Masculinity In Medieval Europe:

Masculinity in Medieval Europe Dawn Hadley, 2015-12-14 An original and highly accessible collection of essays which is based on a huge range of historical sources to reveal the realities of men's lives in the Middle Ages. It covers an impressive geographical range including essays on Italy, France, Germany and Byzantium and will span the entire medieval period from the fourth to the fifteenth century. The collection is divided into four main sections: attaining masculinity, lay men and churchmen, sources of tension, sexuality and the construction of masculinity, and written relationships and social reality. The contributors are Dawn Hadley, Jenny Moore, William M. Aird, Jeremy Goldberg, Matthew Bennet, Janet Nelson, Conrad Leyser, Robert Swanson, Patricia Cullum, Ross Balzaretti, Shaun Tougher, Julian Haseldine, Marianne Ailes, and Mark Chinca. **From Boys to Men** Ruth Mazo Karras, 2003 An exploration of the creation of adult masculine identities in the 14th and 15th centuries, this volume takes a close look at the roles of men through the lens of three distinct institutions: the university, the aristocratic household, court, the craft workshop. *Holiness and Masculinity in the Middle Ages* P. H. Cullum, Katherine J.

Lewis, 2005-01-01 Studies in gender in medieval culture have tended to focus on femininity; however, the study of medieval masculinities has developed greatly over the last few years. *Holiness and Masculinity in the Middle Ages* is the first volume to concentrate on this specific aspect of medieval gender studies and looks at the ways in which varieties of medieval masculinity intersected with concepts of holiness. Patricia Cullum and Katherine J. Lewis have collected an exceptional group of essays that explore differing notions of medieval holiness, understood variously as religious, saintly, sacred, pure, morally perfect, and consider topics such as the significance of the tonsure, sanctity, and martyrdom, eunuch saints, and the writings of Henry Suso. *Holiness and Masculinity in the Middle Ages* deals with a wide variety of texts and historical contexts from Byzantium to Anglo-Saxon and late medieval England. **Masculinity in Medieval Europe** Dawn Hadley, 1998

Medieval Masculinities Clare A. Lees, Thelma S. Fenster, Jo Ann McNamara, 1994 Ranging from questions of epic violence and heroic embodiments of manhood to constructions of bachelorhood, husbandry, and sainthood, *Medieval Masculinities* is the first synthesis of medieval and gender studies to focus on masculinities. Harry Brod, editor of *The Making of Masculinities*, We should not be working exclusively on the subjected sex any more than a historian of class can focus exclusively on

peasants Natalie Zemon Davis 1975 In the years since Natalie Davis made this remark men s studies and gender studies along with it has earned its place in scholarship What is often missing from such studies however is the insight that the concept of gender in general and that of masculinity in particular can be understood only in relation to individual societies examined at specific historical and cultural moments A brilliant application of this insight *Medieval Masculinities* is the first full length collection to explore the issues of men s studies and contemporary theories of gender within the context of the Middle Ages Interdisciplinary and multicultural the essays range from matrimony in medieval Italy to bachelorhood in Renaissance Venice from friars and saints to the male animal in the fables of Marie de France from manhood in Sir Gawain and the Green Knight Beowulf and the Roman d Eneas to men as other whether Muslim or Jew in medieval Castilian epic and ballad The authors are especially concerned with cultural manifestations of masculinity that transcend this particular historical period idealized gender roles political and economic factors in structuring social institutions and the impact of masculinist ideology in fostering and maintaining power Together their essays constitute an important reassessment of traditional assumptions within medieval studies as well as a major contribution to the evolving study of gender Contributors Christopher Baswell Barnard College Vern L Bullough SUNY Buffalo Stanley Chojnacki Michigan State University John Coakley New Brunswick Theological Seminary Thelma Fenster Fordham University Clare Kinney University of Virginia Clare A Lees University of Pennsylvania Jo Ann McNamara Hunter College Louise Mirrer Fordham University Harriet Spiegel California State University Chico Susan Mosher Stuard Haverford College

Gender in Medieval Culture Michelle M. Sauer, 2015-09-24 *Gender in Medieval Culture* provides a detailed examination of medieval society s views on both gender and sexuality and shows how they are inextricably linked Sex roles were clearly defined in the medieval world although there were exceptions to the rules and this book examines both the commonplace world view and the exceptions to it The volume looks not only at the social and economic considerations of gender but also the religious and legal implications arguing that both ecclesiastical and secular laws governed behaviour The book covers key topics including femininity and masculinity and how medieval society constructed these terms sexuality and sex transgressive sexualities such as homosexuality adultery and chastity and the gendered body of Christ including the idea of Jesus as mother and affective spirituality Using a clear chapter structure for easy navigation and categorisation as well as a glossary of terms the book will be a vital resource for students of medieval history

Negotiating Clerical Identities J. Thibodeaux, 2010-10-13 Clerics in the Middle Ages were subjected to differing ideals of masculinity both from within the Church and from lay society The historians in this volume interrogate the meaning of masculine identity for the medieval clergy by considering a wide range of sources time periods and geographical contexts

Patronage, Power, and Masculinity in Medieval England Andrew Miller, 2023-03-10 The book investigates a riveting richly documented conflict from thirteenth century England over church property and ecclesiastical patronage Oliver Sutton the bishop of Lincoln and John St John a royal household knight both used coveted papal provisions to bestow the

valuable church of Thame to a familial clerical candidate a nephew and son respectively Between 1292 and 1294 three people died over the right to possess this church benefice and countless others were attacked or publicly scorned during the conflict More broadly religious services were paralyzed prized animals were mutilated and property was destroyed Ultimately the king personally brokered a settlement because he needed his knight for combat Employing a microhistorical approach this book uses abundant episcopal royal and judicial records to reconstruct this complex story that exposes in vivid detail the nature and limits of episcopal and royal power and the significance and practical business of ecclesiastical benefaction This volume will appeal to undergraduate and graduate students alike particularly students in historical methods courses medieval surveys upper division undergraduate courses and graduate seminars It would also appeal to admirers of microhistories and people interested in issues pertaining to gender masculinity and identity in the Middle Ages Gender and Holiness Sam Riches, Sarah Salih, 2005-07-05 This collection brings together two flourishing areas of medieval scholarship gender and religion It examines gender specific religious practices and contends that the pursuit of holiness can destabilise binary gender itself Though saints may be classified as masculine or feminine holiness may also cut across gender divisions and demand a break from normally gendered behaviour This work of interdisciplinary cultural history includes contributions from historians art historians and literary critics and will be of interest not only to medievalists but also to students of religion and gender in any period
