Leibniz, Mysticism and Religion A.P. Coudert, R.H. Popkin, G.M. Weiner, 2013-04-17 Some scholars in the history of ideas have had a growing interest in examining Leibniz's many discussions of various aspects of religion Christian Jewish and far eastern Leibniz with his voracious interest and concern for so many aspects of human intellectual and spiritual life read a wide variety of books on the various religions of mankind He also was in personal contact with many of those who espoused orthodox and non orthodox views He annotated his copies of many books on religious subjects And he was working on schemes for reuniting the various Catholic and Protestant churches in Europe Studies on Leibniz's views on Judaism on the Kabbalah on Chinese thought have been appearing over the last decades It was decided by some of us that since there has been a growing interest in this side of Leibniz's thought it would be a good idea to bring together a group of scholars working on different aspects of Leibniz's views on religion mysticism and spiritualism in order to have them present papers on their current researches and to have the opportunity for lengthy discussion formal and informal in the most pleasant

Mysticism William B. Parsons, 2011-12-16 The term mysticism has never been consistently defined or employed either in religious traditions or in academic discourse The essays in this volume offer ways of defining what mysticism is as well as methods for grappling with its complexity in a classroom This volume addresses the diverse literature surrounding mysticism in four interrelated parts The first part includes essays on the tradition and context of mysticism devoted to drawing out and examining the mystical element in many religious traditions The second part engages traditions and religious cultural strands in which mysticism is linked to other terms such as shamanism esotericism and Gnosticism The volume's third part focuses on methodological strategies for defining mysticism with respect to varying social spaces The final essays show how contemporary social issues and movements have impacted the meaning study and pedagogy of mysticism Teaching Mysticism presents pedagogical reflections on how best to communicate mysticism from a variety of institutional spaces It surveys the broad range of meanings of mysticism its utilization in the traditions the theories and methods that have been used to understand it and provides critical insight into the resulting controversies **The Cambridge Companion to Christian**

Mysticism Amy Hollywood, Patricia Z. Beckman, 2012-09-17 The Cambridge Companion to Christian Mysticism is a multi-authored interdisciplinary guide to the study of Christian mysticism with an emphasis on the third through the seventeenth centuries The book is thematically organized in terms of the central contexts practices and concepts associated with the mystical life in early medieval and early modern Christianity This book looks beyond the term mysticism which was an early modern invention to explore the ways in which the ancient terms mystic and mystical were used in the Christian tradition what kinds of practices modes of life and experiences were described as mystical What understanding of Christianity and of the life of Christian perfection is articulated through mystical interpretations of scripture mystical contemplation mystical vision mystical theology or mystical union This volume both provides a clear introduction to the Christian mystical life and articulates a bold new approach to the study of mysticism **The Essentials of MYSTICISM** Evelyn Underhill, 2020-04-28

Evelyn Underhill was one of the greatest spiritual writers of the twentieth century Her legacy as a pivotal figure in Christian mysticism endures today For her true mysticism is first of all active and practical an organic life process in which the whole self is engaged rather than simply an intellectual apprehension Underhill's essays on the topic merit a reexamination since it is still used in most courses that explore the experience of God called mysticism and still attracts contemporary spiritual seekers Excerpt What are the true essentials of mysticism When we have stripped off those features which some mystics accept and some reject all that is merely due to tradition temperament or unconscious allegorism what do we find as the necessary and abiding character of all true mystical experience This question is really worth asking For some time much attention has been given to the historical side of mysticism and some much less to its practice But there has been no clear

understanding of the difference between its substance and its accidents between traditional forms and methods and the eternal experience which they have mediated In mystical literature words are frequently confused with things and symbols with realities so that much of this literature seems to the reader to refer to some self consistent and exclusive dream world and not to the achievement of universal truth Thus the strong need for re statement which is being felt by institutional religion the necessity of re translating its truths into symbolism which modern men can understand and accept applies with at least equal force to mysticism It has become important to disentangle the facts from ancient formulae used to express them Contents THE ESSENTIALS OF MYSTICISM THE MYSTIC AND THE CORPORATE LIFE MYSTICISM AND THE DOCTRINE OF ATONEMENT THE MYSTIC AS CREATIVE ARTIST THE EDUCATION OF THE SPIRIT THE PLACE OF WILL INTELLECT AND FEELING IN PRAYER THE MYSTICISM OF PLOTINUS THREE MEDIAEVAL MYSTICS I THE MIRROR OF SIMPLE SOULS II THE BLESSED ANGELA OF FOLIGNO III JULIAN OF NORWICH MYSTICISM IN MODERN FRANCE I SOEUR TH R SE DE L ENFANT J SUS II LUCIE CHRISTINE III CHARLES P GUY **Mysticism in Religion** Wr

in Judaism, Christianity, and Islam Ori Z. Bede Griffiths, 1990 The author invites us to look afresh at Christianity in the context of modern physics on the one hand and Eastern mysticism on the other Scientists now acknowledge that quantitative enquiry can reveal only one aspect of reality and to come to terms with a much deeper transcendent reality we must also be prepared to learn from Eastern traditions The Western mechanistic model of the universe dating from the time of Galileo and Newton must now be replaced with a new organic model this marks a return to the ancient traditional wisdom in which the universe was seen to consist not only of a physical dimension but also of psychological and spiritual dimensions all of which are interrelated and interdependent In exploring the divine mystery behind human life the author seeks to discover the basic unity which underlies all religion and

discusses the concept of the Cosmic Person or Cosmic Lord as revealed in Christianity Hinduism Buddhism and Islam He concludes that a radical vision of a new society and a universal religion in which the essential values of Christianity will be preserved in living relationship with the other religious traditions of the world

Religion and Reality, a Study in the Philosophy of Mysticism James Henry Tuckwell, 1915

Comparative Mysticism Steven T. Katz, 2013 This collection of primary texts introduces readers to the mystical literature of the world's great religious traditions Beginning with an introduction by Steven T Katz a leading scholar of mysticism the anthology comprises poetry prayer narrative and other writings from Jewish Christian Muslim Hindu Buddhist Taoist Confucianist and Native American traditions This collection provides readers not only with the primary mystical texts from each religious tradition but with an explanation of the context of the source and tradition Comparative Mysticism shows how the great mystical traditions of the world are deeply rooted in the religious traditions from which they originated The contextual methodological approach taken throughout the anthology also addresses the critical question of what these mystical traditions at their highest level have in common Despite the prevailing view that mystical traditions throughout the world are essentially similar the presentation of the sources in this volume suggests that in fact the various traditions have distinct teachings and different metaphysical goals The writings collected in Comparative Mysticism address the most fundamental and important methodological epistemological and hermeneutical questions regarding the study and interpretation of mysticism and mystical sources across cultures This anthology will be an invaluable resource to students and scholars of mystic tradition for years to come

Signposts to Silence J.S. Krüger, 2018-12-01 Signposts to Silence provides a theoretical map of what it terms metaphysical mysticism the search for the furthest most inclusive horizon the domain of silence which underlies the religious and metaphysical urge of humankind in its finest forms Tracing the footsteps of pioneers of this exploration the investigation also documents a number of historical pilgrimages from a variety of cultural and religious backgrounds Such mountaineers of the spirit who created paths trodden by groups of followers over centuries and in some cases millennia include Lao Tzu and Chuang Tzu Siddhattha and Jesus Sankara and Fa tsang Plato and Plotinus Isaac Luria

and Ibn Arabi Aquinas and Hegel Such figures teachings and traditions including the religions of Judaism Christianity and Islam Hinduism Buddhism and Taoism are understood as at their most sublime not final destiny and the end of the road but signposts to a horizon of ultimate silence The hermeneutical method employed in tracking such pioneers involves four steps sound historical critical understanding of the context of the various traditions and figures reconstruction of the subjective intentional structure of such persons and their teachings design by the author of a theoretical map of the overall terrain of metaphysical mysticism on which all such journeys of the spirit are to be located while providing a theoretical context for understanding them tendentially i e taking the ultimate drift of their thinking essentially to transcend their subjective intentions drawing out within the space available some political taken in a wide sense implications from the above such as religio political stances as well as ecological and gender implications Continuing the general direction of thought within what the author endorses to be the best in metaphysical mysticism in its historical manifestations the book aims to contribute to peace amongst religions in the contemporary global cultural situation It relativizes all claims to exclusive absolute truth that might be proclaimed by any religious or metaphysical mystical position while providing space for not only tolerating but also affirming the unique value and dignity of each This orientation moves beyond the stances of enmity or indifference or syncretism or homogenisation of all as well as that of mere friendly toleration It investigates the seemingly daunting and inhospitable yet immensely significant Antarctica of the Spirit the meta space of silence behind the various forms of wordy inter relationships It affirms *pars pro toto totum pro parte* and *pars pro parte* that each religious mystical and metaphysical orientation in its relative singularity represents or contains the whole and derives value from that and that each represents or contains every other This homiversal solidarity stimulating individual uniqueness is different from and in fact implies criticism of the process of globalisation While not taking part in a scientific argument as such Signposts to Silence aims at promoting an understanding of science and metaphysical mysticism as mutual context for each other and it listens to a number of voices from the domain of science that understand this
