Meditations from the Classics David R. Denny,2023-12-08 There s a delightful melody in the ancient voices as they travel through time s narrow door I hear them best on my front porch rocker that faces an ocean marsh There beneath curious stars the orchestration emerges mingling with moonlight tides Sometimes Socrates sings the high notes while Thucydides pulls the bass line Aristophanes rallies his chorus and Caesar charges over a hilltop near the dark Teutoburg Forest There are times when I struggle with the faint lyrics but with patience the scenes begin to breathe

again Hurry It s midnight and the curtain is opening The actors twirl their swords and fluff their flowing robes Sophocles is quieting the theater requesting our attention Oedipus now an aged actor leans upon his daughter Antigone His face glowers from twenty years of wandering beneath ghastly burdens and past failures Slowly they climb a rocky path that leads to the edge of a forest His words still resonate for us today with a vibrant relevance as do all thirty three ancient authors in Meditations from the Classics

Sea-Brothers Bert Bender, 2015-11-16 Sea Brothers offers the most extensive analysis to date of the sea and its meaning in American literature On the basis of his study of Melville Crane London Hemingway Matthiessen and ten lesser known sea writers Bert Bender argues that the tradition of American sea fiction did not end with the opening of the western frontier and the replacement of sailing ships by steamers Rather he demonstrates its continuity and vitality identifying a central vision within the tradition and showing how particular authors draw from transform and contribute to it What is most distinctive about American sea fiction Bender contends is its visionary often mystical response to the biological world and to man's perceived place in the larger universe When Melville envisioned the sea as the essential element of life indeed as life itself he changed the course of American sea fiction by introducing the relevance of biological thought But his meditations on the whale and the ungraspable phantom of life project a different reality from that envisioned by his successors In American sea fiction after Melville the influence of Origin of Species is as powerful as that of Moby Dick or the theme of sailing ships being displaced by steam The ideal of brotherhood so central to American sea fiction was severely compromised by the biological reality of a competitive warring nature Twentieth century sea fiction has continued to center on the biological world and address the possibility of democratic brotherhood but the issues were fundamentally changed by Darwin's theories This book will be a valuable source for students and scholars of American literature and will interest readers of sea fiction *Words on Cassette*, 2002 R R
