Mythological Deliberations:

Mythological Deliberations A. Piatigorski, 2012-11-12 The thoughts of Alexander Piatigorski on comparative myths as delivered in a series of lectures for the Jordan Lectures in Comparative Religion at the School of Oriental and African Studies London in May 1992

Beyond Phenomenology Gavin Flood, 1999-10-01 This book argues that the understanding and explanation of religion is always historically contingent Grounded in the work of Bakhtin and Ricoeur Flood positions the academic study of religion within contemporary debates in the social sciences and humanities concerning modernity and postmodernity particularly contested issues regarding truth and knowledge It challenges the view that religions are privileged epistemic objects argues for the importance of metatheory and presents an argument for the dialogical nature of inquiry The study of religion should begin with language and culture and this shift in emphasis to the philosophy of the sign in hermeneutics and away from the philosophy of consciousness in phenomenology has far reaching implications It means a new ethic of practice which is sensitive to the power relationship in any epistemology it opens the door to feminist and postcolonial critique and it provides a methodology which allows for the interface between religious studies theology and the social sciences

Myth and Mythmaking Julia Leslie, 2014-02-04 Essays focusing on some of the ways in which myths have been made and made to function in the rich cultural history of India from the dawn of history through to the present day

The Cultural Origins of the Socialist Realist Aesthetic, 1890-1934 Irina Gutkin, 1999 The past fifteen years have seen an important shift in the way scholars look at socialist realism Where it was seen as a straitjacket imposed by the Stalinist regime it is now understood to be an aesthetic movement in its own right one whose internal logic had to be understood if it was to be criticized International specialists remain divided however over the provenance of Soviet aesthetic ideology particularly over the role of the avant garde in its emergence In *The Cultural Origins of the Socialist Realist Aesthetic* Irina Gutkin brings together the best work written on the subject to argue that socialist realism encompassed a philosophical worldview that marked thinking in the USSR on all levels political social and linguistic Using a wealth of diverse cultural material Gutkin traces the emergence of the central tenants of socialist realist theory from Symbolism and Futurism through the 1920s and 1930s

Psychoanalytic Explorations into the Primal Relationship in Japan and India Osamu Kitayama, Jhuma Basak, 2025-07-10 In this landmark collaboration Osamu Kitayama and Jhuma Basak chronicle their long standing collaboration and cultural exchange to survey the importance of familial relationships in Japan and India exploring primal relations through a cross cultural psychoanalytic lens Divided into three sections *Psychoanalytic Explorations into the Primal Relationship in Japan and India* looks at each country's perception of parenthood and approach to raising children in turn before concluding in an illuminating dialogue between the two authors Kitayama explores the maternal figure within the mother child relationship with a focus on the mother son dyad as well as relationships between parents He considers in depth how Japanese culture can often exclude what is perceived as alien delving into its rich tapestry

of folklore to understand underlying mental scripts which can shape collective perceptions societal norms and expectations each of which can pose an issue to healthy familial relationships Basak s response draws from Indian socio cultural and mythological contexts as well as clinical applications to provide psychoanalytic insight into the stark differences and similarities between attitudes in Japan India and the eastern culture at large Both authors join together to highlight different child rearing practises such as co sleeping and how they can shape human sexuality subjectivity Challenging the standardisation of the Oedipal myth the book draws from literary and clinical examples in Japan and India to invite the reader into another world of parenting style and another idiom of psychoanalysis Uniquely positioned to develop understanding of how psychoanalysis has developed in non Western countries this book is an essential resource for psychoanalysts in training and in practice

An Integrative Model of Moral Deliberation J. Jeffrey Tillman, 2016-04-27 An Integrative Model of Moral Deliberation maintains that current models of moral deliberation do not effectively deal with contemporary moral complexity because they are based on an inadequate theory of moral cognition Drawing on research in neuroscience evolutionary psychology social theory and dual process cognitive theory and on the work of William James this book develops a theory of moral cognition which provides a major role for aesthetic sensibilities and upon this theory develops a robust model of moral deliberation This model portrays moral deliberation as a back and forth movement between intuitive and analytic cognitions which constructs narrative scenarios and then assesses and revises them according to aesthetic sensibilities

Freemasonry Alexander Piatigorsky, 2013-01-31 This study considers the institution of Freemasonry from the point of view of both masons and their critics as well as from the author s own In the first section it gives an outline of masonic history from the foundation of the Grand Lodge in Covent Garden in 1717 through its major role in Enlightenment Europe and the American War of Independence its many tribulations and schisms in the 19th century to the present day The book looks at one of the main sources of masonic history Anderson s Constitutions which documents masonic practice and the masons mythical history back to Hiram Abiff the first Master Mason in the reign of King Solomon

K2, Quest of the Gods Ralf Ellis, The Great Pyramid in the Himalaya In Thoth Architect of the Universe Ralf discovered evidence for megalithic maps But if these megalithic maps are to be of any use in a quest for the mythical Hall of Records then they need to be a little more detailed than a simple representation of continents Luckily the shaft angles inside the Great Pyramid can refine these maps down to just a few tens of meters And so Ralf embarked on a long trek into the high Himalaya to see what lay at the heart of the Giza map Strangely enough what he found there was a giant snow white pyramid aligned with the cardinal points with a causeway aligned at 14 from its base exactly the same as the Great Pyramid itself Sequel to Thoth Architect of the Universe v3 6

Divine Descent and the Four World-Ages in the Mahābhārata - or, Why Does the Kṛṣṇa Avatāra Inaugurate the Worst Yuga? Simon Brodbeck, 2022-10-12 This monograph approaches the Mahābhārata as a single work of literature and the method is that of close textual study Key verses are quoted in the original Sanskrit and in English

translation The title problem has been recognised before but no detailed solution has been forthcoming The monograph s objective is to try to articulate a Mah bh rata theology of time In Chapter 1 the monograph s argument and synchronic methodology are summarised In Chapter 2 the cycle of four yugas world ages is outlined and discussed on the basis of the textual evidence Each yuga is shorter and less moral than the last and between them they constitute a repeating 12 000 year cycle In Chapter 3 the Mah bh rata war is shown to be located at the junction between the third and fourth yugas The idea of God Vi u N r ya a descending to improve the world is introduced and the title question is properly posed Why does God s descent as K a to make the Mah bh rata war happen inaugurate the worst yuga In Chapter 4 the various descents avat ras crossings down of God Vi u N r ya a are discussed Also discussed is a theory suggesting that the passage between yugas always requires a divine descent to effect it The limitations of this theory are described and an alternative sketched In Chapter 5 two general functions of divine descent are identified to improve the world morally by killing demons and to help the personified Earth by reducing the human weight upon her These two functions are correlated with the two extremities of the four yuga cycle between which time oscillates But the Mah bh rata war is not located at either extremity Central to the monograph is a survey and discussion of the reasons given for this particular descent These passages combine the two functions of divine descent neither of which is entirely appropriate to this moment It is argued that the descent here represents what happens over the course of the whole cycle The discussion draws on Vedic literature touches on gender issues and shows how the two functions play out in the story of the war In Chapter 6 the progress of the fourth yuga is tracked through the Mah bh rata s various characters and then the ancient audience who would anticipate the start of the next cycle It is hypothesised that this was to occur through the long term action of the Mah bh rata as more and more people would put into practice the teachings presented by K a in the Bhagavadg t The K a avat ra would thus inaugurate the worst yuga because the seed planted there takes time to ripen Chapter 7 reflects summarily upon the monograph s explorations the theory of divine descent and the text s theology of time By employing a resolutely synchronic methodology the monograph makes a significant contribution on an important and latterly overlooked issue *Teutonic Mythology* Viktor Rydberg, 1889
