Canoeing a Continent Max Finkelstein,2005-03-21 A highly personal account of the travels of Max Finkelstein as he retraces some two hundred years later the route of Alexander Mackenzie the first European to cross North America 1793 Mackenzie s water trail is now commemorated as the Alexander Mackenzie Voyageur Route More than just a travelogue of a canoe trip across Canada this is an account that crosses more than two centuries It is an exploration into the heart and mind of Alexander Mackenzie the explorer and Max Finkelstein the Voyageur in Training Using Mackenzie s journals and his own journal writings the author creates a view of the land from two vantage points The author retraced the route of Alexander Mackenzie across North America from Ottawa through to Cumberland House Saskatchewan and paddled the Blackwater Fraser and Peace Rivers completing the trip in 1999 This route is the most significant water trail in North America and perhaps the world A must read for everyone who loves wild places and the magic of canoes Cliff Jacobson Outdoor Writer Consultant Past and present collide in this journey of discovery across the map of Canada Max craves the extremes He relishes in coping with what nature throws at him punishing himself to find his physical limits and experiencing firsthand the inherent dangers in such a voyage With Alexander Mackenzie as his guide and inspiration Max finds the strength to carry on against all odds to forge poignant historical and personal links in this incredible cross Canada paddling odyssey Becky Mason Artist and Paddler Chelsea Quebec **The Economics of Monetary Unions** Juan E. Castañeda,Alessandro Roselli,Geoffrey E. Wood,2020-03-16 In this book a historical analysis of the precedents of the euro is examined within the context of the current issues affecting the Eurozone and the long term effects of the institutional changes implemented since 2010 The book begins by placing the Eurozone challenges in the historical context of previous monetary unions drawing on the experience of the gold standard It then specifically focuses on the problems arising from the running of permanent trade imbalances within the Eurozone The authors explore the advantages and disadvantages of being a member of the Eurozone and attempt to measure the optimality of a currency area by the calculation of an index on internal macroeconomic asymmetries They address the proposals recently made in favour of a fiscal union in the Euro zone including the economic and political feasibility of fiscal transfers in the Eurozone The final two papers discuss whether the monetary union is in fact

more than just that and whether it will lead inevitably to some form of political union if it is to survive With chapters by leading experts from both Europe and the UK this book will appeal to students in Economics Finance Politics EU integration and European studies as well as academics and professional economists doing research in EU integration the Euro zone monetary history and monetary and banking unions in Europe the UK and elsewhere **Borderlands** Derek Lundy, 2011-10-04 The periphery of a place can tell us a great deal about its heartland along the edge of a nation's territory its real prejudices fears and obsessions but also its virtues irrepressibly bubble up as its people confront the other whom they admire or fear or hold in contempt and know little about September 11 2001 changed the United States utterly and nothing more so than the physical reality the perception and the meaning of its borders from *Borderlands* Derek Lundy turns sixty at the end of a year in which three good friends have died He feels the need to do something radical and sets out on his motorcycle a Kawasaki KLR 650 cc single cylinder thumper which he describes as unpretentious and also butt ugly Fascinated by the United States post 9 11 passion for security particularly on its two international borders he chooses to investigate He takes a firsthand look at both borders The U S Mexican borderlands often disorderly and violent operate according to their own ad hoc system of rules and conventions and are distinct in many ways from the two countries the border divides When security trumps trade the economic well being of both countries is threatened and the upside is difficult to determine American policy makers think the issues of drugs and illegals are ample reason to keep building fences to keep Mexicans out even with no evidence that fences work or are anything but cruel Mexicans cheap labour keeps the wheels turning in the U S economy yet they are resented for trying to get into the country illegally or legally More people have died trying to cross this border than in the 9 11 attacks At almost 9 000 kilometres the U S border with Canada is the longest in the world The northern border divides the planet's two biggest trading partners and that relationship demands the fast easy flow of goods and services in both directions Since the events of 9 11 however the United States has slowly and steadily choked the flux of trade just in time parts shipments are in jeopardy trucks must wait for inspection and clearance people must be questioned The border is thickening In prose that is compelling impressive and at times frightening Derek Lundy's incredible journey is illuminating enough to change minds as great writing can sometimes do
