Lucanio, 2015-06-14 The identity of Jack the Ripper has consumed public curiosity since he first tormented the East End of London in 1888 Numerous theories have been offered as to his identity but he remains in the shadows where it seems only imaginative literature has been able to elucidate his meaning to the modern world This work surveys the literary film television and radio treatments of Jack the Ripper and his crimes The works of fiction are thoroughly analyzed as are the major nonfiction works that have offered various theories about the Ripper s identity Works whose narratives are obviously inspired by Jack the Ripper and his crimes are also discussed *Forensic Science in Contemporary American Popular*

Culture Lindsay Steenberg, 2013 This book identifies traces and interrogates contemporary American culture s fascination with forensic science It looks to the many different sites genres and media where the forensic has become a cultural commonplace It turns firstly to the most visible spaces where forensic science has captured the collective imagination crime films and television programs In contemporary screen culture crime is increasingly framed as an area of scientific inquiry and even more frequently as an area of concern for female experts One of the central concerns of this book is the gendered nature of expert scientific knowledge as embodied by the ubiquitous character of the female investigator Steenberg argues that our fascination with the forensic depends on our equal fascination with and suspicion of women s bodies with the bodies of the women investigating and with the bodies of the mostly female victims under investigation **Leonard Maltin's 2013**

Leitch,2007-06-15 Most books on film adaptation the relation between films and their literary sources focus on a series of close one to one comparisons between specific films and canonical novels This volume identifies and investigates a far wider array of problems posed by the process of adaptation Beginning with an examination of why adaptation study has so often supported the institution of literature rather than fostering the practice of literacy Thomas Leitch considers how the creators of short silent films attempted to give them the weight of literature what sorts of fidelity are possible in an adaptation of sacred scripture what it means for an adaptation to pose as an introduction to rather than a transcription of a literary classic and why and how some films have sought impossibly close fidelity to their sources After examining the surprisingly divergent fidelity claims made by three different kinds of canonical adaptations Leitch s analysis moves beyond literary sources to consider why a small number of adapters have risen to the status of auteurs and how illustrated books comic strips video games and true stories have been adapted to the screen The range of films studied from silent Shakespeare to Sherlock Holmes to The Lord of the Rings is as broad as the problems that come under review *Character Actors in Horror and Science Fiction Films, 1930-1960* Laurence Raw,2014-01-10 This biographical dictionary presents a stellar lineup of talented versatile character actors who regularly appeared in horror and science fiction films during Hollywood s golden age Many are well known by genre buffs and casual fans they include Lionel Atwill John Carradine Dwight Frye Rondo Hatton Dick Miller J Carroll Naish Maria Ouspenskaya Glenn Strange Edward Van Sloan and George Zucco Some are perhaps not so well known but equally at home in the horror and science fiction films such as Anthony Carbone Harry Cording Rosemary La Planche Dick Purcell Elizabeth Russell and Mel Welles The 96 entries are complete with a biography and in depth analyses of the actor s best performances demonstrating how important these personalities were to the success of their genre films
