Do traditions contribute to children's spirituality? Why and how so? From theoretical and practical considerations, this book explores children's weaving of and distancing from family, cultural, educational, and religious traditions. It examines the transformational relationship between traditions and young people's lives and spirituality and pursues answers to the following questions: What kind of traditions influences young people's spirituality and how are those influences exerted? How and under the influence of whom do children develop their own worldviews and their own sets of values? How does that contribute to their identity building? How is children's spirituality connected to traditions? The chapters in this book seek answers to these questions by delving into the varied influences that contribute to children's spiritual development, such as construction of identities, the role of rituals, fables, and symbols, subcultures, and new religious movements, neoliberal educational practices, and the importance of play and languages in spirituality experienced by both the children and the young. Insightful and thought provoking, this book will be a key resource for practitioners, researchers, and scholars in theology and religious studies, early childhood and education, education, developmental psychology, and children's studies, and will also appeal to anyone interested in understanding the relationship between traditions and young people's lives. The chapters included in this book were originally published in the *International Journal of Children's Spirituality*.

Growing Into Myself Thea Euryphaessa, 2013-12-01 Do you have the courage to explore yourself with total honesty, to accept yourself, soul through bone, to ignore conventional expectations and be true to your inner Self, no matter what? In her debut memoir *Running Into Myself*, Thea Euryphaessa revealed how a seemingly random impulse to sign her unfit, overweight body onto three marathons helped her to overcome depression and abandon the well-worn road of the mundane. Now *Growing into MySelf* follows her as she comes full circle in her transformational Hero's Journey, submitting to the deeper, darker realm of soul, sex, and an uncertain relationship framed by a series of five Tantra workshops that Thea undertakes over the course of eighteen months. Continuing to explore myth, archetypes, dreams, and depth psychology, Thea learns to surrender to the body's wisdom while also embracing intellect in her quest to become sexually confident and psychologically whole in short, a woman of substance.

Parenting the Guardian Class Jonathan I. Cloud, 2008-06 It has been a continuous struggle with myself as to whether I should write this journal I was frustrated and needed to ascertain some way of keeping my sanity It finally dawned on me that on the occasions when I was very frustrated writing thoughts down might become a way to alleviate some of that stress In writing this journal I hoped to shed some light on the employees and their perceptions and how they contributed to some of the problems at United Airlines In the years I worked at United Airlines I made some of the best friends I will ever have I do not want you to think all the time I spent at United was negative It was not I have had some very good times and enjoyed working for them Through all the challenges I faced the good times far outweigh the bad I always believed in doing things to enhance the work environment and make it a fun experience for everyone so that it did not feel like being on a job Therefore I helped organize plan and create that atmosphere through functions such as potlucks and steak barbecues In addition I would bring in bagels cakes cookies etc for the whole shop We had a lot of fun United had some of the best people you could ever imagine working for them we were all like family I had no intention of doing anything with these writings it was simply a catharsis for me When I retired there were so many things going on with United I decided at that point maybe I should publish my journal A lot of the things that happened were events I was afraid would happen And did such as the loss of so many jobs

What Dying People Want Dr. David Kuhl, 2011-07-27 An internationally renowned palliative care physician offers guidance on living with a terminal illness Based on research funded by the Soros Foundation and extensive interviews with dying people A profound and practical book about living with a terminal illness over a long period of time It offers guidance solace and helpful strategies for people who are terminally ill their families and caregivers Facing death results in more fear and anxiety than any other human experience Western medicine has accomplished a great deal in addressing physical pain and controlling

symptoms for people with a terminal illness but much slower progress has been made in understanding and alleviating psychological and spiritual distress In *What Dying People Want* Dr David Kuhl begins to bridge that gap He does so by addressing end of life realities physical psychological and spiritual through his own experiences as a doctor and through the words and experiences of people who know that they are dying He presents ways of addressing the pain of finding new life in the process of dying and of understanding the inner reality of living with a terminal illness He acknowledges the despair and recognizes the desire for hope and meaning Dr Kuhl also makes the provocative case that insensitive communication by doctors creates more suffering for patients than either the illness or the knowledge of impending death and offers both the dying and their caregivers guidance on preventing painful interactions He provides ways of speaking about difficult topics with physicians family members friends and those who have a terminal illness This book started with a research question What is the daily experience of living with a terminal illness How does that experience affect your sense of self your relationship with others and your understanding of the spiritual Many of those I interviewed asked me to share what they had given me with others who would follow those with a terminal illness as well as their friends and family members who would care for them and about them They asked specifically that I write a book for a general audience and not only for my colleagues in the medical profession This is the book that grew out of that research Dr David Kuhl *Hermes and Aphrodite Encounters* Metka Zupančič,2004 *Marketing Metaphoria* Gerald Zaltman,Lindsay H. Zaltman,2008 Marketing Metaphoria undresses the mind of the consumer to reveal the powerful unconscious viewing lenses that shape what people think hear say and do These lenses are called deep metaphors and they populate the unconscious mind Understanding how people use deep metaphors will help you develop new products launch innovations enhance purchase and consumption experiences create engaging communications and much more Drawing on thousands of interview the authors identify seven primary deep metaphors Knowing how they influence your consumers can have a huge effect on your sales and profits Marketing Metaphoria describes how some of the world s most famous companies as well as small firms not for profits and social enterprises have successfully leveraged deep metaphors to solve their marketing problems Jacket *Essentials of Managing Stress W/ CD* Brian Seaward,2011-08-24 Identify stress prone behaviours and make effective changes that promote optimal wellbeing
