My Wild Kingdom:

My Wild Kingdom Marlin Perkins, 1982 **Wild Kingdom** Jehanne Dubrow, 2021-02-24 *Wild Kingdom* explores the world of academia examining this strange landscape populated by faculty administrators and students Using what she calls received academic forms Jehanne Dubrow crafts poems that recall the language of academic documents such as syllabi grading rubrics and departmental minutes Honor Board Hearing a series of prose poems depicts challenges frequently faced by undergraduates offering fictionalized accounts of cases involving plagiarism theft sexual assault and substance abuse As a rejoinder to the famous dictum that academic politics is the most vicious and bitter form of politics because the stakes are so low Dubrow maintains that given the current moment the stakes could not be higher Even as it acknowledges the cruelty that exists within the academy *Wild Kingdom* asks how scholars and educators can work to ensure that institutions of higher learning continue to nurture students and remain places of rigorous critical thinking *The Wild Kingdom* Kevin Huizenga, 2020-08-28 The new master of Comics Experimentalism returns with his Everyman Glenn Ganges Standing out among his contemporaries Kevin Huizenga's subtle mastery of the medium has earned him countless accolades and awards His comics are at once straightforward and experimental serious and funny His character is the suburban everyman Glenn Ganges a modern day Dagwood Bumstead who tackles and stumbles with such heady topics as mysticism and science In *The Wild Kingdom* Glenn Ganges blindly interacts with the nature of his suburban neighborhood dead houseplants a recipe for gray squirrel brain and pigeons eating discarded French fries in the parking lot of a fast food joint Huizenga juxtaposes Glenn's ignorance of his surroundings with television commercials highlighting society's needs for cure all pharmaceuticals and hot new things like teeth whiteners Starting off wordless *The Wild Kingdom* grows more complex page by page ending with encyclopedic entries biographical excerpts anthropologic flowcharts and a cataclysmic encounter of nature and technology *The Animal Game* Daniel E. Bender, 2016-11-07 Tracing the global trade and trafficking in animals that supplied U S zoos Daniel Bender shows how Americans learned to view faraway places through the lens of exotic creatures on display He recounts the public's conflicted relationship with zoos decried as prisons by activists even as they remain popular centers of education and preservation **Shooting in the Wild** Chris Palmer, 2010-05-05 Wildlife and nature films are a hugely popular entertainment genre networks such as Animal Planet and Discovery are stars in the cable television universe viewers flock to IMAX theaters to see jaw dropping footage from the wild and the venerable BBC still scores triumphs with series such as Planet Earth As cinematic technology brings ever more breathtaking images to the screen and as our direct contact with nature diminishes an ever expanding audience craves the indirect experience of wild nature that these films provide But this success has a dark side as Chris Palmer reveals in his authoritative and engrossing report on the wildlife film business A veteran producer and film educator Palmer looks past the headlines about TV host Steve Irwin's death by stingray and filmmaker Timothy Treadwell falling prey to his beloved grizzlies to uncover a more pervasive and

troubling trend toward sensationalism extreme risk taking and even abuse in wildlife films He tracks the roots of this trend to the early days of the genre and he profiles a new breed of skilled ethical filmmakers whose work enlightens as well as entertains and who represent the future that Palmer envisions for the industry he loves *Wild Kingdom* Anne

Derek Bousé,2011-11-29 If as many argue movies and television have become Western culture s premier storytelling media so too have they become for most members of society the primary source of encounters with the natural world particularly wild animals The television fare offered nightly by national and cable networks such as PBS and the Discovery Channel provides millions of viewers with their only experience of the wilderness and its inhabitants The very films that so many viewers take as accurate portrayals of wildlife however have evolved primarily as a form of entertainment following the established codes and conventions of narrative exposition The result has been not the representation of nature but its

wholesale reconstruction and reconfiguration according to film and television conventions audience expectations and the demands of competition in the media marketplace Wildlife Films traces the genealogy of the nature film from its origins as the animal locomotion studies that mark the very beginnings of motion pictures themselves to the founding of the Animal Planet cable channel that boasts all animals all the time The narrative and thematic elements that unite wildlife films as a genre have their roots not in the documentary film tradition but in the older traditions of oral and written animal fables as reflections of human society Derek Bous contends that classic wildlife films often portray animal protagonists living in families modeled on an ideal of the human nuclear family and working in communities that resemble an ideal of bucolic human society In these stories presented as documentaries animals are motivated by human emotions and conduct relationships according to human customs This imposition of culturally satisfying narrative patterns upon the lives of animals has not only led to the misrepresentation of the natural world it has promoted the notion that our values our moral vision our models of society and family structure derive from nature rather than being cultural formations
