Function-Based Spatiality and the Development of Korean Communities in Japan David Rands, 2014-05-21 Function Based Spatiality and the Development of Korean Communities in Japan utilizes the theoretical model of complex adaptive systems and introduces the concept of function based spatiality to investigate the roles of the urban environments of Tokyo and Osaka in the development of Korean communities in Japan Analysis of distinct Korean communities allows for the examination of urban factors of each city which contributed to the patterns of Korean immigration and community formation By utilizing a comparative narrative of the two cities distinctions between the organic growth of Osaka and the planned city of Tokyo are illuminated Additionally the discussion utilizes the concept of function based spatiality to show how each city interacted with its surrounding regional national and global spheres The functions of Tokyo as a gateway to Western modernization and center of the Japanese state shaped the interactions with Korean immigrants Likewise Osaka's functions as a center of mercantilism and second city played a large role in how Koreans were incorporated into the urban ethnoscape Taken together these two examples provide insight to the dynamics of urban systems on the development of immigrant communities

Japanese History & Culture from Ancient to Modern Times John W. Dower, 1986 **Gender and Nation in Meiji Japan** Jason G. Karlin, 2014-04-30 Gender and Nation in Meiji Japan is a historical analysis of the discourses of nostalgia in late nineteenth and early twentieth century Japan Through an analysis of the experience of rapid social change in Japan's modernization it argues that fads ry k and the desires they express are central to understanding Japanese modernity conceptions of gender and discourses of nationalism In doing so the author uncovers the myth of eternal return that lurks below the surface of Japanese history as an expression of the desire to find meaning amid the chaos and alienation of modern times The Meiji period 1868 1912 was one of rapid change that hastened the process of forgetting The state's aggressive program of modernization required the repression of history and memory However repression merely produced new forms of desire seeking a return to the past with the result that competing or alternative conceptions of the nation haunted the history of modern Japan Rooted in the belief that the nation was a natural and organic entity that predated the rational modern state such conceptions often were responses to modernity that envisioned the nation in opposition to the modern state What these visions of the nation shared was the ironic desire to overcome the modern condition by seeking the timeless past While the condition of their repression was often linked to the

modernizing policies of the Meiji state the means for imagining the nation in opposition to the state required the construction of new symbols that claimed the authority of history and appealed to a rearticulated tradition Through the idiom of gender and nation new reified representations of continuity timelessness and history were fashioned to compensate for the unmooring of inherited practices from the shared locales of everyday life This book examines the intellectual social and cultural factors that contributed to the rapid spread of Western tastes and styles along with the backlash against Westernization that was expressed as a longing for the past By focusing on the expressions of these desires in popular culture and media texts it reveals how the conflation of mother countryside everyday life and history structured representations to naturalize ideologies of gender and nationalism

Transformations of Sensibility Hideo Kamei,2020-06-01 First published in Japan in 1983 this book is now a classic in modern Japanese literary studies Covering an astonishing range of texts from the Meiji period 1868 1912 it presents sophisticated analyses of the ways that experiments in literary language produced multiple new and sometimes revolutionary forms of sensibility and subjectivity Along the way Kamei Hideo carries on an extended debate with Western theorists such as Saussure Bakhtin and Lotman as well as with such contemporary Japanese critics as Karatani K jin and Noguchi Takehiko Transformations of

Sensibility deliberately challenges conventional wisdom about the rise of modern literature in Japan and offers highly original close readings of works by such writers as Futabatei Shimei Tsubouchi Sh y Higuchi Ichiy and Izumi Ky ka as well as writers previously ignored by most scholars It also provides a new critical theorization of the relationship between language and sensibility one that links the specificity of Meiji literature to broader concerns that transcend the field of Japanese literary studies Available in English translation for the first time it includes a new preface by the author and an introduction by the translation editor that explain the theoretical and historical contexts in which the work first appeared Provincial Patriots Stephen R. Platt,2007-10-31 From the Taiping Rebellion to the Chinese Communist movement no province in China gave rise to as many reformers military officers and revolutionaries as did Hunan Platt offers the first comprehensive study of why this province wielded such disproportionate influence Sun Yat-sen Marie-Claire Bergère,Janet Lloyd,1998 Arguing that the life and work of Sun Yat sen have been distorted by both myth and demythification the author provides a fresh overall evaluation of the man and the events that turned an adventurer into the founder of the Chinese Republic and the leader of a great nationalist movement **Asia in Post-Western Age** ,2014-09-15 The great geopolitician Halford J Mackinder had the dream that Monsoon Asia when it grows to prosperity will balance those who live between Missouri and the Yenisei In Asia in Post Western Age Niraj Kumar offers a vivid picture of the global distribution of material power and the emergence of three pan regions envisaged by German Nazi geopolitician Karl Haushofer fuelled by the logic of regionalised globalisation These pan regions will be glued by corresponding Pan Ideas of Atlanticism Eurasianism and Asianism The trialectics between these three pan regions will establish harmony and balance The diplomacy in multipolar world will no longer be deciphered through the sports metaphor of chess football or boxing but the universal game of hopscotch Asia in Post Western Age is an indispensable interdisciplinary work about contemporary global conflicts as well as future trends and proposes a way to establish Kant s perpetual peace **East Asia and the First World War** Frank Jacob,2022-10-24 The First World War was a truely global event that changed the course of history in many participating as well as non participating countries In East Asia the war stimulated the further rise of Japan as the leading power in the region during the war yet also its radicalization and social protests after 1918 In China and Korea it stimulated nationalist eruptions demanding freedom and equality for the semi colonized countries and the people living within their borders All in all the present book offers a consice introduction of the history of the First World War and its impact in East Asia China Watch John King Fairbank,1987 America s top China watcher the renowned pandit of modern Chinese history here provides an unrivaled overview of revolutionary China and Chinese American relations His reviews and critical commentary scrutinize our always fascinated often puzzled attitude toward this newly emergent superpower John Fairbank distinguishes two major motifs in recent Chinese American connections the American expectation of highly profitable trade and investment which so far have not materialized and the deep rooted missionary impulse to give the Chinese the best of our culture which includes our efforts to promote human

rights The possibility of grafting our ideas of individual endeavor and God given prerogatives onto two thousand years of Confucianism with its emphasis on duty and collective harmony seems remote In contrast the outlook for mutually enriching economic dealings is much brighter Yet Fairbank cautions that we are dealing with a huge and disoriented nation struggling to enter the modern world with its own cultural identity intact and at least in the current period with its Communist Party in power Confucian tenets still prevail theory and practice are a unity policies are a form of conduct manifesting one s character and attacks on policy equal attacks on the ruling party These writings concern China in the mind s eye of America as it is interpreted though the works of American merchants diplomats missionaries and reporters observing China s travail of revolution For generalist scholar and sage alike China Watch offers many insights **China in the Tokugawa World**

Marius B. Jansen,1992 This engaging book challenges the traditional notion that Japan was an isolated nation cut off from the outside world in the early modern era This familiar story of seclusion argues master historian Marius B Jansen results from viewing the period solely in terms of Japan s ties with the West at the expense of its relationship with closer Asian neighbors Taking as his focus the port of Nagasaki and its thriving trade with China in the sixteenth through the nineteenth centuries Jansen not only corrects this misperception but offers an important analysis of the impact of the China trade on Japan s cultural economic and political life Creating a vivid portrait of a city that lived on and for foreign trade the author details Nagasaki s pivotal role in importing luxury goods for a growing Japanese market whose elite wanted more of everything that ships from China could bring Silk sugar and ginseng were among the cargoes brought to Nagasaki as well as books that by the late Tokugawa period signaled the dangers of Western expansionism The junks from China brought people as well as goods and the author provides clear evidence of the influence of Chinese expatriates and visitors on Japanese religion law and art Japan s intellectuals prided themselves on their full participation in the cultural milieu of the continental mainland and for them China represented an ideal land of sages and tranquility But gradually China came to represent instead a metaphor for the other as Japan s quest for a national identity intensified Among the Japanese a new image of their nation was beginning to emerge a Japan superior to Asia in general and to China in particular **Culture and Civilization** Gabriel

R. Ricci,2018-02-06 This volume of Culture and Civilization focuses on cosmopolitanism the global polity and political ramifications of globalization The introduction by Gabriel R Ricci establishes context and provides an overview of the entire work Topics include the history of globalization climate change policy ecological consequences of development concepts of civilization human rights Eastern thought and economics global citizenship and travel writing Within this collection Carl J Strikwerda argues that the first era of globalization in modern times was marked by global migrations patterns Pablo Iannone s history of the Andean oil rush and its ecological consequences looks at the processes of development Brett Bowden argues that civilization entails both progress and war J Baird Callicott provides a philosophical analysis of a moral theory that accommodates spatial and temporal scales of climate change Sanjay Paul analyzes the United Nations Global Compact and

Ed Chung discusses the role of economic theory in business schools Colin Butler reflects on E F Schumacher's Buddhist Economics while Taso Lagos relates parallel polis to the idea of global citizenship Tony Burns examines the ways in which Aristotle Hegel and Kant have been interpreted Finally Adam Stauffer explores Charles Warren Stoddard's work South Sea Idyls This volume of Culture and Civilization the first under Ricci's editorship follows the tradition of the previous four volumes developing critical ideas intended to produce a positive intellectual climate one that is prepared to confront challenges and alert us to the opportunities for people in all fields and of all faiths of the twenty first century
