Mysterien Roman:

Mystery Cults in Visual Representation in Graeco-Roman Antiquity, 2020-10-26 Mystery Cults in Visual Representation in Graeco Roman Antiquity aims to fill a gap in the study of mystery cults in Graeco Roman Antiquity by focusing on images for investigating their ritual praxis Nicole Belayche and Francesco Massa have gathered experts on visual language in order to illuminate cultic rituals renowned for both their mysteries and their images This book tackles three interrelated questions Focusing on the cult of Dionysus it analyses whether and how images are used to depict mystery cults The relationship between historiography and images of mystery cults is considered with a focus on the Mithraic and Isiac cults Finally turning to the cults of Dionysus and the Mother of the Gods this work shows how depictions of specific cultic objects succeed in expressing mystery cults

Alfred Loisy and the Making of History of Religions Annelies Lannoy, 2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France Alfred Loisy 1857-1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy's writings on comparative religion and his rich interactions with famous scholars like F. Cumont M. Mauss or J. G. Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890-1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical

and institutional frameworks for studying the history of religions *Religious Context of Early Christianity* Hans-Josef Klauck, 2003-05-01 This is a uniquely well informed and comprehensive guide to the world of religion in the Graeco Roman environment of early Christianity Drawing on the most up to date scholarship the volume paints a carefully nuanced portrait of the Christians religious context Besides describing ordinary domestic and civic religion and popular belief including astrology divination and magic there is extended discussion of mystery cults ruler and emperor cults the religious dimensions of philosophy and Gnosticism A valuable textbook for advanced students as well as an authoritative reference work for scholars The Homiletic Review ,1916 The Photography of Crisis Daniel H. Magilow, 2012 Examines photo essays from Weimar Germany s many social crises Traces photography s emergence as a new language that German photographers used to intervene in modernity s key political and philosophical debates changing notions of nature and culture national and personal identity and the viability of parliamentary democracy Decline and Change in Late Antiquity J.H.W.G. Liebeschuetz, 2024-10-28 The essays in this second collection of articles by Professor Liebeschuetz deal with several aspects of the history of Late Antiquity One theme is the prehistory of Late Antique ethical monotheism which is illustrated by studies of pagan cults Mithraism and Judaism Several essays discuss the nature of the people who took over large areas of the Western Roman Empire especially the Visigoths and the Vandals The author insists that the continuing ethnogenesis of these groups was made possible by customs and traditions some of them going back before the entry of these peoples into the Empire It is argued that the fact that formal possession of Roman citizenship became unimportant helped the barbarian settlers to expand their groups and to consolidate their ethnic solidarity Other papers deal with the historiography of Late Antiquity and more generally with the writings of historians from Thucydides to A H M Jones and Peter Brown The anxiety of today s historians to reject the concept of decline is linked to current political concerns especially to the ideology of multiculturalism A recurring theme is the relationship between the historian s own background and his or her writing

Mystery Cults in the Ancient World Hugh Bowden, 2023-09-07 Mystery cults are one of the most intriguing areas of Greek and Roman religion In the nocturnal mysteries at Eleusis participants dramatically re enacted the story of Demeter s loss and recovery of her daughter Persephone in Bacchic cult bands of women ran wild in the Greek countryside to honour Dionysus in the mysteries of Mithras men came to understand the nature of the universe and their place within it through frightening initiation ceremonies and astrological teachings These cults were an important part of life in the ancient Mediterranean world but their actual practices were shrouded in secrecy and much of what they were about has remained unclear until now This is the first book to describe and explain all the major mystery cults of the ancient world cult by cult reconstructing the rituals and exploring their origins It makes plentiful use of artistic and archaeological evidence as well as ancient literature and epigraphy Greek painted pottery Roman frescoes inscribed gold tablets from Greek and South Italian tombs and the excavated sites of ancient religious sanctuaries all contribute to our understanding of ancient mystery cults Making use of

the most recent work on these cults the book is also informed by crucial current work on the anthropology and cognitive science of religion Not only is this clearly written book a significant contribution to the study of these cults but it is also accessible to a general readership More than any other book on ancient religion it allows the reader to understand what it was like to participate in these life transforming religious events

Paul's World Stanley E. Porter, 2008-01-31 This volume is concerned with Paul's world The major question to ask is what is that world of Paul In determinable ways Paul's world is everything in the world in which Paul lived and acted and hence virtually everything that Paul did In other words Paul's world can be defined macrocosmically and microcosmically As the term is defined in the various essays in this volume Paul's world includes the surrounding environment in which Paul functioned including its various religious social cultural literary rhetorical linguistic and related phenomena This volume treats some of the most important and germane factors that went into making up the world in which Paul lived and that consequently defined who he was and became

The First One Hundred Years of Christianity Udo Schnelle, 2020-06-30 Beginning as a marginal group in Galilee the movement initiated by Jesus of Nazareth became a world religion within 100 years Why among various religious movements did Christianity succeed This major work by internationally renowned scholar Udo Schnelle traces the historical cultural and theological influences and developments of the early years of the Christian movement It shows how Christianity provided an intellectual framework a literature and socialization among converts that led to its enduring influence Senior New Testament scholar James Thompson offers a clear fluent English translation of the successful German edition

Preacher and Homiletic Monthly, 1916

The Archaeology of Late Antique 'Paganism', 2011-06-22 There is no agreement over how to name the pagan cults of late antiquity Clearly they were more diverse than this Christian label suggests but also exhibited tendencies towards monotheism and internal changes which makes it difficult to describe them as traditional cults This volume which includes two extensive bibliographic essays considers the decline of urban temples alongside the varying evolution of other foci of cult practice and identity The papers reveal great regional diversity in the development of late antique paganism and suggest that the time has come to abandon a single compelling narrative of the end of the temples based on legal sources and literary accounts Although temple destructions are attested in some regions the end of paganism was both gradual and untraumatic with more co-existence with Christianity than one might have expected Contributors are Javier Arce B atrice Caseau Georgios Deligiannakis Koen Demarsin Jitse H F Dijkstra Demetrios Eliopoulos James Gerrard Penelope J Goodman David Gwynn Luke Lavan Michael Mulryan Helen G Saradi Eberhard W Sauer Gareth Sears Peter Talloen Peter Van Nuffelen and Lies Vercauteren

The Roman School, 2024-03-18 Did the twentieth century patristic renewal come from nowhere Was all nineteenth century theology neo-scholastic Do theologians' personal failings invalidate their theologies These are the questions that guide the contributors to this volume as they reassess the legacy of the so-called Roman School a nineteenth century theological

network centered in the Jesuit Roman College Though not entirely uncritical The Roman College represents a collective effort at sympathetic historical retrieval It shows how various figures connected to the Roman School Perrone Passaglia Schrader Franzelin Newman Scheeben and Kleutgen engaged theologically the problems of their own day and set the stage for later theological renewal *The Ancient Novel* Niklas Holzberg,2005-08-10 This widely acclaimed text offers an introduction to the subject and presents an overview of the latest research Substantially updated and expanded from the very successful German edition of 1986 **Edith Stein: Letters to Roman Ingarden** Edith Stein,2014-12-14 Edith Stein and Roman Ingarden both students of Edmund Husserl the founder of phenomenology corresponded extensively between 1917 and 1938 These 162 letters most published here for the first time reveal a friendship that spanned the adult lives of these two important 20th century thinkers Through Stein s letters the reader can follow her through her student days her conversion from Judaism to Catholicism her professional life and her decision to become a Carmelite nun in the Carmel of Cologne where she took the name Teresa Benedicta of the Cross The letters end in 1938 when the Nazi threat escalating throughout Eastern Europe made correspondence difficult especially across national borders Four years later Edith Stein was arrested in the Netherlands by the Nazi SS transported to Auschwitz and was killed in the gas chambers Roman Ingarden survived World War II continued his academic work in Poland and died in 1970 Although Ingarden s letters to her have not been found Stein s to him also help us understand the life of this Polish phenomenologist and aesthetician his life in Poland his intellectual development his own writings and academic career and the editorial assistance Stein provided for all of the works he published in German Translated from the newest critical German edition by Dr Hugh Candler Hunt this premiere English edition of her correspondence volume 12 of ICS Publications Collected Works of Edith Stein gives us a fascinating and intimate window into Edith Stein s rich life and personality revealing her warmth and humor deep capacity for friendship and remarkable intellectual and spiritual depth **Religious Rivalries in the Early Roman Empire and the Rise of Christianity** Leif E. Vaage,2010-10-30 Religious Rivalries in the Early Roman Empire and the Rise of Christianity discusses the diverse cultural destinies of early Christianity early Judaism and other ancient religious groups as a question of social rivalry The book is divided into three main sections The first section debates the degree to which the category of rivalry adequately names the issue s that must be addressed when comparing and contrasting the social success of different religious groups in antiquity The second is a critical assessment of the common modern category of mission to describe the inner dynamic of such a process it discusses the early Christian apostle Paul the early Jewish historian Josephus and ancient Mithraism The third section of the book is devoted to the rise of Christianity primarily in response to the similarly titled work of the American sociologist of religion Rodney Stark While it is not clear that any of these groups imagined its own success necessarily entailing the elimination of others it does seem that early Christianity had certain habits both of speech and practice which made it particularly apt to succeed in the Roman Empire
