While evaluating Presidents William McKinley, Woodrow Wilson and Franklin Delano Roosevelt's responses to these incidents, Peifer lucidly reflects on the options they had available and the policies they ultimately selected. The case studies illuminate how leadership memory and shifting domestic policy shape presidential decisions, providing significant insights into the connections between naval incidents, war and their historical contexts. Rich in dramatic narrative and historical perspective, *Choosing War* offers an essential tool for confronting future naval crises.

Center for Naval Analyses, 1984 **Naval War College Review** Naval War College (U.S.), 1979 **Naval War College Review**, 1979 *Security at Sea* Stockholm International Peace Research Institute, 1990. Since the Second World War five navies are known to have acquired nuclear weapons and naval forces and activities around the world have become increasingly important and dangerous. However, there has been no serious consideration of naval arms control for more than forty years. SIPRI gathered together a group of experts from eight nations to consider the problems of naval forces and the possibilities for arms control. This book is a product of that conference and it presents for the first time a broad and detailed assessment of the dangers of the naval arms race, problems with arms control, possible approaches, confidence building measures and verification technologies. *Geopolitics* Peter M.
