Mythos Italien:

Mythos Italien Martin Luchsinger, 1996

Heimat Goes Mobile Gabriele Eichmanns, Yvonne Franke, 2013-07-26

Heimat has been a crucial concept for the construction of identity in the German speaking world. Seemingly impossible to translate, Heimat has served to describe feelings of comfort and belonging that are traditionally tied to a specific location: be it one's place of birth or childhood home. Yet in a world characterized by ever increasing global influences and a fast paced lifestyle, the notion of Heimat as a static inflexible and rather exclusionary idea is becoming more and more obsolete and is giving way to new hybrid Heimat forms that encompass traditional as well as foreign elements. Thus Heimat can no longer be perceived as a solely German concept but is rapidly merging binary opposites, shaping Germans' understandings of home in new and unexpected ways. The nine essays in this anthology explore these hybrid forms of Heimat in our globalized world from multiple angles. Some take a look at traditional genres of Heimat like the Heimatfilm or Heimatroman and examine how contemporary filmmakers Tom Tykwer, Fatih Akın and authors Hans Ulrich Treichel, Hugo Loetscher have appropriated those genres to arrive at an updated version of Heimat in the 21st century. Other articles focus on gendered readings of Heimat and show how Mo Asumang's *Roots*, Germania and Ula Stöckl's *Das alte Lied* emancipate the term from its nurturing, motherly qualities and instead provide women, including women of color, with powerful agency. Finally, contributors explore Heimat in the regional and historical contexts of East and West Germany, Switzerland and Romania. In the process, this anthology inscribes itself into the ongoing discourse on Heimat and enriches it by showing how the current notion of Heimat transcends traditional boundaries of nation, culture and race.

Italian Modernism Luca Somigli, Mario Moroni, 2004-12-15. *Italian Modernism* was written in response to the need for an historiographic and theoretical reconsideration of the concepts of Decadentismo and the avant garde within the Italian critical tradition. Focussing on the confrontation between these concepts and the broader notion of international modernism, the essays in this important collection seek to understand this complex phase of literary and artistic practices as a response to the epistemes of philosophical and scientific modernity at the end of the nineteenth century and in the first three decades of the twentieth. Intellectually provocative, this collection is the first attempt in the field of Italian Studies at a comprehensive account of Italian literary modernism. Each contributor documents how previous critical categories employed to account for the literary, artistic and cultural experiences of the period have provided only partial and inadequate descriptions, preventing a fuller understanding of the complexities and the interrelations among the cultural phenomena of the time.

Italy in the German Literary Imagination Gretchen L. Hachmeister, 2002. The German fascination with Italy as seen in Goethe's *Italian Journey* and in a number of literary reactions to it. Italy has long exerted a particular fascination on the Germans and this has been reflected in German literature most prominently in Goethe's *Italienische Reise* but also by numerous other writers who have returned to the topic. This book is concerned with two inextricably linked images: those of

the German traveler in Italy and of Italy in German literature in the first third of the 19th century Goethe's publication of his account nearly three decades after his actual journey was in some measure a vehicle to resist the challenge of a new generation of writers who in turn would confront what they found to be a questionable if not altogether false representation Hachmeister emphasizes the consequences of the disparity between the reality of Goethe's journey and his depiction of it taking into consideration also his occasional discomfort with Italy's classical past She shows how the German predilection for Italy is unique in the larger European cultural context of the Grand Tour before moving on to chapters that contain readings of *Italianische Reise* and Goethe's *Römische Elegien* Individual chapters follow on Eichendorff's *Aus dem Leben eines Taugenichts* Platen's *Sonette aus Venedig* and Heine's three Italian *Reisebilder* each of which is to some degree a reaction to Goethe's work These chapters investigate how the individual's reaction to Italy reflects his view of Germany and the author's role in early 19th century German society The conclusion offers a short glance at the continued evolution of the German fascination with Italy in the mid and late nineteenth century Gretchen Hachmeister received her Ph.D. in German literature from Yale University
