Myth Of The Market Promises And Illusions:

The Myth of the Market Jeremy Seabrook, 1990 **A Commodified World** Colin C. Williams, 2005-03-04 This volume provides a critique of the assumption of increasing commodification in the modern economy *Intending the World* Ralph Pettman, 2008 How we look at the world is informed mainly by our assumptions and the ways in which we rationalise them Seldom do we rely or allow ourselves to rely on gut thinking or intuition *Intending the World* shows how rationalism which is our primary approach in thinking about world affairs is in crisis By studying the world rationalistically we objectify it and we look at it as detached from ourselves But in doing so we cease to see that we are using a perspective that limits as well as enlightens In a disciplinary first Ralph Pettman provides an account of twenty first century international relations in terms of phenomenology one of the main philosophical attempts to compensate for these limits He explores how this re embedded use of reason can successfully describe and explain world affairs in ways unused by rationalists *Intending the World* follows the lead of the German philosopher Edmund Husserl It looks at the world not only in terms of things in themselves but also in terms of why it is we keep willing the world the way we do **The Accumulation of Freedom** Anthony Nocella II, Deric Shannon, John Asimakopoulos, 2012-01-10 Who says economic science is dismal Anarchists investigate an economics beyond capitalism **How Corporations Hurt Us All** Dan Butts, 2003 The recent accounting and corporate scandals of Enron WorldCom Tyco K Mart and McWane producer of cast iron water and sewer pipes which has killed 9 workers and injured 4600 more with impunity since 1995 and other greedy and lawless billion dollar behemoths are just the tip of the iceberg relative to the serious and pervasive harm that corporations and greed are doing to people communities the earth and to our children s and grandchildren s future *How Corporations Hurt Us All* examines many crises including how Big Oil billion dollar weapons contractors and unaccountable private firms like DynCorps are continuing dangerous and immoral Cold War policies by driving multiple wars and military operations our collapsing corporate health care system that restricts free speech stifles public debate and manipulates public opinion to serve narrow corporate and political goals Some of the world s largest multinational corporations DExxonMobil 1 oil company Wal Mart 1 retailer HCA 1 hospital conglomerate Citigroup the world s 1 financial institution and other rogue operations are profiled in the book The good news is that there are effective approaches to all of these interrelated greed driven crises Even more hopeful are the corporate reform and global economic democracy movements representing thousands of dedicated citizens groups and millions of individuals throughout the world Yet what is ultimately necessary to reverse global economic social and environmental deterioration and eventual collapse insure world peace and security strength our weakened civil liberties and fulfill our human potential as the book explains is forging a broad consensus on a new bottom line or organizing principle for business and society **Postmodernism and Organizations** John Hassard Martin Parker, 1993-07-13 Essential reading for all those concerned with contemporary theorizing of organization this important and thought provoking volume explores the implications of postmodernist

poststructuralist thinking for organizations and organizational analysis The book introduces the concepts underpinning a postmodern organizational analysis contrasting modern and postmodern forms of explanation and addressing the distinctions between postmodernity and postmodernism Succeeding chapters then examine and assess the interplay of major postmodernist themes such as deconstruction desire difference pluralism and relativism with key topics of organizational analysis and research The final section is one of critique as its authors variously argue that postmodernism fails adequately to address the realities of power control and change in a globalizing world
