Mythes Reves Et Mysteres:

The Patient Griselda Myth Madeline Rüegg, 2019-06-04 From the 14th until the 19th century the last novella of Boccaccio's Decameron also known as the Griselda story has been translated and adapted countless times in many European languages This story's success can be explained by considering it a myth and analysing how this myth engages with contemporary discourses such as the definition of the ideal wife the querelle des femmes the socio political consequences of social exogamy and tyranny

The Poetics of Myth Eleazar M. Meletinsky, 2014-01-21 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company **Mythes, Rêves Et Mystères. Myths, Dreams and Mysteries. The Encounter Between Contemporary Faiths and Archaic Realities ... Translated by Philip Mairet** Mircea Eliade, Philippe Auguste MAIRET, 1960 **MYTH, SYMBOL, AND RITUAL: ELUCIDATORY PATHS TO THE FANTASTIC UNREALITY**

MARIA-LUIZA DUMITRU OANCEA, RAMONA MIHĂILĂ, 2019-01-01 The present volume insists on the policies derived from the social ideas generated by myths the updating of myths as an arsenal of social pedagogy on the ethnic condition of the relevance of myths but also on the resumption by mass media of the pejorative sense of the myth This volume is part of the scientific series Mythology and Folklore Narratives of fear and safety Kaisa Kaukiainen, Kaisa Kurikka, Hanna Mäkelä, Elise Nykänen, Sanna Nyqvist, Juha Raipola, Anne Riippa, Hanna Samola, 2020-09-01 The essays in this edited volume written in English and French tackle the intriguing problems of fear and safety by analysing their various meanings and manifestations in literature and other narrative media The articles bring forth new cross cultural interpretations on fear and safety through examining what kinds of genre specific means of world making narratives use to express these two affectivities The articles also show how important it is to study these themes in order to understand challenges in times of global threats such as the climate crisis The main themes of the book are approached from various theoretical perspectives as related to their literary and cultural representations Recent trends in research such as affect and risk theory serve as the basis for the discussion The articles in the volume also draw from disciplines such as gender studies and trauma studies to examine the threats posed by collective fears and aggression on individuals' lives and propose ways of coping with fear These themes are addressed also in articles analysing new adaptations of old myths that retell stories of the past Many of the articles in the volume discuss apocalyptic and dystopian narratives that currently permeate the entire cultural landscape Dystopian narratives do not only deal with future threats such as totalitarianism technocracy or environmental disasters but also suggest alternative ways of being and new hopes in the form of political resistance *The Study of Religion Under the Impact of Fascism* Horst Junginger, 2008 Addressing the European study of religion in the interwar period these proceedings tackle one of the most problematic epochs of its history The commonplace that understanding the present requires learning from the past is particularly true as this case well illustrates **The Net and the Nation State** Uta Kohl, 2017-05-25 This collection investigates the sharpening conflict between the nation state and the internet through a multidisciplinary lens It

challenges the idea of an inherently global internet by examining its increasing territorial fragmentation and conversely the notion that for states online law and order is business as usual Cyberborders based on national law are not just erected around China's online community Cultural political and economic forces as reflected in national or regional norms have also incentivised virtual borders in the West The nation state is asserting itself Yet there are also signs of the receding role of the state in favour of corporations wielding influence through de facto control over content and technology This volume contributes to the online governance debate by joining ideas from law politics and human geography to explore internet jurisdiction and its overlap with topics such as freedom of expression free trade democracy identity and cartographic maps

The Life and Work of Ernesto De Martino Flavio A. Geisshuesler, 2021-08-09 In *The Life and Work of Ernesto de Martino* Italian Perspectives on Apocalypse and Rebirth in the Modern Study of Religion Flavio A Geisshuesler offers a comprehensive study of one of Italy's most colorful historians of religions The book inserts de Martino's dramatic life trajectory within the intellectual climate and the socio political context of his age in order to offer a fresh perspective on the evolution of the discipline of religious studies during the 20th century Demonstrating that scholarship on religion was animated by moments of fear of the apocalypse it brings de Martino's perspective into conversation with Mircea Eliade Claude Lévi Strauss and Clifford Geertz in order to recover an Italian approach that promises to redeem religious studies as a relevant and revitalizing field of research in the contemporary climate of crisis *The Discourse of Modernism* Timothy J.

Reiss, 2018-03-15 Timothy J Reiss perceives a new mode of discourse emerging in early seventeenth century Europe he believes that this form of thought still our own may itself soon be giving way In *The Discourse of Modernism* Reiss sets up a theoretical model to describe the process by which one dominant class of discourse is replaced by another He seeks to demonstrate that each new mode does not constitute a radical break from the past but in fact develops directly from its predecessor *The Study of Politics* M. Duverger, 2012-12-06 If the study of politics is to be rewarding both intellectually

and practically it must by definition concern itself with the great issues which arise in the real world and with the fundamental arguments which occur about their nature and the possible solutions to them Abstract political philosophy which is not informed by the experience of practice will become sterile A study of constitutions and the machinery of government can become dry as dust and hence boring unless the underlying principles are analysed and grasped But theories of political change divorced from an understanding of constitutions and institutions will degenerate into mere phrasemongering Attempts to apply the techniques of the natural sciences to politics will lead to model building for its own sake and thence to arid and barren intellectualism unless it is understood that it is impossible to quantify the intangible Indeed anyone sided approach to politics and consequent failure to grasp the essential wholeness of the subject is bound to end in disaster The study of politics is a study of changing human relationships in dynamic societies Thus it involves since the present and hence the future are shaped in part by the past an appreciation of history
