He then turns his attention to the question of Israel's historiography by focusing particularly on the Deuteronomistic Historian, the first Israelite historian. Searching for Ancient Egypt, 1997. *In Search of the Immortals* Howard Reid, 2025-10-16. Everyone knows that the ancient Egyptians were great mummifiers and their sarcophagi and bandage-wrapped corpses are familiar images to us all. Yet across the vast sweep of history we find many other great cultures in which the bodies of the dead were preserved as a matter of course. In coastal Peru were the Chinchorros whose mummifying culture flowered several millennia before Egypt's and in the Andes were the Chachapoyas, the Cloud People, a lost civilization which has only recently begun to be understood. In China's Taklamakan desert the oddly Caucasian-looking people who established the Silk Route, which made possible the first trade between East and West, have left behind stunningly lifelike mummies. The ritually sacrificed bodies preserved in the peat bogs of northern Europe give us an extraordinary insight into life in the Dark Ages. And in the Canary Islands, perhaps most surprisingly of all, lived the Guanches whose sophisticated mummification techniques and whose cultural links with the Egyptians Howard Reid explores here for the first time. Taking his extraordinary first-hand experiences of discovering and filming mummies all over the world as his starting point, Howard Reid brings these ancient cultures vividly to life. And in so doing *In Search of the Immortals* comes to represent his personal quest to find an answer to that most epic and timeless of human problems: the meaning of death.

Ancient Egypt and Modern Psychotherapy Todd Hayden, 2016-12-19. In *Ancient Egypt and Modern Psychotherapy* Todd Hayden explores what the spiritual concepts of the enigmatic ancient Egyptians can teach us about our own modern psyches and the pursuit of a meaningful life. Hayden examines the ancient Egyptians' possession of a concept contemporary academics have labeled "consciousness of the heart," an innate knowledge of the entirety of the universe. While all human beings possess this consciousness of the heart, our modern culture has largely lost the ability to tap into this inborn knowledge. By examining the material accomplishments of ancient Egypt and how their seemingly deeper awareness of their inner world created a harmonious outer world, we can begin to understand how modern psychotherapy through a Jungian perspective could be instrumental in achieving a more profound and meaningful personal experience of life. *Ancient Egypt and Modern Psychotherapy* will be insightful reading for analytical psychologists in practice and in training, Jungian psychotherapists and psychologists, and academics and students of Jungian and post-Jungian studies and ancient spirituality.
