Mysticism And Philosophical Analysis:

Mysticism and Philosophical Analysis Steven T. Katz, 1994-07-14 Mystical and religious experience are subjects which are constantly under investigation by both the religiously sensitive and in a more general way by those interested in the phenomenon This comprehensive study by a group of distinguished American and British scholars sympathetically and objectively deals with mystical experience in Christianity Judaism and Eastern religions **Mysticism and Language**

Steven T. Katz, 1992 Taken collectively the original essays in this new collection make up the most important exploration of mysticism and language to appear in many years Written from diverse perspectives on a wide variety of religious and mystical traditions ranging from Judaism and Christianity to Zen Buddhism and Hinduism all the essays exhibit great erudition a mastery of the original mystical sources and philosophical and hermeneutical sophistication Further all recognize the inadequacy of treating the questions surrounding this subject a contextually outside of their historic intellectual and sociological circumstances As such these studies deepen the on going revisionist contextualist study of mysticism so powerfully and influentially inaugurated by two previous collections also edited by Steven Katz *Mysticism and Philosophical Analysis* and *Mysticism and Religious Traditions* Like its predecessors the present collection includes work by some of the world s leading authorities on mysticism including Moshe Idel William Alston Bernard McGinn Ewert Cousins Bimal Matilal Carl Ernst and Steven Katz It is sure to become essential reading for everyone interested in mysticism as well as those who study religion comparative religion philosophy and history **Mysticism** Jess Byron Hollenback, 1996 This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics including Teresa of Avila Black Elk and Gopi Krishna It also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic s interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic s experience as well Hollenback also explores the linkage between the mystic s practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience **Mystic Union** Nelson Pike, 1992 What is it to experience union with God In this

highly original and accessible book one of our leading philosophers of religion seeks to answer this question by analyzing the several states of mystic union as they are described and explained in the classical primary literature of the Christian mystical tradition

The Problem of Pure Consciousness Robert K. C. Forman, 2023 This collection of essays challenges the widely accepted interpretation of mystical experience that received its fullest expression in two volumes edited by Steven T Katz

Mysticism and Philosophical Analysis and Mysticism and Religious Traditions

St. Francis of Assisi and Nature Roger D. Sorrell, 1988-12-08 One of the best loved saints of all time Francis of Assisi is often depicted today as a kind of proto hippie or early environmentalist This book the most comprehensive study in English of Francis s view of nature in the context of medieval tradition debunks modern anachronistic interpretations arguing convincingly that Francis s ideas can only be understood in their 13th century context Through close analysis of Francis s writings particularly the Canticle of the Sun Sorrell shows that many of Francis s beliefs concerning the proper relation of humanity to the natural world have their antecedents in scripture and the medieval monastic orders while other ideas and practices his nature mysticism his concept of familial relationships with created things and his extension of chivalric conceptions to interactions with creatures are entirely his own Sorrell insists however that only by seeing Francis in terms of the Western traditions from which he arose can we appreciate the true originality of this extraordinary figure and the relevance of his thought to modern religious and environmental concerns

Mysticism, Mind, Consciousness Robert K. C. Forman, 1999-06-03 In an exploration of mystical texts from ancient India and China to medieval Europe and modern day America Robert K C Forman one of the leading voices in the study of mystical experiences argues that the various levels of mysticism may not be shaped by culture language and background knowledge but rather are a direct encounter with our very conscious core itself **Mysticism Mind Consciousness** focuses on first hand accounts of two distinct types of mystical experiences Through examination of texts recorded interviews and courageous autobiographical experiences the author describes not only the well known pure consciousness event but also a new hitherto uncharted dualistic mystical state He provides a thorough and readable depiction of just what mysticism feels like These accounts and the experiences to which they give voice arise from the heart of living practices and have substance and detail far beyond virtually any others in the literature The book also reexamines the philosophical issues that swirl around mysticism In addition to examining modern day constructivist views Forman argues that the doctrines of Kant Husserl and Brentano cannot be applied to mysticism Instead he offers new philosophical insights based on the work of Chinese philosopher of mind Paramartha The book concludes with an examination of mind and consciousness which shows that mysticism has a great deal to tell us about human experience and the nature of human knowledge far beyond mysticism itself

Lamm,2017-02-06 The Wiley Blackwell Companion to Christian Mysticism brings together a team of leading international scholars to explore the origins evolution and contemporary debates relating to Christian mystics texts and the movements they inspired Provides a comprehensive and engaging account of Christian mysticism from its origins right up to the present day Draws on the best of current scholarship by bringing together a collection of newly commissioned readings by leading scholars Considers examples of mysticism in both Eastern and Western Christianity Offers a brilliant synthesis of the key figures and historical periods of mysticism its core themes such as heresy gender or aesthetics and its theoretical considerations including theological literary social scientific and philosophical approaches Features chapters on current debates such as neuroscience and mystical experience and inter religious dialogue **Medjugorje and the Supernatural** Daniel Maria Klimek,2018-03-01 In 1981 six young people in the village of Medjugorje in what was then Yugoslavia now Bosnia Herzegovina reported that the Virgin Mary had appeared to them The Medjugorje visionaries say that Mary has returned every day since then bringing them important messages from heaven to convey to the world Over the past three decades the Medjugorje visionaries have been subjected to extensive medical psychological and scientific examination even while undergoing their visionary experiences Daniel Klimek analyzes the scientific studies on the visionaries in juxtaposition with the major scholars and debates surrounding religious experience and concludes that a multidisciplinary approach grants a more holistic and deeper understanding of such extraordinary religious experiences **The Mystic Mind** Jerome Kroll,Bernard Bachrach,2006-06 Drawing on a database of over 1400 medieval holy persons and in depth studies of individual saints this fascinating collaboration between a medieval historian and a professor of psychiatry applies modern biological and psychological research to the lives of medieval mystics and ascetics *Aurobindo's Philosophy of Brahman* Phillips,2023-03-27 *The Blackwell Companion to Modern Theology* Gareth Jones,2008-04-15 In this major reference work a team of the world s leading theologians provides a powerful overview of modern theology Covers theology s relation to other disciplines the history of theology major themes key figures and contemporary issues Can be used as the basis for an introductory course or as an essential reference source Sainthood and Revelatory Discourse David Emmanuel Singh,2003 Zen and the Unspeakable God Jason N. Blum,2015-09-21 Zen and the Unspeakable God reevaluates how we study mystical experience Forsaking the prescriptive epistemological box that has constrained the conversation for decades

ensuring that methodology has overshadowed subject matter Jason Blum proposes a new interpretive approach one that begins with a mystic's own beliefs about the nature of mystical experience Blum brings this approach to bear on the experiential accounts of three mystical exemplars Meister Eckhart Ibn al Arabi and Hui neng Through close readings of their texts he uncovers the mystics' own fundamental assumptions about transcendence and harnesses these as interpretive guides to their experiences The predominant theory first path to interpretation has led to the misunderstanding and misrepresentation of individual mystical experiences and fostered specious conclusions about cross cultural comparability among them Blum's hermeneutic invites the scholarly community to begin thinking about mystical experience in a new way through the mystics' eyes Zen and the Unspeakable God offers a sampling of the provocative results of this technique and an explanation of its implications for theories of consciousness and our contemporary understanding of the nature of mystical experience

Orientalism and Religion Richard King, 2013-04-03 *Orientalism and Religion* offers us a timely discussion of the implications of contemporary post colonial theory for the study of religion Richard King examines the way in which notions such as mysticism religion Hinduism and Buddhism are taken for granted He shows us how religion needs to be reinterpreted along the lines of cultural studies Drawing on a variety of post structuralist and post colonial thinkers such as Foucault Gadamer Said and Spivak King provides us with a challenging series of reflections on the nature of Religious Studies and Indology

On Solov'yev's View of Love and its Affinities with Proclus and Maximus the Confessor Paraskevi Zacharia, 2025-09-20 This dissertation explores the concept of love in the work of Russian philosopher Vladimir Solov'yev 1853 1900 with a focus on two of his writings *La Sophia* 1875 1876 and *Smysl lyubvi* The Meaning of Love 1892 1894 The author analyzes how the

concept of Sophia wisdom as a feminine divine force and the idea of All Unity a universal all encompassing unity converge in Solov y v s deeper philosophical theological vision of love The study connects Solov y v s ideas to those of the Neoplatonist Proclus and the Christian Church Father Maximus the Confessor The central research questions are what is the relationship between love and Sophia in Solov y v s thought and which Neoplatonic and Patristic elements influenced his conception of love The author argues that The Meaning of Love does not explicitly mention the name Sophia but implicitly describes a Sophianic reality in which love fulfills a theurgical function This reality has three dimensions philosophical religious mystical and social Through comparisons with Proclus and Maximus the author shows how Solov y v develops a unique integrative vision in which love leads to the unification of the individual humanity and the divine This research offers an original approach to Solov y v s thought with particular attention to mystical experience metaphysical love and the striving for wholeness It fills a gap in the existing literature by systematically exploring the connection between love Sophia and the influence of Proclus and Maximus Paraskevi Zacharia 1983 studied Classical Languages in Athens and later Russian She obtained her PhD at Radboud University with a dissertation on Solov y v s philosophy of love She has published on theology mysticism and Neoplatonism taught students and presented internationally She is an active member of various academic networks and received several fellowships including OIKOS the International Society for Neoplatonic Studies the International Orthodox Theological Association and the Mystical Theology Network

Zen and the Brain James H. Austin, 1999-06-04 A neuroscientist and Zen practitioner interweaves the latest research on the brain with his personal narrative of Zen Aldous Huxley called humankind s basic trend toward spiritual growth the perennial philosophy In the view of James Austin the trend implies a perennial psychophysiology because awakening or enlightenment occurs only when the human brain undergoes substantial changes What are the peak experiences of enlightenment How could these states profoundly enhance and yet simplify the workings of the brain Zen and the Brain presents the latest evidence In this book Zen Buddhism becomes the opening wedge for an extraordinarily wide ranging exploration of consciousness In order to understand which brain mechanisms produce Zen states one needs some understanding of the anatomy physiology and chemistry of the brain Austin both a neurologist and a Zen practitioner interweaves the most recent brain research with the personal narrative of his Zen experiences The science is both inclusive and rigorous the Zen sections are clear and evocative Along the way Austin examines such topics as similar states in other disciplines and religions sleep and dreams mental illness consciousness altering drugs and the social consequences of the advanced stage of ongoing enlightenment
