Mythic Life:

Fields of Dreams Jean Houston, 1996 In *A Mythic Life* Jean Houston shows how we can discover the mythic elements in our lives and explains how our mythology fits into the emerging global consciousness Drawing from her own life experiences as well as from the astounding wealth of cultural knowledge she has acquired while working with indigenous peoples all over the world Houston shows how the mythic patterns that underlie each of our lives are repeated again and again across cultures and across time like the patterns that emerge from the seeming chaos in fractal images Houston uses the story of her life to explain how our recent history is a story of convergence Thanks to the communications revolution everything the human race has ever done or thought is suddenly becoming available to each of us And out of this wealth of cultural knowledge a new mythology is being born a mythology that will change the world as it embraces the mythic elements in each of our lives

The Art of Life Mutlu Konuk Blasing, 2014-06-23 Autobiographical literature especially reveals the processes by which writers convert their own historical experience into fictional form and suggests how literary forms function in life This volume defines an original theory of autobiographical writing and provides intriguing analyses of major American works of literature *The Art of Life* examines the transformation of history into literature in *Walden* *Song of Myself* Henry James's Prefaces *The Education of Henry Adams* Paterson and the poetry of Frank O'Hara These works are approached as events in themselves and are analyzed as conversions of form and history fiction and fact and even aesthetics and politics Thus the work of literature is set in the total experience of living and the writer is seen not only as an artist but also as a person in a historical political and cultural environment As well as a creator of literature the writer is viewed as a social psychological and biological being Chapters on the narcissistic economy of *Walden* the mythicizing of history and personality in *Song of Myself* the self-conscious relation that makes the Prefaces of Henry James the autobiography of an artist the comic perspective of *The Education of Henry Adams* and the radical innovation of Paterson and O'Hara's poetry provide new readings of major American works Each chapter contains some distinct critical insight which not only contributes to but can be relished apart from the book's overarching theoretical argument *The Art of Life* is a sophisticated theoretical discussion of autobiography with rich psychological philosophical and cultural ramifications
