Los Angeles The Ultimate City:

Los Angeles Christopher Rand, 1967 *Through the Lens of the City*, During the 1970s the National Endowment for the Arts Photography Surveys granted money to photograph American cities at the bicentennial and years that followed In *Through the Lens of the City* NEA Photography Surveys of the 1970s Mark Rice brings to light this long neglected photographic endeavor From 1976 to 1981 the NEA supported more than seventy projects that examined a wide range of people and places in America Artists involved included such well known photographers as Bruce Davidson Lee Friedlander and Joel Meyerowitz and many photographers who became widely known after their work with the surveys such as Robert Adams Joe Deal Terry Evans and Wendy Ewald Rice argues that the NEA Photographic Surveys drew from two wells a widespread sense of nostalgia and an intense public interest in photography Looking at the works from eight key cities Atlanta Buffalo Durham East Baltimore Galveston Long Beach Los Angeles and Venice the book uncovers marked differences as well as startling similarities in the concerns manifested by different photographers in far flung places Although the surveys are interesting both for their artistic merits and for their place in the history of American photography they are equally important as a documentation of bicentennial era America and a close examination of American cities A major shift in the ideals of civil engineering and urban planning was underway in the 1970s At the same time ideas and theories about photography were changing along with our notions of what the city could and should be These surveys capturing American cities in a fascinating period of flux show us American photographers matching artistry to subject matter in new and exciting ways Mark Rice is chair of the American studies department at St John Fisher College His work has been published in such periodicals as *Exposure* *Explore* and *Reviews in American History* **L. King of Diamonds Ronald Winston, William Stadiem, 2023-09-19 This authoritative and intimate biography written by his only living son Ronald Winston marries the Gilded Age glamour and romance of Edith Wharton with the ruthless family dynamics of HBO s hit series Succession Few American success stories rival that of Harry Winston Born Harry Weinstein he came from humble roots his parents were poor Jewish immigrants who left Ukraine around 1890 for New York where they settled and started a small jewelry business His genius for spotting priceless gems emerged young When Harry was twelve years old he recognized a two carat emerald in a pawn shop and bought it for 25 cents selling it two days later for 800 a massive sum in the early 1900s From that moment on Harry became obsessed with gems especially diamonds A compact unassuming man with no formal education but unlimited drive and ambition Harry Weinstein transformed himself into Harry Winston the enigmatic figure who created the world s most prestigious luxury brand Harry Winston built his empire while the Depression raged World War II reshaped the world and America entered its post war period of prosperity In this riveting biography readers get a bird s eye view of the dangers of the diamond trade and the lengths men would go to get their hands on the best of the rough There s also a glimpse into the lives of the rich and famous who clamored for Winston s gems Although he traveled the world doing business with kings queens and movie stars Winston remained a devoted family man whose chief wish was that his sons carry on the legacy he had built Harry s older son Ronald Winston worked alongside his father for decades After Harry s death Ron grew the company into the international brand that is still revered today He ran it expertly until he was forced to sell the company due to his younger brother s maligning litigation This is the story of a family business that survived and thrived for more than a century until it was undone by one bitter family member KING OF DIAMONDS is at once a portrait of American ingenuity at its best and the story of sibling rivalry that is Shakespearean in its tragedy

From Bible Belt to Sunbelt: Plain-Folk Religion, Grassroots Politics, and the Rise of Evangelical Conservatism Darren Dochuk,2010-12-13 A prize winning five decade history of the evangelical movement in Southern California that explains a sweeping realignment of American politics From Bible Belt to Sun Belt tells the dramatic and largely unknown story of plain folk religious migrants hardworking men and women from Oklahoma Texas and Arkansas who fled the Depression and came to California for military jobs during World War II Investigating this fiercely pious community at a grassroots level Darren Dochuk uses the stories of religious leaders including Billy Graham as well as many colorful lesser known figures to explain how evangelicals organized a powerful political machine This machine made its mark with Barry Goldwater inspired Richard Nixon s Southern Solution and achieved its greatest triumph with the victories of Ronald Reagan Based on entirely new research the manuscript has already won the prestigious Allan Nevins Prize from the Society of American Historians The judges wrote Dochuk offers a rich and multidimensional perspective on the origins of one of the most far ranging developments of the second half of the twentieth century the rise of the New Right and modern conservatism

The Metropolitan Frontier Carl Abbott,1995-09-01 Honolulu to Houston and from Fargo to Fairbanks to show how Western cities organize the region s vast spaces and connect them to the even larger sphere of the world economy His survey moves from economic change to social and political response examining the initial boom of the 1940s the process of change in the following decades and the ultimate impact of Western cities on their environments on the Western regional character and on national identity Today a **City Bound** Gerald E. Frug,David J. Barron,2013-07-02 Many major American cities are defying the conventional wisdom that suburbs are the communities of the future But as these urban centers prosper they increasingly confront significant constraints In City

Bound Gerald E Frug and David J Barron address these limits in a new way Based on a study of the differing legal structures of Boston New York Atlanta Chicago Denver San Francisco and Seattle City Bound explores how state law determines what cities can and cannot do to raise revenue control land use and improve city schools Frug and Barron show that state law can make it much easier for cities to pursue a global city or a tourist city agenda than to respond to the needs of middle class residents or to pursue regional alliances But they also explain that state law is often so outdated and so rooted in an unjustified distrust of local decision making that the legal process makes it hard for successful cities to develop and implement any coherent vision of their future Their book calls not for local autonomy but for a new structure of state local relations that would enable cities to take the lead in charting the future course of urban development It should be of interest to everyone who cares about the future of American cities whether political scientists planners architects lawyers or simply citizens
