Rethinking the Trinity and Religious Pluralism Keith E. Johnson, 2011-09-02 Founding his argument on a close reading of St Augustine's De Trinitate Keith Johnson critiques four recent attempts to construct a pluralistic theology of religions out of the orthodox doctrine of the Trinity

Pluralism: The Future of Religion Kenneth Rose, 2013-03-28 Theology of religions has defaulted in the last two decades to an epicyclic inclusivism which seeks to undermine pluralism with claims that it is covertly triumphalistic and that it mirrors the logic of exclusivism With the exception of pioneers in the field such as John Hick and Paul Knitter most major figures in this theological field have retreated from pluralism and promote versions of particularism and inclusivism Pluralism The Future of Religion argues for an apophatic pluralism that is motivated by the insight that it is impossible to secure universal assent for changeable bodies of religious teachings This insight implies the non finality and consequent departicularization of all religious teachings and their inclusivistic defenses These conclusions point us inevitably toward pluralism and lead us out of the inclusivistic impasse of contemporary theology in religions

Shenk,Richard J. Plantinga,2016-10-11 Over the past two centuries the Christian faith has spread to all continents Although more global than ever Christians are religious minorities in most societies Religious freedom is hardly universal In the past fifty years millions of people have been uprooted from their traditional homelands in Asia Africa and Latin America Some have emigrated to Western Europe and North America The West has become the scene of cultural linguistic and religious variety on a scale unimagined in 1900 Today the full range of faiths and religious practices from all continents are present in Europe and North America Christians are challenged to come to terms with this changed situation These developments have intensified religious plurality Christians all over the world are being urged to understand and engage with this new situation This volume highlights this new reality and specifies some sources for engagement not least among them the Judeo Christian scriptures fundamental to all Christianities that emerged out of religious plural contexts On the basis of their faith in the Triune God disclosed in this text all followers of Jesus Christ must interact with these opportunities in today s radically context sensitive world

Eddy,2020-08-26 This title was first published in 2002 One of the most fascinating and controversial interpretations of religious diversity is religious pluralism According to John Hick s model of religious pluralism all the world s great religions are equally valid ways of understanding and responding to the ultimate spiritual reality This book offers an exposition of and critical response to John Hick s model Introducing the various interpretations of religious diversity being discussed today this book presents constructive suggestions as to how things could be further developed to offer a more accurate less confusing presentation of the various options in theology of religions The standard threefold typology of responses to religious diversity

exclusivism inclusivism and pluralism are explained and defended Hick's pluralist interpretation of religious diversity is traced culminating in a critical assessment of Hick's pluralistic model and an up to date summary of a variety of critiques directed toward Hick's proposal Paul Rhodes Eddy concludes that Hick's present model is ultimately unsuccessful in retaining both of his long cherished goals a robust religious realism and a consistent religious pluralism whilst overcoming the most difficult problem for the pluralist the fact that the world's religions understand the divine in often contradictory ways

Process and Pluralism Zhihe Wang, 2013-05-02 This book offers a uniquely process relational oriented Chinese approach to inter religious dialogue called Chinese Harmonism The key features of Chinese harmonism are peaceful co existence mutual transformation and openness to change As developed with help from Whiteheadian process thought Chinese harmonism provides a middle way between particularism and universalism showing how diversity can exist within unity Chinese harmonism is open to similarities among religions but it also emphasizes that differences among religions can be complementary rather than contradictory Thus Chinese harmonism implies an attitude of respect for others and a willingness to learn from others without reducing the other to one's own identity that is to sameness By emphasizing the possibility of complementariness a process oriented Chinese harmonism avoids a dichotomy between universalism and particularism represented respectively by John Hick and S Mark Heim and will make room for a genuine openness and do justice to the culturally and religiously other

Kaunda, 2020-11-24 In African Theology Philosophy and Religions Celebrating John Samuel Mbiti's Contribution contributors explore John Samuel Mbiti's contributions to African scholarship and demonstrate how he broke through the western glass ceiling of scholarship and made African informed and African shaped scholarship a reality Contributors examine the far reaching implications of Mbiti's scholarship arguing that he shifted the contemporary African Christian landscape and informed global expressions of Christianity African Theology Philosophy and Religions analyzes Mbiti's scholarship and shows that his theories are malleable and fluid allowing a new generation of scholars to reinterpret reconstruct and further develop his theories This collection brings together contributors from a wide range of disciplines to study John Samuel Mbiti as the father of contemporary African theology and grapple with questions Africans face in the twenty first century

Religious Diversity—What's the Problem? Rita M. Gross, 2014-04-24 Once upon a time on grounds of both religion and common sense people assumed that the earth was flat and that the sun literally rose and set each day When newly developing knowledge made those beliefs untenable giving them up was difficult Today the belief that only one of the world's various religions is true for all people on earth is equivalent to the belief in a flat earth Both notions have become untenable given contemporary knowledge about religion Even though many people are still troubled by the existence of religious diversity today that diversity is a fact of life Religious diversity should be no more troubling to religious people than the fact that the earth is round and circles the sun This provocative book based on the author's longtime practice of

Buddhism and comparative study of religion provides tools with which one can truly appreciate religious diversity as a gift and resource rather than as a deficiency or a problem to be overcome. After we accept diversity as inevitable and become comfortable with it, diversity always enriches life, both nature and culture.

Many Paths Eugene Hillman, 2008-06-01 In *Many Paths*, Eugene Hillman, a pioneer in the area of interreligious dialogue and Catholic thought, argues that the wider ecumenism to which Christians were summoned by Vatican II may prove to be the most radically demanding of the Council's many calls. It requires a reexamination of christology, of ecclesiology, of missiology, and a coming to terms with the reality of religious pluralism. By exploring religion's historico-cultural dimensions, examining the Church's tradition and practice vis-à-vis other cultures and religions, and explicating the challenges of a post-Vatican II ministry, *Many Paths* makes a vital contribution to the development of interreligious dialogue.

Gods, Heroes, and Ancestors Anh Q. Tran, 2018 Though a minority religion in Vietnam, Christianity has been a significant presence in the country since its arrival in the sixteenth century. Anh Q. Tran offers the first English translation of the recently discovered 1752 manuscript *Tam Gi o Chu Vong*. The *Errors of the Three Religions*, structured as a dialogue between a Christian priest and a Confucian scholar, this anonymously authored manuscript paints a rich picture of the three traditional Vietnamese religions: Confucianism, Buddhism, and Daoism. The work explains and evaluates several religious beliefs, customs, and rituals of eighteenth-century Vietnam, many of which are still in practice today. In addition, it contains a trove of information on the challenges and struggles that Vietnamese Christian converts had to face in following the new faith. Besides its great historical value for studies in Vietnamese religion, language, and culture, *Gods, Heroes, and Ancestors* raises complex issues concerning the encounter between Christianity and other religions, Christian missions, religious pluralism, and interreligious dialogue.

Fundamental Ethics Patricia McAuliffe, 1993 In this stimulating rethinking of the basic foundations of ethics, Patricia McAuliffe derives a fundamental ethic from liberation theology. She asserts that the experience of resisting suffering, especially oppressive social suffering, must be brought from the fringe to the very center of ethics. Arguing for the conceptual priority of ethics over religion, McAuliffe defines an innovative ethic based on experience and practice. Ethics precedes religion and theology because experience and practice precede theory and interpretation, which are the human activities of religion and theology. Knowledge is based on experience. She proposes that ethics can be independent of religion, but that while her liberationist ethic can be either Christian or universal, finally the poor and oppressed are the paradigm source of the disclosure of God and of final salvation. In rethinking the basic foundations of ethics, she compares a liberationist ethic, including Latin American and women's liberation theology, with various classical ethics and examines and critiques the works of Edward Schillebeeckx, Juan Luis Segundo, Dorothee Soelle, James Gustafson, and George Lindbeck. McAuliffe offers a flexible ethic that balances the absolute and the relative, the particular and the universal, the personal and the social, creativity and conditioning, practice and theory, and the ethical and religious. Combining superior scholarship with an original and creative approach to ethics, this book is likely to

create debate in the fields of fundamental ethics theology and philosophy **Catholic Engagement with World Religions**
