Phenomena Andre Koe,Terry Holley,2016-09-06 Astrology Tarot cards Ouija boards spiritism psychic healing palm reading and old fashioned fortune telling now called psychic consulting all these are popular in America today Psychic hotlines are heavily represented on television with testimonials to their amazing ability to give people accurate details about their past and predictions about their future Are psychics indeed gifted with supernatural powers Andre Koe and Terry Holley show convincingly how the success of these and other paranormal phenomena depends on deceit and slight of hand rather than on genuine supernatural powers This is an age when countless groups and movements new and old mark the religious landscape in our culture As a result many people are confused or uncertain in their search for spiritual truth and meaning Because few people have the time or opportunity to research these movements fully the Zondervan Guide to Cults and Religious Movements series provides essential information and insights for their spiritual journeys The second wave of books in this series addresses a broad range of spiritual beliefs from non Trinitarian Christian sects to witchcraft and neo paganism to classic non Christian religions such as Buddhism and Hinduism All books but the summary volume Truth and Error contain five sections A concise introduction to the group being surveyed An overview of the group s theology in its own words Tips for witnessing effectively to members of the group A bibliography with sources for further study A comparison chart that shows the essential differences between biblical Christianity and the group Truth and Error the last book in the series consists of parallel doctrinal charts compiled from all the other volumes Three distinctives make this series especially useful to readers Information is carefully distilled to bring out truly essential points rather than requiring readers to sift their way through a sea of secondary details Information is presented in a clear easy to follow outline form with menu bar running heads This format greatly assists the reader in quickly locating topics and details of interest Each book meets the needs and skill levels of both nontechnical and technical readers providing an elementary level of refutation and progressing to a more advanced level using arguments based on the biblical text The writers of these volumes are well qualified to present clear and reliable information and help readers to discern truth from falsehood

Divination Through the Ages Ellen Wallace Douglas,2012-09-04 Ancients traveled far and paid handsomely to hear the sibyls and oracles channel wisdom from the gods The Holy Bible writes of many prophets and seers but divination by ordinary people was strongly prohibited As a result mediums and psychics have since been laughed at ostracized and even burned at the stake But always there have been some people who persisted in believing in spirit communication secretly We must take a sober and realistic view of divination in the times ahead but openly and publicly This book will help you to understand divination for its true value Listening to the spirit world is our only hope for a world of peace
